

## Dummies Lesson #19

### How to Destroy a Vortex Typhoon Avoiding Destruction

Avoiding upcoming Tornadoes so frequently seen on TV judging by the past years seems to be getting more intense. Not only scientists notice a global warming phenomena accelerated worldwide but seen on TV to witness in America a destructive weather pattern wiping out totally a number of towns and communities. It was reported with hundreds of deaths untold sufferings of damage and business in the billions of dollars.

However in this website a Jonah-II collected unusual science prophesied in the Bible which gave me direction where to look. Most earth weather pattern is now manmade controlled by NYC Illuminati bankers paying foremost American secret military cartels producing floating islands of high-tech microwave installations that can change the jet stream circling around our globe. When altered will have horrible floods washing out the infrastructure of a country, other areas will experience unusual draught like California and some States in Africa, worldwide nobody is exempt. The United Nation is a useful tool for the NYC banker in their global chess game to destroy all LIFE on earth to spread lies from well-paid bureaucrats.

To keep the world population confused and ignorant of so much death and destruction anyone in power is directed to cover-up truth thus obey a number of psychopath NYC bankers printing money to rule the whole earth with absolute power. Recently watched a YouTube from North Korea, I think it was Pyongyang which has more skyscrapers than San Francisco. Where did the money come from, who financed the nuclear program and the long-range missiles they export? Once more seeing a million soldiers goose-stepping across the parade center like Hitler and Stalin repeated again financed with the same NYC bankers still around printing money. Like the saying, "if it walks like a duck, squawks like a duck, must be a duck." Now many videos abound on the free Web to reveal what is suppressed by global governments, but do not believe that any country targeted experiencing disasters of a disturbed weather pattern is an isolated case.

I keep thinking as a scientist to make my mark in history for the benefit of mankind. How we can influence and neutralize a powerful vortex gaining speed. If we could snuff it out in the bud before it starts, we could save lives that could be possible with high technology. We can now buy cheaply satellite positioners to locate a spot within inches. We need two positioners aiming at the starting storm center and could triangular calculate the exact center of the vortex with computers. At the right timing could shoot a handheld missile with an embedded air-pressure charge exploding similar to submarine bomb aiming right in the vortex center ignited with an on board programmed positioners which creates a diversion pressure blowing up the whirlpool apart. It is worth a try pass it along. More is explained in *Babushka Egg Concept Book #9* written 8 years ago if you want to understand science from a metaphysic perspective to widen a knowledge horizon; or keep watching YouTube videos soon will be over in God's Wrath to save mankind once more to prevent self-destruction on the biggest scale.

A new civilization will start over without evil managed by a King of kings Yeshua-Jesus returning after: **1 Tishri 5777 (Sept. 2016)**
