

#6 - Adam and Eve Story Expanded (12-22-2016)

The Russian Babushka doll has a number of eggs fitting inside one another, which is used by a German inventor-scientist who was appointed to be a Jonah-II to proclaim eminent warnings. The first big egg Torah-Bible has embedded divine information with collected science facts squeezed into smaller eggs to expose a suppressed **Apocalypse** prophecy with dated Warnings by Jonah-II. (**Ezek. 33:6-9**)

The Genesis front picture egg reveals how the universe is fuelled from infinite light energized by ELOHIM who, like an inventor would, made an incubator to propagate Life - a tiny earth dot in a vast, expanding black universe. The first Bible verse is like a mustard seed that has much more imbedded intelligence to form thousands of gene proteins controlled by the Time Dimension as measured by atomic clocks. These unfamiliar ideas not taught in church were collected in Babushka egg books available free on the web to open the laws of nature for searching Christians.

On my journey much was discovered on the first page of the Bible. Why was the divine creation suppressed in universities worldwide for hundreds of years and replaced with unscientific fairy tales? They no longer teach "physics" and ignore a "metaphysical" domain, nor explain life, consciousness, evil or good. Ancient wisdom was replaced with an unscientific atheistic evolution religion that cannot express intelligence or a mind linked to a soul & spirit interconnected with a mystery paradox infinite *Jod* dimension. Much scientific evidence based on history is still prohibited and not taught in any school. It is outlawed worldwide by the New World Order to keep you brain-dead about your divine destiny. But some kids on YouTube became rebellious. Better educated, they demonstrate the forbidden **ENERGY** invented 100 years ago. They show how free electricity is produced by splitting hydrogen and drive around with water as fuel risking jail. Most theologians should be ashamed. Many falsified God's Word for profit that should have been used to hire lawyers to sue the government for not allowing what is embedded free in nature. We are on a path violating Kosmos laws to destroy all life on earth - evil like their ancient parents in the Garden of Eden and not trusting the Creator ELOHIM.

Adam and Eve and their children were designed to live forever but became mortals when they violated a trust. Instead of choosing wisely and not believing Lucifer-Satan a liar, they ever question, "**Did God say?**" linked to "Good or Evil" not changed in 6000 years. The beginning of mankind was laid out in a divine Grand Plan that started with the Hebrew letter B-Bet (house or duality) recorded in the big Bible egg. (<https://vimeo.com/195432755>)

God created mankind with a choice of "Good or Evil" that is mirror-imaged in Kosmos eternal laws, heaven and hell. After the White Throne judgment evil will not be allowed. Will many receive Mercy unto Life, even with a 50:50 balance like a second chance? Fundamentally, the divine Yeshua paid for every transgression any mortal committed, but the last test will evaluate for a future evil intent. Being offered to live forever in God's house, he will look deeper in our genetic makeup. Many expanded concepts were suggested in Babushka eggs #4, #9 #11 and various Pearls linked to historic Bible events. Many facts illustrated in nature extend the Garden of Eden creation story to widen knowledge horizons. Only divine prophecy will validate the historic cross event, when a deity, Yeshua, died. It created the option for every being to experience death leading to the unspeakable terror of hell, a reality originally made only for demons, or a desire to live forever surrounded by light, floating in goodness. We can feel a yearning when evil is tearing us apart, but still have hope in a mystery paradox. Thus, a mortal mind condition, the fear of death, can train us in eternal principles to be finalized when Hell and our bloodied earth is thrown into a fiery lake to end evil forever at the last Kosmos curtain act to end the Time Dimension.

Please notice: planned prophecy will happen. Why not investigate a reliable divine Torah-Bible and trust a dated schedule to end the antiChrist technology system worldwide? Why do most Christian churches preach denominational lies rewarded with IRS grants to corrupt theologians who ignore that psychopath Illuminati NYC bankers are worshipping Satan? Christians will be rounded up in America like Jews in 1939, not escaping **God's Wrath**. Much of Life will disappear on earth. However, a remnant will be saved to continue in God's Kingdom. We should ask, "Why I am here, and where do I go?" Believe Yeshua's promise to be reborn in a new earth to have fellowship with the Creator.
