

#6 - Adam and Eve Story Expanded

The Russian Babushka doll eggs has a number of eggs fitting inside another which is used by a German inventor-scientist who was appointed to be Jonah-II to proclaim eminent warnings. The first big egg Torah-Bible has embedded divine information now squeezed and collected science facts into smaller eggs to expose a suppressed **Apocalypse** prophecy even dated Warnings by Jonah-II. (**Ezek. 33:1-9**)

The Genesis front picture egg reveals how the universe is fuelled from infinite light energized by ELOHIM, like an inventor would make an incubator to propagate Life resembling a tiny earth dot in a vastly expanding black universe. But the first Bible verse is like a mustard seed, which has much more imbedded like intelligence to form thousands of proteins discovered in GMO controlled by a Time-dimension measured by atomic clocks. Unfamiliar ideas not taught in church were collected in Babushka egg books available free on the web to open the laws of nature for searching Christians.

On my journey much was discovered illustrated on the first page of the Bible, why was a divine creation worldwide suppressed in universities for hundred years and replaces with unscientific fairytales, no longer teach "physics" and ignore a "metaphysic" domain, or explain to me life, consciousness, evil or relativism. Ancient wisdom was replaced with an unscientific atheistic evolution religion that cannot express intelligence controlling a mind linked to a soul & spirit interconnected to a mystery paradox infinite *Jod* dimension.

Much scientific evidence is based on history, still prohibited not taught in any school and outlawed worldwide by a New World Order to keep you brain-dead from your divine destiny. But some kids on YouTube became rebellious thus better educated will demonstrate with pleasure forbidden **ENERGY** invented 100 years ago. They show how free electricity is produced and splitting hydrogen driving around with water risking being put in jail.

Most theologians should be ashamed, many falsified God's Word for profit which should have been used to hire lawyers to sue the government not allowing what is embedded free in nature still on a path violating Kosmos laws to destroy all life on earth. Evil to the core like their parent did in the Garden of Eden not trusting the creator ELOHIM.

Sound Bites in front of the Abyss of God's Wrath

Adam and Eve and their children were designed to live forever but became mortals when they violated a trust but should have chosen wisely and not believe Lucifer-Satan a liar, thus will ever question, **“Did God say?”** linked to “Good or Evil” not changed in 6000 years. The beginning of mankind was laid out in a divine Grand Plan which started with the Hebrew letter B-*Bet* (house or duality) recorded in a big Bible egg.

God created mankind with a choice “Good or Evil” mirror imaged in Kosmos eternal laws heaven and hell. After the White Throne judgment evil is no longer allowed. Many received Mercy unto Life, even when the balance was 50:50 given a second chance? Fundamentally a divine Yeshua paid for every transgression any mortals committed, but the last test will evaluate for a future evil intent. Being offered to live forever in God's house will look deeper in our genetic makeup. Many expanded concepts were suggested in **Babushka eggs #4, #9, #11** and various Pearls linked to historic Bible example events.

Many facts illustrated in nature, which extend to a Garden Eden creation story to widen knowledge horizon. Only divine prophecy will validate a historic cross event, when a deity Yeshua died. It created an option for every being with a free Will-choice to experience death leading in unspeakable terror of hell a reality original only made for demons, or a desire to live forever surrounded by light floating in the goodness we can feel a yearning when evil is tearing us apart but still have hope a mystery paradox. Thus a mortal mind condition, the fear of death can train us in eternal prophesied principle to be finalized when Hell and our bloodied earth is thrown into a fiery lake to end evil forever closing the last Kosmos curtain act to end a Time-dimension.

Please notice a planned prophecy will happen why not investigate a reliable divine Torah-Bible and trust a dated schedule to end worldwide the antiChrist technology system. Why do most Christian churches preach denominational lies rewarded with IRS grants to corrupt theologians ignoring that psychopath Illuminati NYC bankers are worshipping Satan? Thus Christians will be rounded up in America like Jews in 1939 not escaping **YHWH Wrath** along much of Life will disappear on earth. However a remnant is saved to continue in God's Kingdom and should ask: why I am here and where do I go? Believe Yeshua's promise to be reborn on a new earth to have fellowship with the Creator.
