

8 - What Really is LIFE? (12-30-2016)

Recently my caregiver advised me to take an MRI, which is a big machine contraption using magnetic resonance imaging. It is a test that uses a magnetic field and pulses radio wave energy to make visible pictures of organs and structures inside the body that cannot be seen with an X-ray, ultrasound, or computed tomography (CT) scan. The result was normal, thus it is OK to trust Jonah-II warnings linked to **God's Wrath** to a wicked hi-tech generation.

The first verses in Genesis recorded true science: it starts with free ENERGY disbursed throughout the universe turning the ∞ lights ON in galaxies. Why is free energy from nature still forbidden in global universities for hundreds of years? Electricity was harnessed by Tesla, and Hofmann showed us how the ocean water can be split into *Hydrogen* for fuel in cars. Much of accepted "science" is based on lies and deception with the result that CERN exploded, wasting billions in searching for cheap energy. Psychopath NYC bankers will continue to bribe every government to enforce dirty Coal & Oil to control worldwide a New World Order determined to destroy all Life on this planet by an unforgiving nature now collapsing. They forgot that the Creator is watching his messed-up property designed and destined to last another 1000 years. I am glad that Yeshua's Kingdom on earth is very near.

Conversely, ELOHIM appointed an educated scientist-inventor, a second Jonah on the web, to teach a better Donut Atom Theory (*Babushka Egg #6*) because CERN is a big fraud in postulating that smashed intelligence could control thermodynamic entropy laws. To make tons of money, they invented 32 phantom particles (energy lies) enforced on graduate students globally to make them into ignorant, politically correct slaves. It is in conflict with Genesis, which revealed that a three dimensional universe is fuelled by infinite energy diffused in Aether, or moved throughout space by zillions of neutrinos, which may be the carriers of polarized electromagnetic frequencies crystallized from infinite light still a mystery for science. Atheistic scientists conducted many deep underground tests to quantify it, but an evolution religion deception made many blind to Torah-Bible embedded science facts linked to Jonah-II warnings. Thus, they are destined to perish. Everybody can feel gravity, but gravity was recently uncovered to be magnetic examining closer Fraunhofer spectral lines splitting light in the rainbow colors. Applied to a solar panel, it could extract 100 times more electricity. The visible light has embedded seven rainbow colors from red wavelength 620 nm to violet 450 nm that behave like animals pulling a wagon. On one side is a slow ox, and on the other, a racehorse that wants to go fast, but hitching both together slowed energy down to 20% permitted by the establishment. When the slow, red-yellow-green color is eliminated with a filter, then the blue light can give 100% more energy like a good racehorse.

Examining life energy from a metaphysical entropy perspective reveals it has embedded intelligence that is moved by polarized neutrinos from the Kosmos source to create atoms. As explained in a Babushka egg theory, this intelligence is linked to DNA genes in millions of proteins, the building blocks of life. Why is it screwed-up by GMO patents leading to extinction? The Bible explains Kosmos laws, like Genesis starts with "B" mirror imaged in physics *Bereshyt* is continued in a 7-cycle creation report. (<https://vimeo.com/194778378>)

Expressed in true science and math, it will end prophecy in a New Earth-Heaven, thus the whole universe will collapse into one DOT repeating the revealed Genesis Kosmos law:

∞ENERGY=ZERO TIME < or > ∞Eternal LIFE=ZERO EVIL

Only the Torah-Bible reveals how "LIFE" started on this planet, the only place found in the universe as told in the Adam and Eve story. Define the Creator's breath - *Ruach*, which is embedded inside every living thing, controlled by intelligence to continually flow in a full circle from the rainbow above God's Throne fuelling the whole earth to the deepest ocean with ∞ energy. (**Rev. 4:3**) Every life form is thus energized by the Ruach divine spring, as seen with an electron microscope as virus-bacteria-genes or atoms-molecules to electrons. Thus, venerate the **Ruach-Spirit** to inherit ∞ **Eternal LIFE** freely given by Yeshua-Jesus!
