

Shalom and Good-bye, Part 1

YouTube has gone ballistic with extreme opinions after a controversial rigged US election. The rest of the world is greatly perplexed watching a biased media used as an official propaganda tool to hide a Washington elite shadow government. Only a free web can keep track of the Illuminati NYC banker's government club doling out billion dollar bonuses to the privileged elite, who again manipulated the last US election linked to instigated street riots.

Highlighting the last hour of the US presidential election, a faked assassination attempt on Trump revealed a power struggle within the elite. But the greatest danger for America still exists, as Obama is still in power could declare any time Martial Law. The globalist New World Order will instigate a bigger event like 9/11 to achieve their goal. Trump had a secret meeting with the strato-billionaires who made him a member of that club like President Clinton, the Bush dynasty ending with Obama appointed for the End time. Every American politician squelches and conceals a global environment collapsing toward total Life extinction. Please check Jonah-II warnings prophesied in the Torah-Bible at the front door.

Local TV being owned by FED bankers usual suppress NEWS only the free Web show events like Clinton followers damaged business started 60 forest fires causing million dollars police reactions and much more. Controlling a New World Order can only be achieved in chaos linked to a generation not educated anymore reduced of being kept in an open global prison prepared for a massive slaughter planned by the psychopath Illuminati NYC banker elite. It is similar to a fenced turkey ranch will experience an apocalypse if you became brain washed to that level. In the turkey business the day of slaughter is kept quite which is analogous to world politics ignoring a warning postulated a date to announce the final birth pangs of the Apocalypse **1 Tishri 5777**. (3 October 2016) Perhaps God's Wrath is delayed by seven months to allow God's grace for some Moslems to repent and be included the number of Saints embedded in the Plan for Mankind. They never had the opportunity for 400 years being enslaved by Satan in an evil Islam religion of death and servitude denying human right, thus the Creator ELOHIM now forced many to leave their home to live across Europe and millions in refugee camps no longer prevented to hear the good NEWS for eternal Life.

Printing fiat money bribed international every government fuelling a global industrial military complex thus succeeded to rule absolutely an evil atheistic New World Order. Fiat Stock Market wealth achieved a world mindset that no longer has the capacity to think in logic thus succeeded that this generation degenerated cross cultured with an atheistic mind-set sinking to the lowest turkey education level being brain-dead to obey like slaves without rights. Check every UN government delegation is globally confused like your city street demonstrations.

In the last 100 years science was suppressed in every university teaching lies and deception greedy to get obscene grants from NYC Illuminati psychopath bankers printing fiat money. They have finally become successful to educated worldwide every government to be political correct linked to the privileged beneficiaries population now controlled by computer handheld gismos entertained by designed programs to achieve a mind to become total brain-dead. Watch the riots worldwide of confused young person, which is the last generation to perish matching God's Wrath prophecy now linked to many suppressed science facts.

Thus the global elite will continue their destructive policies to genetically accelerate the collapse of GMO food chain by Transgenetic mixing animal genes with human to become genetically inferior as nature cannot be violated. They will continue suppressing a *free Energy source* embedded in nature given to mankind and not allow seven billion world populations to enjoy totally free **electricity** and **Hydrogen gas fuel** until the earth is totally polluted to end all LIFE in a mass extinction ignorant that an unforgiving nature was designed to last thousands of years to benefit mankind. Their effort has ripened into a worldwide open prison system to obey their absolute evil power. None of the presidential contenders even mentioned that our environment is fast collapsing. They ignored the millions of dead fish,

thousands of dead cattle, and millions of birds and bees disappearing, no longer pollinating the next harvest. It was never mentioned in the last presidential rigged American election talking endlessly about 20 year old sex affairs any dog does. How pathetic for a media to amplify it. Soon they will wake up facing reality muffled in Babushka eggs. **Pearl #270**

The Sunday people of Western Civilization who call themselves Christian did not follow the example of Nineveh. None responded to the last warning of Jonah-II and ignored hundreds of science proofs collected in free 14 Babushka concept books. It could not unruffled one turkey feather to show spiritual life. The major prophecy summit preachers, together with most Christian churches, kept twisting Bible references ignored God's warning misinterpreting Greek words with a false rapture theory described in **Babushka Pearlettes #14, Pearl # 888**.

Jonah-II became a beacon of light for ten years to warn of a foretold Apocalypse linked to metaphysic science. Perhaps the next surviving generation will ask why God destroyed a civilization again like Noah's generation. The Bible detailed the last events of another Evil correction which is the biggest Kosmos show on earth when Satan vs. Elijah morphed into a mortally *Daleth* dimension explained on a higher level matching Hebrew Alphabet Number System. Very few will survive God's Wrath repeated in a Noah's evil Atlantis Civilization.

Why where Jonah-II's warning dates of the Apocalypse silenced by Christian theologian? Worse, they reacted negatively on TV still insisting to teach denominational lies; therefore, they will now perish like Noah's unbelieving relatives. Consequently watch the reaction of the Creator ELOHIM coming back next year will judge this high-tech civilization globally once more resembling the Atlantis Civilization during Noah's time. Prophesied in a forbidden Bible-book could be a linked a turkey business of massive slaughter will save a remnant for the next cycle. The universe is owned by the Creator who sets limits to destroying all Life on earth and will stop demolishing his house created for a special purpose throwing out the evil tenants as described in His Bible. God planned for mankind to exist another thousand years. Why TV theologian are silent serving mammon, thus will perish in God's Wrath.

I wondered why an education TV channel would recently show the gruesome French Revolution, where an atheistic government incited a mob to kill their Christian neighbors in a massive genocide. Are they preparing the ignorant masses similar to the after election Clinton demonstrator being paid off by the elite in many cities chanting threads which incited a massive police force, thus is primed to repeat history? YouTube videos show mass graves in Turkey-Europe-Africa and Islamic countries that will be replicated in FEMA camps linked to prophecy ending an American 240-year old Constitution experiment in Marshal Law.

God will not overlook when the majority of Christians allowed 50 million US babies to be murdered, which is a serious reproach for the Creator. Only He has the prerogative to bestow life or death. He introduced worldwide laws to benefit mankind. Why prohibit a 6000-year-old Torah-Bible ignoring the Ten Commandments forbidden in the public square. Worse murdering Christians everywhere serving for the benefit of mankind worldwide in charities, hospitals or Red Cross boats, the many schools for the unprivileged the poorest natives without compensation and sacrificed a modern lifestyle to live in the dirtiest slum to help hurting families. All is controlled by psychopath bankers. Only God can save mankind.

Therefore, unconcerned sleeping American Christians waiting for a fake rapture, along the political undesirables will not be protected by the US Constitution now subjected to instigated riots like the French Revolution killing millions of Christians in America repeating a Hitler system again. Many Christian churches do not study prophecy, consequently will wake up too late having for 10 years rejected Jonah-II science warning facts linked to the Torah-Bible meant for skeptics. Globally mankind willfully ignored God's Plan to end in an Apocalypse deciding our destiny like sheep are divided from goats. Christianity did not set aside their denominational false dogmas taught for 100 years. They will now perish when Marshal Law is proclaimed by the Washington Elite obsoleting the US Constitution to put the world into planned chaos. But mankind is saved again watch a date projected ending **Tishri 5777-5778**.
