

### **#3 - True Science Facts and Ancient Prophecy**

Hundreds of true science facts across the history of mankind were collected in Babushka egg concept books with added Pearls by a retired, successful German inventor-scientist. He attempted to match modern knowledge with ancient prophecy recorded in the Bible.

In **Pearl #270** he showed how our global society is on the path to terminate all life on earth with hi-technology linked to a divinely designed destiny now in conflict with the Creator ELOHIM. Like a coin has two sides, most religious theologians should have given a warning from the Torah-Bible but loved money more than truth. Being scantily educated in science, they should not be used as an excuse. I blame atheistic universities suppressing tons of knowledge. Luckily, young people on YouTube now verify Truth.

They refused to be brainwashed in unscientific lies to believe the biggest cover-up deception now seeing satellites hanging on balloons to fake NASA space travel. In many videos they illustrate how fraud is produced in Hollywood studios skilled in movie graphics, including NYC 9/11 assumed events, which fooled most profit-oriented theologians, too. They also cannot be trusted because they teach many false denominational dogmas not changed since the Middle-Ages. I cannot fathom how greatly *free energy*, invented 100 years ago by Tesla and von Hoffmann, could have benefitted 7 billion people. Why it is still suppressed and ignored worldwide? It is damaging permanently our fast collapsing environment toward extinction. They are brainwashed by a favored monkey fairy tale painted on most science museums walls to show their DNA ignorance.

I discovered recently that the 7000-year Daniel calendar Table needed a 1.8-year correction because the Hebrew calendar was screwed up, which changed the Babushka projections postulated to ending in 2015. Calculating exponential earth wobbles since Noah's Flood in 2288 BC with a desk calculator is not good enough. Only a Google science calculator can verify 11 times 6 digits after the dot to revise a prophecy dating, **Pearls #276** and **#777**. Thus, Bible prophecy dates were calculated from solstice to solstice using five world calendars that needed to be corrected and unified to confirm the Apocalypse birth

## **Sound Bites** in front of the Abyss of **God's Wrath**

pangs projected 14 years ago on Solstice 2008-2015. Checking again across Daniel's 7000-year cycle, the corrected fudge factor of 1.8 years is added to Julius Caesar's 21 December 2012.

Atheistic scientists are still confused and ignorant of exponentially declining earth axis wobbles, thus they theorized 2 BC, 4 BC or 6 BC and many more. Pick your biased opinion. None have a reference believing in stupid fairy tales. No wonder CERN blew up on the first try. Check my expert reason: it will widen your knowledge horizons, read some pearls to have fun.

When adding a 1.8 years to solstice 21 December 2015, with an Adar-II correction of 1 year, 9 months, 18 days, one arrives at **21 September 2017** - Rosh Hashana + 18 days = Sukkot - Feast of Tabernacle. It is linked to the Armageddon judgment. Some Israeli survivors will collect a billion dead bones for seven (7) months, stacked up to a pyramid and used later as a monument for future generation to remember **YHWH Wrath**. The dead bodies represent the global New World Order system and corrupted Christian Church, not being a witness for God, then judged for messing up God's Word with profit-oriented denominational false dogmas preached for hundreds of years. Seven months later, the survivors of Israel (perhaps 20 May 2018) will lay the foundation stone for the new library museum duplicated like Enoch-Gaza pyramid on a raised Jerusalem mountain between the two springs forming large rivers to benefit a flourishing agriculture export industry. Prophesied by confused theologians, the Third Temple will never be built. **Pearl #247**, as the (**Ezek. 40**) description is not a Temple. Babushka **Pearl #174** postulates a different purpose structure when linked to science.

A Christian church together with their Summit Prophecy club will perish like Noah's unbelieving relatives still ignoring science Jonah-II projections. God's Kingdom will arrive when the pilot decided to wait, thus overwriting a schedule dated **Solstice 5778** to start a new civilization governed by a divine management to suppress EVIL. No more wars will be possible.
