

#2 – End of the Free Internet? 12-10-2016

It could be the last opportunity using the Internet as Obama has given the control rights of a free web to the United Nations. They will do what Erdoğan-Turkey recently did, following China, by closing down every free thinking, democratic TV station and website, being internationally owned and restricted by psychopath NYC Illuminati bankers printing fiat money to control the New World Order with US Dollar currency. Watch the recent NEWS for the next 60 days gone ballistic, if the YouTube web is still around, but the Good NEWS is still available if you have a Bible - now unfolding its divinely foretold prophecies.

Thus, it could be my last goodbye perhaps can still print out from an old-fashioned laptop computer some Bible information collected in Pearls if the electricity is still around to be informed, (**Pearl #175, 666**). Many science-prophecy perspectives were collected for ten years in Babushka egg concepts under the penname Jonah-II meant to widen knowledge horizons before the web is gone to shut down the last free information linked to Truth.

The latest NEWS not covered on your local TV, China just announced with Russia and many other nations, to take over the US world currency to challenge the Illuminati NYC bankers club and Obama who control the biggest military complex machine and so is still the most powerful person ever on this planet being the commander of NATO too.

A slip of the tongue by Trump who built globally dozens of skyscrapers said the 9/11 NYC World Trade Center was the strongest outside iron-frame building ever built could only come down by an implosion on the foundation. The Saudis responded still irritated of a recent Court decision being sued by 3000 victim's relatives, claimed it was triggered by Bush using fake TV graphics. Recently YouTube prove that NASA satellites hanging on balloons, or like a flat earth theory divided those who still adhere to evolution fairy tales.

The NYC bankers did not like these remarks which challenge their lies and deception now provide a daily diversion menu for Americans being split by voting for candidates the FED selected, what a joke! Worse the UNESCO voted again to exterminate Israel (10/13/2016) and divide Jerusalem in two, but they have forgotten that ELOHIM purchased a threshing floor for 50 silver coins 3000 years ago. Watch how the Owner of the universe will defend what belongs to him. Do not mess touching his eyeball fulfilling **Zachariah 14** during 2017.

Soon the world will be embroiled in the last war of wars known as Armageddon. The ELOHIM will call together many nations for a final judgment nobody will ignore it. If you still have a Bible, only God's Word gives us a better forecast. (**Malachi. 4**) Check it out, as "Time" has run out for this hi-tech atheistic civilization determined genetic destroy all Life on earth embedded in Nature, thus becoming absolute Evil to incite **God's Wrath** again.

Today's worldwide reality was foretold by ancient prophets using Israel's history as an illustration to mirror future events they did not understand. Like Daniel, most were troubled with what was dictated to them – *thus says the Lord*. God's Plan for Mankind was finally revealed by Yeshua in the Apostles' writings, still screwed up by Christian denominations loving money more than Truth. In parting take my advice seriously and quickly printout some Babushka egg information will soon no longer be possible, hence my last Warnings.

My dream as an inventor-scientist will end with standing before the Throne all dressed in a white tunic. (**Rev. 4; 7:9-17**) But some are Saints will be rewarded with pocket telephones, a direct line to Yeshua the King of Kings and Lord of Lords. I want to meet him in private in a garden-house, a one to one encounter, and ask him to reveal my new assignment in the **Jod** dimension when he said in **Genesis 1:26**, "Let us make Herbert in our image, after our likeness." Being appointed and elevated to royalty could repeat an Adam-Eve story duplicated for the Saints. I would love to work on another planet in an expanding universe to manage the environment and have dominion over fish, birds, wild animal life. Thus, the Creator's vision is expanded collected in Babushka eggs recorded in the Book of Books. Yours Jonah-II, under a penname Herbert <https://www.youtube.com/watch?v=riwaQixZXas&t=45s>
