

#7- Growing Food for a 70 billion Population

A free available Kosmos energy source is globally concealed in every university by a Shadow government, but will no longer be forbidden in God's Kingdom on Earth. Thus a world-food production will be grown for a much bigger population. Why do corrupted governments deliberately suppress the biggest free source of *Electricity* and *Hydrogen* known for hundred years?

The Creator ELOHIM offered the same free energy to fuel His Angel-world designed to exist forever. By seriously studying the Torah-Bible, you will discover that the metaphysical science domain can be expressed in math to define physics stated for the first time in Babushka concept Eggs. The first page in Genesis recorded and described an energy path of (∞) infinite light, which is transferred through space purposed to maintain Life. Physics will explain how the space energy crystallizes to a common embedded media = 1) Earth, 2) Air and 3) Water. They become visible when the Time Dimension is manifested in a math equation, thus it is recognized as electromagnetic frequency energy, internally creating atoms-molecules-electrons using an Aether-neutrino carrier to give birth to matter-elements and fuel all life forms controlled by mystery divine intelligence. That sentence is long. Read it again as found only in the Torah-Bible to widen knowledge horizons. It was purposed according to God's Plan for Mankind to better inform us. For some it could lead to being appointed to royalty - a Saint to sit at the table with Yeshua, the King of Kings. The rest will have to wait until the Grand Resurrection to decide *Mercy unto Life* or *Mercy unto Death* the only choice left for Mortals. **Pearl # 228**

For those inclined to know more, check Babushka Concept Egg #9 - *The Ultimate Renewable Energy Engine*, which was sent to President Obama. He denied it believing university lies and deceptions but is confirmed by many YouTube videos matching the Torah-Bible. The MEDIA is silent that the energy research center CERN is now dead. They still ignore Tesla patents that can wirelessly extract free **electromagnetic electricity energy** embedded in magnetic gravity from surrounding nature.

A new *Babushka energy path* ended in 17 motor inventions now confirmed on many YouTube videos. Only morons believe in an atheist fake evolution religion, thus will never understand real physics forced to accept an unscientific schoolbook racket.

But farmers must earn a living, many now use magnetized water to increase a harvest 30%, perhaps can be linked to magnetic gravity applied in electric motors for different applications. All run perpetually on invisible space energy that Tesla tried to explain it in his 700 patents. Why has every government kept Tesla's patent inventions suppressed? They were silenced by obscene grants from psychopath NYC bankers to deny seven (7) billion people access to totally free energy.

Instead they have poisoned the global environment with deadly Coal and Oil benefiting only the cartel, which paid off corrupt government bureaucrats to silence free energy. But watch ELOHIM will judge once more worldwide heaped crimes linked to **Wrath** of **YHWH** now dated with forbidden science.

The Torah-Bible reported a Sodom and Gomorrah Judgment when a society became evil, but if absolute wickedness is determined will use a bigger event like an asteroid that destroyed a Noah's civilization in 2288 BC. It will cause again a climate change back to being tropical to fuel a bigger population explosion during God's Kingdom on Earth.

The new civilization will use the free infinite energy embedded in nature thus grow exponentially more food. The ground will no longer be cursed when Evil linked to Satan is terminated which will obsolete a money system causing wars.

A new society will now be governed by higher divine laws based on true knowledge instantly available from the source. Some will have access to the Creator who parked his spaceship Star of Bethlehem on his property near Jerusalem, a former threshing floor purchased by a King David 3000 years ago.

Thus, being closer to the New Israel information source a world food production will increase for a bigger population described in many Babushka pearls. That is already confirmed by young people making videos in rebellion to the establishment. They show forbidden experiments to amplify a ten-year-old projection of Jonah's science warnings. Future vegetables will grow more abundantly when magnetism is added to three cosmic Medias to maintain Life on earth. New YouTube videos show some farmers have already natural increased a harvest up to 200%. When Yeshua-Jesus the Creator is around, he will gladly answer when asked and always give more, guaranteed.
