

The Return of Yeshua is Dated! 11 April 2017 – Passover

This essay will confirm that the prophecy Veil was removed decoding [**Time-Times-½Time**] to predict the judgment date of **God's Wrath**. Christians who deny these five (5) witnesses will miss the boat like Noah's relatives. Historically five calendars still exist that are used in science: Julian, Gregorian, Hebrew, Aztec, and bronze-gold clocks recently discovered in museums that revealed ancient calendars. However, five more witnesses are linked to divine Revelation of the Torah-Bible.

Calendars differ in math physics using a base - 60, - 10, - 7 and - 2 (computer binary) system, which need a divine key to unlock ancient Torah-Bible prophecies. They can only be revealed, as knowledge measuring time is not the same among global nations. However all world calendars now consolidated and intersect on a solstice **21 December 2012**. Thus all became synchronized with the Hebrew Moon Holy Days calendar when the earth axis wobbles stopped moving.

Let's research the mystery bridge that links ancient calendars together as proven on a forbidden metaphysical level. A Hebrew calendar is structured by a base-7 system as revealed in **Daniel 12:7, 7:25** and **Revelation 12:14**. It is a mystery code [**Time-Times-½Time**] now finally cracked by studying the many Bible prophecies matching Jewish holidays. It was even linked to the first (2014) and last Tetra Blood Moons (2015) as an additional proof.

In ancient times, **Time** was measured differently around the world resembling four temperature scales still used in science. These various calendars measure earth axis wobbles not allowed in atheistic universities, but they need a key to unlock prophecy to correlate calendars built on different math systems. Daniel and John both tell of a [**Time-Times-½Time**] code that is the chronological order $(1+2+\frac{1}{2}=3\frac{1}{2})$ of how future prophecy events will unfold.

It is embedded in a creation 7000-year cycle Hebrew system and tells how various calendars match a divine Torah-Bible calendar as transposed to our modern calendar. It is embedded in a diverse earth axis wobble counting systems used by various cultures and nations in antiquity. Thus, prophecy comes in different scales like mirror image Babushka concept eggs 3500 cycles to $3\frac{1}{2}$ years converted to 42 month or 1260 days, $3\frac{1}{2}$ days to 3 hrs darkness on the cross of Jesus linked to $\frac{1}{2}$ hr silence in heaven, always totaled ($3\frac{1}{2}$), depending which scale.

For example, many theologians mistranslated countless Bible references like **Daniel 12**, which describes the End of Time

(3018 AD-JC). It is the last Apocalypse, as Satan will rebel again, mirror imaged in the Hebrew year 5777. He appeared for the last timeout to erect the "**abomination that makes desolate**" in the Ezekiel Temple that causes the final rebellion on earth. It is the last test for God's Kingdom on earth, which got corrupt, too. That will be the worst time ever prophesied by Jesus.

The Torah-Bible has a base -7 math system defined by the Hebrew Alphabet Number System (HANS) embedded in Genesis. It was structured to calculate solstice year cycles similar to the Aztec clock and Genesis patriarch age calendar dated before Noah (2288 BC). But before Noah's global Flood the earth axis tilt was different because the earth axis shifted due to an asteroid strike on 5 February 2287 BC.

Thus, the Roman calendar's years were counted by Julius Caesar, or Jesus Christ, initialed **JC**. When the axis wobble slowed down a bit more during the Middle Ages, the next adjustment became the modern Gregorian calendar. There are other time scales found in ancient history to help to verify conclusions. (Babushka book #3, **Asteroid Answers to Ancient Calendar Mysteries**)

On YouTube we all noticed that theologians cannot be trusted to date prophecy because they are not well educated in science. But if you study a little ancient history and mystery clocks found in museums as decoded in Babushka concept eggs, you will widen knowledge horizons forbidden in universities thus ignored in most churches believing their lies and unscientific deceptions. But why not have fun by investigating the Bible and making a few assumptions based on logic. You be the judge.

The Hebrew metaphysical domain consists of the heavenly *Heh* dimension (Angel world) and Earth [**Genesis 1:1**], which is the *Daleth* dimension as the earth is similar to an incubator for Mortals. The coming *Jod* dimension is linked to the New Heaven & New Earth. Only the Creator ELOHIM knows when the Time Dimension will become obsolete. [**Matt. 24:35**] Yeshua-Jesus uses a family father-son relationship we all are familiar to avoid uncertainty to better comprehend an infinite God shrouded in mortally linked to divine events.

Many confused theologians repeat and misinterpreted that "**no one knows the time**" which should not be applied to the Apocalypse, if you can read what Yeshua-Jesus said. Hence, let's consider a little math. We have three (3) dimensions between *Heh* & *Jod* in center a *Daleth* Time dimension because we mortals are subjected to calendars and clocks, still a paradox mystery. Correcting Hebrew Calendar mistakes takes a little time and if curious read a number of Babushka concept eggs like **Pearl #264**.

The *Daleth* Prophecy calendar of 7000 cycles is divided by (3) three calendar domains recorded in a mystery code by Daniel about 588 BC and John 96 AD.

$$= [1xT] + [2xT] + [\frac{1}{2} x T].$$

Like different temperature scales, Daniel (588 BC-JC) described a flexible prophecy code aligned to various calendars appearing in the future and measured a moving earth axis across 4300 years.

Perhaps he had knowledge of the bronze Antikythera clock stored in the Athens museum? That clock demonstrated the stretching of time when the last earth axis wobble slowed down and stopped on the 21 December 2012.

John in heaven described what he saw dating month and days. Do not assume that our 24-hour day is the same as in ancient times. It has gotten exponentially longer. It needed a prophecy pattern like a smaller Babushka egg fits into another. Daniel's time pattern (1st Witness) matched 7000 years scaled to 1000 for one day and the 2nd Witness to 7 years, to one year or days calculated in a math-ratio = **R** embedded in the Daniel's code. That pattern is continued in 42 month (Rev.11:3) and 1260 day (Rev.12:6) defining the End-time with ½ egg-hour (Rev.8:1). It confused theologians not knowing that clocks in heaven are different on earth proving that the dating of the Apocalypse could be estimated from a science perspective depending what God the owner of the Kosmos will do.

Let's prove it with Witness #1-7000-year, will verify W-#2 of (7) years, which are the Apocalypse birth pangs of 2008-2015. Then W-#3 is divided into 42 month-egg in an expanding math pattern, but notice that the month-period is now longer @ 2012 measured in a corrected prophecy calendar ratio. Explained later Witness #4 matched two years after 2015 solstice getting smaller with [½T] day-egg of 70 days (1260-1330) to an (3) hour egg on earth and in heaven one hr. to a ½ hr. silence "all" is linked to **Yeshua-Jesus** sitting on a Throne. Daniels time pattern is ending a final date which is the Main-Witness #5 dating **Passover 5777** (11 April 2017).

Starting with **Witness #1: [2xT]** is the middle of the Julian calendar. In 2288 BC Noah's reported God's Wrath as an asteroid impact now dated from the solstice after 47 days (Gen. 7:11- 5 February) **2287.8740 BC (JC)**.

Adding in math across the history of mankind linked to a future Hebrew holiday date **2016.7563 AD** (3 October 2016) counted from **New Year 2016/2017** minus 89 days could project the arrival of Yeshua-Jesus = **4304.6303** Now insert the middle date in the Hebrew Prophecy Code:

$$1:T = (C?+G?) + 2:T = 4304.6303 [JC] + ½:T (S?)$$

However, what is not known is **1:T** a Genesis patriarch calendar **[G]** before Noah's Flood 2288 BC and the "Creation" seven-day cycles **[C]** before 4004 BC. Though ignored by theologians, it was used in the Gospel that recorded the genealogy of Jesus from Adam & Eve.

It should be linked to documented science in a fascinating research collection of important rulers and kings across mankind dated since 4004 BC (JC). (**Wall Chart of World History**, Professor Edward Hull, MA. LLD. FRS.) Amazing that chart folded in a large book is 14 feet long of very detailed history facts of a thousand kings and rulers worth the money.

½:T (S?) is a Sabbath rest of God's Kingdom on Earth completing a 7000 yr. prophecy calendar. Using a little math logic can crack a Bible code.

$$\text{If } = 2:T \text{ is } 4304.6303 [JC] \text{ thus } 1:T \text{ is half } = 2152.31515 \text{ and } + ½:T = 1076.157575$$

$$\text{now the total} = 7533.103025 [JC]$$

But we need to know and match the Prophecy calendar ratio (R) of **7000** cycles divided in the **7533.103025**

$$R = 0.929231948212$$

Consequently the prophecy calendar must match an unknown Mystery date thus becomes the first witness:

$$(T:1 - 2152.31515 \times 0.929231948212 = 2000.000000)$$

$$(2:T - 4304.63030 \times 0.929231948212 = 4000.000000)$$

$$(½:T - 1076.157575 \times 0.929231948212 = 1000.000000)$$

The center (T-2) works like a teeter-totter balance. If we use another date it will move the other side out of balance, thus the (3) positions cannot be off by one day (@ 4304 years) to prove in math the divine prophecy mystery code on a Google calculator = [**Time - Times - ½Time**]

It established the Bible code **1xT+ 2xT+ ½T** of for 7000 Hebrew Prophecy years dating the Apocalypse birth pangs and God's Wrath to an exact day. The probability for matching a future day with ten zeros in (3) three math fractions is a billion times! It confirmed many museum mystery clocks exactly in math linked to ancient artifacts become a second witness of a future day!

Let's try another example for the skeptic and use some logic, because if the premises is wrong will not conclude it right. The Hebrew code [**Time-Times-½Time**] will point out when one side changes the other will too messing up the balance equation which function like cuckoo on a German clock.

Many theologians assume projecting a seven (7) year Apocalypse always postulated tomorrow. Being falsely labeled not having five witnesses to prove their case in court. Let's use their seven years on T:2 with the same test which will confirm that they are wrong and confused in prophecy.

Like a clock with gears, it must be right to one day in a teeter-totter Hebrew prophecy calendar across a time slot of 4300 years to be acceptable. Using the Bible's embedded 7000-year cycles meant for mankind makes it possible to calculate time without computers and prove our math now with the earth axis stopped on **21 December 2012** solstice. That is not taught in global universities but tourist going to Mexico City knew something when they gathered around pyramids to have a solstice party. Why? **Pearl #224**

We established a calendar multiplied with a ratio giving us a digit number after the dot only zeros = (4000.00000) which logically could be assumed right. Let's see what happens when T:2 is added to the (7) seven phony years for theologians to be happy to make more money in prophecy summits. Let's see how the baby is divided by the King Solomon method to find the truth with logic.

Logically, T:1 and T:½ was not changed but to make a test added 7 years to **2:T = 4304.65502136 [JC]** now + 7 = **4311.655021 [JC]** totaling together;

$$T:1 - 2152.31515$$

$$T:2 - 4311.6303$$

$$½:T - 1076.157575$$

$$\text{Totalled } T-3½ = 7540.103025$$

Again we need to know and match the prophecy calendar ratio (R) of **7000** cycles divided in the **7540.103025** which is a ratio **R = 0.9283692781** to match a Hebrew Bible math but watch the fraction, too.

$$(T:1-2152.31515 \times 0.92836927781 = 1998.1432 \text{ JC})$$

$$(2:T-4311.655021 \times 0.92836927781 = 4002.7851 \text{ JC})$$

$$(\frac{1}{2}:T-1076.157575 \times 0.92836927781 = 999.0716 \text{ JC})$$

With just seven (7) years difference, it will not match the established Bible code of [Time-Times- $\frac{1}{2}$ Time]. Thus the 7000 Hebrew Prophecy years encoded the Apocalypse birth pangs and Yeshua's coming in the sky *exactly* dated to a day **11 April 2017** shown in the last witness examples. The probability of having used a future day being only zero digits in (3) math fractions is a billion times. It confirmed exactly in simple math dividing the first witness to the second of a future day but determined the real baby with Solomon's technique!

Yeshua-Jesus said, "**In one generation I will come back.**" But what is the date? The third witness is established by UN Resolution #181 (21 November 1947), which recognized ISRAEL as a nation among nations, fulfilling a prophecy ending in **2017 AD**. Just add 70 years, provided that Jesus did not change his date, thus perhaps lied, as postulated by theologians guessing seven years not having science witnesses dating the apocalypse. Get it right (1947+70=2017) believing Yeshua who is the inventor of the Time dimension. **John 1:1**

To calculate the unknown End time years of (S) let's apply the last sequence of the prophecy calendar still future matching **Rev. 20:7**. Amazingly, it confirms Tx2 to a day.

$$[\frac{1}{2}:T] = 1076.157575 \times 0.929231948212 = 1000 \text{ [JC]}$$

To find the Genesis calendar (G) 2288BC- 4004BC count from 5777 and add 120 Jubilees (120x50), but notice, before Noah a conventional solstice year cycles is relative as the earth axis calendar changed to one grand-solstice @ 360 days multiplied by (7) solstice turns. It is confirmed by applying DNA genes-science to the Genesis Ages like Methuselah could not possible live 969 (JC) years. Thus 1:T (C+G) = 2152.31515 evaluated ancient Aztec clocks to a Genesis patriarchs calendar.

$$(G) = (4004 \text{ BC} - 2288 \text{ BC}) = 1716 \text{ (JC)}.$$

Now we could determine 2152-1716 = (C) **436** solstices. But it needed a Babushka correction +35 yr. in the 9th cycle BC-AD*. The 4th Creation Day will start = 436 + 35 = **471 [JC]**. Thus added together C plus G = (471+1716) = 2187 and (2288 BC+2187) = **4475 BC (JC)**.

The 7000-year Hebrew calendar was formerly dated **4488 BC (JC)**. The difference (4488-4475 BC) is being off by 13 years thus must be calculated divided by (7) seven [G] Julius years cycles = **1.8**. An exponentially declining earth axis wobble will always have fraction, why is it ignored by NASA thus difficult for me not having access to an adequate computer.

Their scientists recently calculated earth axis movements with G.R.A.C.E alleged satellites and measured 14 hours @ 2006, but do not know why? Atheistic scientists postulated BCE-CE to be (JC) 2 BC, 4 BC or 6 BC trusting in fairy tales.

I accept Bible truth counting "zero" (-1.8 JC), which is more logical. It confirmed an unscientific dating scheme of biased atheistic university theories and remedied a Hebrew civil calendar too, being off by (2) two years. That adjustment matches the correction of the wrong date (586 BC) for the first Temple destruction, which should be **588 BC**.

It screwed up my Babushka **Pearl #251** and rectifying the date 5 February 2015 date having looked back from the **solstice** instead of looking forward to perhaps **11 February 2017**.

Therefore keep watch, because you do not know the day or the hour. (Matthew 25:13)

Believing Jesus should watch the day or hour within one year as the Prophecy Date **1 Tishri 5777** (3 October 2016) will start God's **Wrath** using science data, but I wondered if the Jonah-II warning is at the beginning or end of that year ?

A specific prophecy "ON THAT DAY" was stated 70 times by four Major OT Prophets, described in the 11th Babushka egg concept book not investigated in a Christian church.

The seven creation period cycles were split and divided into six days; the first (3) creation days have no time base. But plants and prolific vegetation first grew with infinite light cascaded to visible entropy light recorded in [Gen.1:3]. To measure time the earth was moved on the (4th) creation day within the Milky Way galaxy aligned to a sun-moon orbit. Thus it started a Time dimension only on earth as Adam appeared before 4004 BC.

Time historically was measured by ancient clocks exhibited in many museums, now replaced with atom clocks measured in Femtosecond linked to earth axis wobbles observing solstice, now light years measured recently in science experiments 300 times faster? Why trust in an evolution religion presenting unscientific data facts in National Geographic Magazine, NOVA TV movies and NASA technology manufacturing deceptive fake science videos in Hollywood studios.

To be better educated, watch the sky from 1 Tishri 5777 (2016-2017) hopefully you and I will survive the total destruction of the 21st Century Civilization ignored in church, replaced with God's Kingdom guaranteed, by trusting in a savior, a superior option never to disappoint. [**John 3:16**]

My projection conclusion is that the new prophecy code will start "after" [1 Tishri 5777] Yeshua's Return now dated right. In a court of law became the fourth and fifth witnesses.

But the final proof is still linked to what Yeshua foretold. His final date of God's Kingdom must arrive on a "corrected" Hebrew calendar matching literal Moses holidays across nearly 13 moons settled in one solstice. Thus previously, when scholars calculated every 3 years and inserted an extra 30 days added in one year, they should instead have balanced 10-10-10 days after 21 December 2012 solstice. Thus when the Second Adar month was inserted after the 2015 (5776), it over-counted 20 days becoming a credit projecting to end on **21 September 2017 (Hebrew 5777)**.

The "fourth witness" is the Hebrew year from 1 Tishri 5777 [**3 October 2016**] and counting **353** days to 1 Tishri 5778 excluding 10 days credit to link us to the famous **Fourth Tetra Blood Moon** [28 September 2015].

Add back the credit time of 10 days toward 21 September 2017 (1 Tishri 5778). Subtract **353** days from it with the overcharge (-20) = **333** (353-20) and apply the prophecy formula $(1T+2T+\frac{1}{2}T) = 3\frac{1}{2}$ to arrive at the final date.

Now notice 333 is divided by 3.5 then **2T=190.2857142** days. Convert (6) six months and 7.8 days and count from Hebrew calendar -3 **October 2016**. Then 6 months later will take you to 3 April 2017 + **7.8** days equals Passover **11 April 2017**, another Babushka Mini-Egg to widen knowledge horizons.

For the final and fifth witness to have a case in court could be linked to the **First Tetra Blood Moon** [15 April 2014] Passover as (Rev. 11:2-3) linked to a Ratio 3.5 stated 1260 days or 42 month which converted with normal science matched the code **Time -Times -½Time**.

But the text clearly shows that $\frac{1}{2}T$ is future, a coming asteroid linked to the Great Day of the Lord, hence adding three (3) years 2014-2017 ($1T+2T=3$) will confirm the Passover 5777 date [**11 April 2017**] to a day. The events of the **Third Woe** are posted by the 7th Trumpet [v. 15], which is ($\frac{1}{2}T$) after Passover matching prophecy next Rosh Hashana.

A Divine Prophecy Paradox

The prophecy date **1 Tishri 5777-5778** is confirmed by five witnesses foretold and approved by Yeshua-Jesus, otherwise brand him a liar based on falsified dogmas taught by many theologians. The date matched the United Nations resolution #181 in 21 November 1947 linked to the Hebrew Alphabet Number System added to many ancient bronze-gold clocks in museums. Now is harmonized in one Calendar on the last earth axis wobble, which stopped on **21 December 2012**.

Together they determined a “Date” for the biggest event in the Sky. It is really beyond my comprehension why anyone ignores the YouTube videos showing the massive numbers of dead fish and enormous sea-critters, most insect’s, and birds. All disappeared in a silent “Spring” like pollinating honeybees cannot digest GMO that poisoned nectar, and most animal species affecting Nature to become extinct. Worse worldwide Food seeds no longer germinate being permanently damaged by GMO technology. All destroyed by printed fiat money.

Once more an Evil society is destroying an unforgiving nature worldwide causing a poisoned environment to collapse into total Life annihilation. Thus this **Civilization** became absolute **wicked**, like Sodom and Gomorrah, now judged with fire (not atom bombs) ignoring Bible history. The New World Order will experience the same kind of disaster like Noah’s time.

I am concerned that theologians still teach denominational dogmas laced with Satan’s lies since the Middle Ages. For example, why denigrate the Creator ELOHIM as a liar who has decreed that anyone who has sinned shall die, which is backed up by many Bible witnesses you as a scholar should know. (Daniel 7:21, Revelation 7:13) A false rapture teaching postulates that someone will not die. This teaching is surely a LIE created to corrupt Christian faith in the American church during the 20th Century civilization. It is preposterous to teach that mortals could attain a one notch higher position above the cross, the symbol of redemption, to be another species above

mortality, situated superior to Yeshua the Son of God, who died. Yeshua-Jesus’ parting words said, “...outside are the liars...who practice falsehood.” (Rev. 22:15)

Check IDA with orbiting asteroid DACTYL projected on the NASA website. According to physics it will be sucked into the earth by magnetic-gravity being smaller in size separated from the mother ship and hope will not crash, too.

At that time the sign of the Son of Man will appear in the sky, and all the nations of the earth will mourn. They will see the Son of Man coming on the clouds of the sky, with power and great glory.
(Matthew 24:30 - Matching God’s Wrath)

Summary:

A) Two asteroids (First 2288 BC - Second Dactyl Tishri 5777-5778) impact the earth axis creating (3) different wobble calendars with only the Julian-Gregorian (**2xT**) being known. It matched the date to a day with the Hebrew calendar linked to the Tetra Blood Moons, Jewish holidays and the Hebrew Alphabet Number System (HANS).

B) The 1000 years ($\frac{1}{2} \times T$) prophesied by the angels recorded in [**Rev. 20:7**] has no fraction in my calculation, thus it proves without a doubt that the rubber band time of the other cycles, which also have no fractions, is correct. It confirms the Hebrew base-seven system verified by the Genesis math of the Patriarch age calendar and HANS. Free on the Web Babushka Egg concept book #1) *Apocalypse 2008-2015 - God’s Plan for Humanity*, now highlighted a better Bible story - free.

C) The before 2288BC Noah calendar projections ($1 \times T$) were postulated correctly in my many pearls and spread throughout 14 Babushka egg concept books proving that the Hebrew calendar wobble solstice years were dated incorrect, as Time is not constant as measured today with an 365.24 day earth-sun orbit and a fixed axis of 23.5°. Accept only prophecy assumptions linked to true science without math fractions.

Thus, it confirms that clock gears mesh to zero ($T \times 2 = 4000.000000...$) without fractions, as one tooth “off” will mess-up an Apocalypse cuckoo gear designed to date the Apocalypse birth pangs 2008-2015 watch 12 O’clock to end Evil destroying our civilization, after 5777.

D) The seven creation-day cycles previously assumed in Babushka eggs thus are correct. Hence, I am confident you and I will lose guaranteed our mortal bodies in **1½ years** [JC]. Yeshua mentioned the day and hours akin to 24-hour time zone sets a **day** but the final hour is over Jerusalem. Observe the sky and pay attention what Yeshua-Jesus said, “**Watch.**”

The Lord Yeshua-Jesus will return to start his Kingdom now dated with science on **14 April 2017**, which confirmed “**HIS**” divine dating linked to a Torah-Bible mystery key [$1T+2T+\frac{1}{2}T$] and hope you read **John 3:16** to be convinced.

Passover 15 Nisan 5777

*Notice the Babushka calendar correction was done 10 years ago in the First Babushka book’s 7000-Year Hebrew Table by adding 35 solstice years [JC] in the 9th cycle BC-AD Table. If you want to prove Jonah-II wrong, please apply true science based on mathematics and ancient 6000 year Bible-Torah history. Avoid the atheistic evolution religion causing brain-dead people.
