A Brief Review of the Chapters

In *Apocalypse Prophesied* we have covered the 7,000-year plan of God for humanity, which has been preserved for us from ancient times against incredible odds. I hope that those readers who have never had access to the Bible before will now remember the various concepts presented as they continue to study the Bible on their own. Hopefully, this first book has given you a glimpse of **why** we are here on this planet.

As I originally considered how to communicate some of the many different approaches to understanding the truth presented in the Bible, it loomed before me as an almost impossible task. Using my observations of science as reference guides, I have tried to sort out what was really important in the search for God's answers to our very human questions.

You are now familiar with the Russian (babushka) Toy Egg concept, which teaches us that truth always has another overlay on a different scale. Studying the 7,000-Year History of Humanity Table reveals alignments brought to light that overlay Satan's actions over past history with the future events of the 7-year Apocalypse. The dates, of

Apocalypse Prophesied

From Eden to the New Jerusalem: God's Plan for Humanity

course, become a strong focus of our interest, and that is what caused me to develop the World Cuckoo Clock design structured into gears and time cycles. The chronological sequence that emerged is like a railroad system with 14 stations. Combining these two conceptual approaches produced a 7,000-Year Table of Human History, which then overlays the 7-Year Table of the Apocalypse. My next book, *Mystery of Tammuz 17*, explains the **when**, **what** and **where** the questions for the events of the Apocalypse in detail.

In Chapter 2 of this book we learned about the oracles of God and covered a general explanation of how the Bible is structured as a book and what it contains. In it we find major actors who tell their stories like the plays presented on a theatrical stage. The Bible begins with God creating the universe, our planet and all that exists in them. This foundational concept is contrary to what many scientists believe. The world is full of religions that proclaim totally different concepts about our origins and the purpose for life along with offering many deities to worship. This book is a treasure chest containing many pearls. As you become more knowledgeable about the values of these pearls, you may grow to find and enjoy additional pearls from the Bible Ocean.

We discovered that God is a mystery as to how three can exist and function as one. The Hebrew Alphabet Number System was introduced as a tool to help us to comprehend a bit of the Infinite. Through it, we can better understand the *Daleth* dimension of being "in this world and in this time." Our material reality is then contrasted with the *Heh* dimension of "the other side," which is the spiritual dimension that cannot be defined by or analyzed with our natural senses. We did extend the principles of natural science to stretch our imaginations and try to grasp these spiritual realities.

The focal point, of course, is our purpose of **why** we are here on this earth. It is answered by the past and future comings of Messiah Yeshua, better known as Jesus Christ, who will lead us into a coming new age out from the present *Zayin* Age of tears, pain, sickness and death. Jesus' death and resurrection provides the way for us to inherit Eternal Life in fulfillment of our present mortal life on earth. That purpose can only be understood when we know something about how everything started out.

Chapter 4 provides another perspective on why a Divine Mediator was born in the flesh. There we learn about the First Civilization on earth that ended with a great Flood. Modern scientists know plenty about geology; however, they deny the obvious evidence of the Flood because it conflicts with their religious faith in evolution. These scientists, like so many religions in the world, always find disciples willing to reject knowledge about God, the Creator. Instead they need to invent myths

Apocalypse Prophesied

From Eden to the New Jerusalem: God's Plan for Humanity

and fairy tales to make their imagined theories sound attractive. They succeed because people are spiritual beings who by nature are compelled to believe in something.

Chapter 5 discussed a mirror that shows us something of what exists in *Heh*, "the other side" or the Hebrew number 5. God's covenant promises to Abraham materialized in the long range view of the biblical telescope with the vision of five groups of redeemed people who go on to the other side (*Heh*) where they will live forever in the New Heavens and New Earth. Because our participation in that future is dependent on some conditions, we follow the story into Chapter 6, meaning *Waw*= "connect" in order to find the answer.

The sixth chapter tells the butterfly story, which illustrates that we have two birthdays. Some will experience the Second Death, which is a choice we have control over. The Second Death will send a person into the outer darkness that no one should desire to go to. This is why you must read the story of the three Hebrew w's that do much more than identify an Internet address because they explain the meaning of that mysterious number, 666. These 6s will link us up to another information system where your name is hopefully catalogued in the "book of the last day" before the white throne with a number of your new name. That book is called the "book of life." If you are cross-referenced in that book, you are on your way to a wonderful eternity. If not, then you better read Chapter 6 again.

We finally come to the Apocalypse in Chapter 7, which was the reason you bought this book in the first place. I hope you feel like you got your money's worth! My book is filled with both bad news and good news, but it is up to you to decide what to do about it. For example, if you are living in New York and/or downwind from it, as illustrated in the February 2005 *Popular Science* magazine article on the possibility of nuclear terrorism, then you might decide to move away from there if you think there may be a 50% chance that my dates are correct. The "handwriting on the wall" by other scientific articles yet to be written will inform us more about the terrorist threats to western society as the date of the Apocalypse approaches.

Chapter 7 also introduces us to the three major players featured during the end time game of the Apocalypse. The Rosetta Stone 7:5 ratio is mentioned there along with my analogy of building a house. These two concepts are explained in detail throughout my second book, *Mystery of Tammuz 17*, because my publisher said that the content of these two books would be too much to fit in one book. And they are the experts. But my two books are related to each just like the *Daleth* dimension is related to *Heh*. They belong to each other and complement each other.

Apocalypse Prophesied

From Eden to the New Jerusalem: God's Plan for Humanity

Looking through the biblical telescope again, we see a big mountain in Chapter 8, and it represents something very important in the future history of humanity. It has lots of action. For instance, Jesus Christ comes riding on a white horse, and we hear heavenly trumpets blowing as one of the greatest events of all time - the First Resurrection of the Saints - takes place. This chapter explains what is known from the Bible about the promised *Heh* dimension body that every resurrected saint will inherit. It covers what, why and how does it functions differently from our present fleshly bodies. This chapter prepares you for the new world order, and it is a good chapter to read again because you will find it full of hope. Furthermore, you will not find its informative content taught in any university or seminary!

The 9th chapter means New Life, and it is way-out in concept. I admit that I would exchange this present world for this new life anytime. It is too fantastic even to contemplate. But then again, if I look at the structure of a single cell, I am awed by what God has designed into such a small package. I am further awed by how great my God is and by the fact that He even calls me to be His child. I cannot wait for the birth of the Kingdom of God, but the only bad thing, of course, is that the Apocalypse must come first. It is the birthing process connected with a placenta (Satan's domain), which is burned. The placenta is not a very sightly thing to keep. What is rotten must be cut off so that the body remains healthy, a principle I learned the hard way.

My book ends with the World Cuckoo Clock analogy. It is packaged with lots of extra features in order to make you think. I guarantee that you will think differently if you stayed on the path of the journey through this book because you have been exposed to vital material not taught in universities or seminaries. In fact most Christian theologians face the biggest obstacles to learning new things about the Bible and the God who inspired it. They are immediately turned off when they see the years **2008-2015**.

Don't think so? Just watch their reaction when you say you believe in a number system foretelling a time of the Apocalypse. Everything in their whole being rises up with heated emotion and condemnation before even listening to what you or my book has to say. The idea that we might be able to determine a highly probable date for the Apocalypse is immediately classified as heresy, and you may be called a heretic for even examining it. They forget that the Bible encourages us "to prove all things and hold fast to that which is good." (1Thessalonians 5:21) How can you prove something if you are not allowed to study it?

I highly recommend reading the next book, ***Mystery of Tammuz 17***. You can find it on the Internet for free, or you may purchase/order it in many bookstores. This second book is much better. First, I had learned

Apocalypse Prophesied

From Eden to the New Jerusalem: God's Plan for Humanity

a little more about how to write. I had never done that before and practice helps to make one a little more skilled. Then, as I wrote it, additional understanding came in big waves and that is why the book is bigger.

My second book presents additional analogies that I use to introduce you to the latest science as well. It will solidify your faith so that you will not be persuaded to follow whichever way the spiritual winds blow: from the latest church growth fads to "claim-it" prosperity or other pop-theology seminars. You can dig the truth out of the Bible yourself and apply its words of life to your own situation. The professional scholars may be able to recite and research many technical details and interesting background information, but they will probably possess less biblical common sense than you do after studying my books. In fact most scholars struggle intensely with the challenges to personal faith. Doubt about the Bible often comes along as a part of higher education in today's universities.

Finding the Date of the Apocalypse in a Cup of Coffee?

An Analogy from *Mystery of Tammuz 17*

Before we finish this first book on the 7,000-year plan of God for humanity, I will give you a taste of how simple it is to date the Apocalypse. You do not have to be educated in a seminary or have other college degrees in order to understand what God has told us in His book. I hope that the last 10 chapters have given you some inside information on the Bible and on what life is all about.

Since I announced in this book that there is a 7-year Apocalypse coming, I felt like I should explain it a bit more completely in this book, even though I have written another whole book to do that job, *Mystery of Tammuz 17*. In the process we will need to stretch our minds a bit in order to grow our understanding of God. If I fail to do that here, I was urged by the Spirit within myself to devote one more chapter (12) to explaining Him.

Without understanding God, the Apocalypse will make no sense. To define God is a human impossibility. I don't care how many degrees you have collected after your name. But HANS can give us additional insights or new perspectives. It is like a mirror reflection, where we may see approximately who God is and why He made the Daleth dimension cuckoo clock in the first place, as well as why it runs down never to be rewound again. Once the weight hanging on a chain that drives the cuckoo clock gears has moved the bird to announce the Apocalypse and

Apocalypse Prophesied

From Eden to the New Jerusalem: God's Plan for Humanity

then afterwards reaches the end of the chain, it all stops! That is the Law of Daleth.

When the Hebrew Alphabet Number System made it apparent to me that Bible prophecy runs on two railroad tracks, I unexpectedly began to make many more discoveries. In fact these discoveries have resulted in over a year's extension in writing these books. My second book describes in detail my major discovery of the Bible's Rosetta Stone, which unlocks many new insights into the Scriptures as well as deciphering the dates of the Apocalypse from Daniel's 70 Weeks prophecy that has eluded scholars for centuries. Like the Russian Toy Egg, my second book reveals much about the 7 years of the Apocalypse by overlaying it with 7,000 years of human history. In it you will find many more analogies that will communicate a much better perspective of God's great plan for humankind.

When one is diving in the Bible Ocean and brings up some pearls to be inspected by friends and experts in theology, some pearls are bigger and more precious than others. The value of a pearl is established by those who are familiar with the object. As you read my two books and learn my research methods, you begin to become one of the experts. In the end I guarantee that your learning and skill will be on par with what you could hope to get from a Bible school or other professional academic program of theological study. More importantly, you will grow in faith and grace in the knowledge of God, which is something often lost in seminaries.

Below I will give you a sneak preview - a special, precious gem from my second book on how I discovered the dates between 2008 and 2015 for key events of the Apocalypse. Most people are not theologians, so I use simple analogies in my books that everybody should be able to grasp more easily than a theological discussion filled with complex, unfamiliar words. Remember sometimes the Bible is a little difficult to understand. In this first book I have referred you to chapters and sections where you can find more information about related topics in my second book, *Mystery of Tammuz 17*. In it I give a complete picture of **why-when-and-where** we have the Apocalypse.

Also remember the Bible pearls analogy just above. Professionals evaluate their finds after they have sorted all of their pearls for size, quality and beauty. Only then do they consider what to make with the pearls - perhaps a wonderful bracelet for a dear friend. If you come across to some unfamiliar items that get your appetite going, then you can access our web site at www.apocalypse2008-2015.com and do a site search for more information on that topic.

Apocalypse Prophesied

From Eden to the New Jerusalem: God's Plan for Humanity

Here is an analogy using something we are all familiar with – a cup of coffee. Think of two different mugs that look the same on the table, but each one holds a different amount of coffee. One holds a half cup of coffee with one teaspoon of sugar, and the other holds a full cup with two teaspoons of sugar. In either case the level of sweetness is the same. In this analogy the number of teaspoons of sugar represents the number of chronological cycles or gears. You read about the World Cuckoo Clock in chapter 10. *Mystery of Tammuz 17* describes how the chronological “gears” work to move the hands across the clock face of history.

Similarly, the difference between the 7-based chronological system and the 5-based system in the Rosetta Stone 7:5 ratio is like the difference in the amount of coffee found in the two different mugs that externally appear to be the same but hold different amounts of sugar, one teaspoon or two. In other words, within the Rosetta Stone 7:5 relationship; the 7 is compared to the half cup or one time period. Since 7 (and not 6) is the midpoint of 12 in the Hebrew Alphabet Number System, then the equation of $7+5=12$ gives us the full cup of coffee, which is two cycles.

Daniel prophesied about 70 weeks that behave like these coffee mugs. One set of them has one teaspoon of sugar for one cycle of time, and another set that seems to look like the first has two teaspoons of sugar. We need to know which set to use in order to measure correctly from a given point in history to determine a future date when a specific prophetic event will take place. Thus, Daniel prophesied both what God will do and when He would make it happen.

Remember, God's plan runs on a railroad made of two rails. The two rails represent the repeated presence of duality in God's plan for humanity. For example, the one Bible has two testaments, the “Old” and the “New,” and the clock of Bible prophecy has two sets of chronological gear systems – the 7-based *Daleth* system and the 5-based *Heh* system. We can look at either system alone see how it operates logically according to mathematical precision, but that is not the entire story. They also intermesh with each other at some points, and those points are where the prophetic events presented in the *Heh* dimension become historic or present events in our *Daleth* world of material time.

The principle of duality in one extends to the butterfly story (Chapter 6.), which illustrates how humans have two birthdays. The caterpillar appears to be a rather unattractive, worm-like creature that goes through a death and completely dissolves inside the cocoon to be reborn as a gloriously beautiful butterfly with wings that enables it to fly in the blue sky over a meadow filled with sweet smelling flowers.

Apocalypse Prophesied

From Eden to the New Jerusalem: God's Plan for Humanity

In fact most living things in nature have two birthdays. Any vegetable or tree starts out from a seed that is put into the ground where it dies: the seed decomposes and disappears to give birth to a sprout that will grow into a new plant, which will have seed again. All *Daleth* dimension life forms will experience death as part of the natural life cycle driven by the cyclical (good and evil, birth and death) life force inherent within this system. So even in a seed, we see duality just like the two chronological systems (7-based and 5-based), a person's two birthdays or the two coffee mugs that look alike but contain either a half cup or a full cup, one sugar or two. Understanding this relationship gives us the date of the Apocalypse.

Because Daniel prophesies a coming Messiah who will die (be "cut off") and yet also reign as king, we know from both prophecies that he will be a mortal human who must have two birthdays, too. Because most Bible scholars do not look at the other rail of the railroad, many Jewish scholars believe that there will be two different persons to fulfill the messianic prophecies: one who will suffer (Messiah Ben-Joseph) and the other (Messiah Ben-David) who will be a conquering king. But when one reads both "rails" of the Bible from the perspective of HANS, it becomes clear that all of these biblical prophecies come together in one person – Yeshua/Jesus, who lived early in the first century AD.

What is unusual about Daniel's announcements concerning the Messiah is that he describes a person who will "make an end to sin." Since only God can forgive sin, this promised Redeemer must therefore be God Himself coming out from the *Heh* dimension (5, "the other side") into our material world, which I call the *Daleth* dimension (4, "in this time and in this world"). If God is born into the *Daleth* dimension, He must be prepared to die, too. There are no exceptions. It is the law of His natural universe, like a clock He once wound up but has since been left to run down.

The Bible states that Jesus was obedient unto death. Even as a mortal, Jesus could have chosen not to offer Himself in sacrifice. He did not have to die because He had not sinned. He chose to face and endure a cruel and violent death out of His love for us. He did so because there was no other way. Even though He suffered the forsaken separation from the Father at His own death, Jesus has promised to never forsake those who serve Him as they face their own deaths.

Only Jesus, through the mystery of His pre-existence as the Creator of all life, had the ability to be born in both dimensions at once since He was by nature fully God and fully human. Since Jesus lived a sinless life, He did not earn the penalty of death. He voluntarily took it on for each person who will believe that grace in faith. The fact that Yeshua/Jesus was fully God, being born of the omnipotent and pure Holy Spirit, gave

(9-6-05) page 8 of 19

Apocalypse Prophesied

From Eden to the New Jerusalem: God's Plan for Humanity

Him the power to escape sin's penalty of death through the resurrection. This is also why Jesus is called the Second Adam, the human who restores access to the *Heh* dimension for all of the rest of us willing to be re-born in Him.

Now a birthday only comes after a necessary period of pregnancy when the fetus grows unseen within the womb. The fetus is attached to the womb's interior through a placenta, which is also born and discarded because it is no longer needed for the newborn baby to grow to maturity. In the birth, death and resurrection of the Messiah, we see in one person the whole history and plan of God for humanity just like the pattern on a big Russian Egg is precisely replicated in miniature as a smaller egg.

Jesus is the only person who has come to us from the other side. To His disciples He revealed much about the next stage of life as represented by the butterfly in my analogy. The mystery of the two birthday/two stage system of God's purpose for human life is portrayed in many ways throughout the natural biosphere. Even the simplest seed teaches us that there must be a resurrection to follow mortal death.

In the Apocalypse every person on earth will experience the birth pains of the coming Kingdom of God. The arrival of that Kingdom will be signaled by the resurrection of the saints after the Apocalypse is over. Through the birth-pang plagues of God's Wrath, the placenta of this rebellious world of injustice and evil under Satan will soon be cast aside and burned because it will no longer be required to help humans grow spiritually. I will tell you more about birthdays later, but first you need to know **when** the Apocalypse will show up and what the Apocalypse really is.

So let us go back to our mugs of coffee and how to find the dates of the Apocalypse. Daniel used the one cycle measurement (one teaspoon of sugar) to tell us when that special person would and did appear in the Fullness of Time, which is a date calculated by counting forward into the future from Daniel's prophecy until Jesus appearance (first birthday) in 29 AD.

Daniel's 70 Weeks Prophecy

What is interesting here is to remember the word "until" Messiah the Prince appears that is used in the prophecy. (Daniel 9:25) The 70th Week refers to the seven years of Jesus' ministry. Like the rest of God's plan Jesus' ministry on earth (the 70th Week) is dual; it has two rails, which are in this case two fulfillments. The first rail refers to His appearance at the beginning of His ministry in the flesh as a suffering

Apocalypse Prophesied

From Eden to the New Jerusalem: God's Plan for Humanity

servant in AD 29. The second rail refers to His second appearance (second birthday) at an unknown day or hour after the end of His second ministry – the seven years of the Apocalypse, which is the second and completion fulfillment of the 70th Week prophecy. (As of this writing, the Apocalypse 2008-2015 is still future.)

This duality is also hinted at by John the Baptist's reference to a ministry typified by the baptism with the Holy Spirit and a second ministry typified by the baptism of fire, which I suggest refers to judgment. (Matthew 3:11-12) The important point to note is that Jesus' first appearance starts the 70th Week as calculated using the 7-base system, and His Second Coming takes place at the end of the same 70th Week as calculated using the 5-base system.

Thus, the 70th Week is a Bible prophecy with a dual fulfillment that appears in human history in parallel like the two rails of the railroad track: the 7-base side was fulfilled as an essential foreshadow and first stage fulfillment of God's promises to Israel from AD 29-33 and the other, 5-base side, will be duplicated in type and completed from 21 December 2008 to 21 December 2015. Jesus' arrival following the Apocalypse will empower and complete the promised full restoration of Israel or "restitution all things." (Acts 3:21)

When counting this way, think of a timeline. We have the advantage looking into history and can move either direction, and in this case we move from the appearance of Jesus in the *Daleth* dimension as it relates to Daniel's 70th Week. Logically, therefore, we will **count backward** in half cups containing one teaspoon of sugar from the appearance of Jesus. That spoonful is equal to 490 years until we get to Daniel's time. In the same manner we count backwards in full cups of coffee with two spoonfuls of sugar counting from the end of God's plan 3017/3018 to find the approximate date of the Apocalypse's end and season of His Second Coming.

To explain it with other words, Daniel was told to count 69 weeks forward from the decree to rebuild Jerusalem. To determine the unit length in years for this prophecy, all we need to do is to look back in history. Because we have the advantages of living thousands of years after him along with the gifts of Jesus' life on earth and the New Testament, it is not too hard to count to find the date predicted by the 70 weeks prophecy for the first coming of the Messiah. Using the half cup mugs of coffee, the 7-based cycle is $7 \times 70 = 490$ years, and the last seven years of that cycle is Daniel's 7-based 70th week. Thus, we count 483 years (the 69 weeks of Daniel 9:24) back from the beginning of the 70th when Jesus was baptized by John to begin His public ministry ("appearance" in AD 29), and come to the year when Daniel's prophecy told us to start counting forward. That time (454 BC) occurred when

Apocalypse Prophesied

From Eden to the New Jerusalem: God's Plan for Humanity

friendly Persian king said to the Israelis, "Go home to your country and build Jerusalem the way you would like it." Consequently, he is remembered as a nice guy in Jewish history. (See Observation #1 in Chapter 9 of *Mystery of Tammuz 17*.)

Now we need to find out how many years is represented by the full cup of coffee. Because one gear (one teaspoon of sugar) amounts to 490 years less 7 years or 483 years, two gears (teaspoons of sugar) is double that number of years, or 966. Remember, we ignore the 7 years time duration of the 70th Week because we are counting "until" messianic appearances related to its dual fulfillment. To find the end of the floating 7-based 70th Week, we need to count backwards 2 x 483 years (Plus a conversion factor because the millennium uses astronomical or cosmic years whereas the Daniel's original fulfillment used biblical or Babylonian years of 360 days.) But how do we find the endpoint to count backwards from?

Daniel gives us the answer. Throughout the history of the Church, many Bible scholars have noted that there is a relationship between the Creation Week and God's total plan for humanity. Using the principle of "a thousand years is a day," they have concluded that from the beginning God allotted 6,000 years for human works under Satan's dominion followed by a thousand years (a millennial Sabbath) of God's Kingdom on earth, which will be an age of grace and peace. My research confirms this conclusion with the discovery of the 5-based system of Jubilee weeks of 50 years.

Daniel lived around the year 518 BC, which is about the middle of my 7,000-Year Table of Human History. An angel told Daniel, "From now until the end it will be "time, times and half a time." For the *Heh* dimension's 5-based system, a "time" is equal to 1,000 years, so this prophecy means that there are 3,500 years to the end of human history at AD 3017/3018. Later I will show how I arrived at that date in more detail and how this story conforms to the 7:5 ratio as previously mentioned. It is this relationship which makes it possible to date the Apocalypse because $7+5=12$ is proportionally a full cup spanning the 7,000 years of human history. (See Chapter 9, Observation #2 of *Mystery of Tammuz 17*.) I also showed above how the floating 70th Week had to fall in the parallel 50th Week of the 5-based system – sometime between 1968 and 2018.

So two cycles of 483 years represent the "5" of the 7:5 ratio, which is a full cup of coffee portion of the equation. Moving backwards from the end of *Daleth* dimension to our present time will give us the unknown end date of the Apocalypse, which comes before the second birthday resurrection of the saints and coincides with Jesus' Second Coming into the *Daleth* dimension. When I did so, I came to **21 December 2015**,

(9-6-05) page 11 of 19

Apocalypse Prophesied

From Eden to the New Jerusalem: God's Plan for Humanity

which means that Jesus will appear the second time at some day and hour after 21 December 2015 or after the end of the Apocalypse.

At the same time the First Resurrection of the Saints will occur as they are born again into the *Heh* dimension. This will be a gigantic birth date for millions of resurrected saints who will celebrate the Lord's Second Coming together much as a huge, extended family rejoices in festive celebrations for a long-anticipated wedding. My second book will give you 12 simple proofs any one can use to verify these dates that fit together in a system I could not invent even if I wanted to.

These simultaneous events emerge from the Great Day of the Lord that overlays the 70th Week of Daniel's prophecy as determined by the full cup of coffee counting. The occurrence of these second birthdays, one for Jesus in AD 33 and one for his brethren in 2015 AD are the reason for the creation of the *Daleth* dimension in the first place. The rest of the *Daleth* dimension eventually is assigned to the garbage dump to be recycled; the elements¹ of the seven rainbow color frequency² melt together as Peter writes in his letters. (2Peter 3:10-11) The rebellious nations of people, their leader Satan and his fallen angels will end there, too.

What is really interesting to note here is that we as mortals will experience two birthdays: one in the *Daleth* dimension and the other in the *Heh* dimension of the "other side." Granted, it may be another dimension we have not figured it out, but let's look at Jesus. He comes from the other side and maybe we can learn something from His perspective about how to understand this second birthday.

The Invisible God Becomes Visible – BC/AD 1

The Bible says that God the Creator is invisible, unapproachable light. No one ever has ever seen Him, not even the angels around the throne. After the first rebellion in the former heavens and the subsequent expulsion of Satan from His throne room, God instituted a new plan for the universe to fix what went wrong as described in my books. God's creative genius went to work. Basically, the invisible God decided to become visible, and He used the *Daleth* dimension ("in this world, in this time = 4") to accomplish this objective. To enter the *Daleth* dimension, the divine had to become mortal according to its cyclical nature of biological life and death, so God chose to appear as a human child. Through this first mortal birth, the eternal invisible God became

Apocalypse Prophesied

From Eden to the New Jerusalem: God's Plan for Humanity

both visible and vulnerable in the *Daleth* dimension part of the rainbow energy frequencies of visible light that I describe later.

We will learn that the *Daleth* dimension's natural characteristics were designed for a specific purpose. In it, mortal people can be born again (the butterfly story in Chapter 6) and given the opportunity to qualify to become replacements for the vacancies that came about in God's administration due to Satan's rebellion, when about one third of all angels were given notice that they were to be expelled from their jobs. That has not occurred yet, so Satan is still the god of this world for awhile, and his angelic followers are the gods and demons worshipped by the nations. They will continue to corrupt people until the end of the Apocalypse when all of the evil spirits, except Satan, will be permanently terminated. Satan will be locked away impotent in the depths of the abyss.

When Jesus appeared on earth, even the angels were amazed that God had taken on mortal qualities of character, feelings, joys and sorrows. According to the laws of the *Daleth* dimension, Jesus' birth as a human baby in Bethlehem meant that He would also have two birthdays. Of course, that fact has created a number of controversies between the religious lawyers and teachers ever since. During His time on earth, people questioned everything Jesus did and said. Even though they had witnessed an array of incredible, supernatural miracles on an almost daily basis, Jesus' inner core of friends could not fathom that an eternal God would do something as drastic as taking on the weaknesses of fleshly mortality to become like us. Monorail theologians have wrestled over what this mystery meant for multiple hundreds of years as they split hairs over what some Bible verses meant. I can just hear them, "The Eternal God, and Creator of the universe who has been invisible light to everybody, decided to be born in the flesh? In order to become visible? You have got to be kidding!"

Jesus used the analogy of the father-son relationship to try to communicate that the eternal, *Heh* dimension Creator was then visibly seen in His own person, materially alive in the *Daleth* dimension of this world and time. One can take Jesus' analogy literally or poetically. I believe that understanding this concept is a gift of the Holy Spirit. It is a spiritual principle that cannot be materially reasoned or perceived. (Matthew 11:27)

Remember, Jesus disciples were not theologians educated in the Torah, but they knew that God lived in Heaven. Jesus referred to God in Heaven as His Father, and this concept they seemed to accept without trying to think about it too deeply. (Mathew 10:32) Even for them, the concept that God was living amongst them as Jesus was almost impossible to comprehend.

Apocalypse Prophesied

From Eden to the New Jerusalem: God's Plan for Humanity

Philip finally asked Him to show them the Father because Jesus had used this familiar analogy to communicate the nature of the eternal. (John 14:8) In response Jesus said plainly, "I and the Father are One." Earlier Jesus had asked Peter a question to check out the level of the disciples' understanding. (Matthew 16:13-20) It looked on the surface that Peter said the right thing, but a few weeks later he caved in when the pressure became too great and denied that he knew Jesus. Even the highest Jewish court asked Him directly, "Are you the Messiah, the promised king?" Jesus' answer came loud and clear - and one notch higher, "I AM," meaning that He was the Creator of the universe. The word concept "I AM", in the Hebrew will be difficult to translate because it is never spoken and is expressing an absolute holiness religious Jews were not allowed even to utter. It of course resulted in a lynch mob and speedy execution by crucifixion.

Now this divine person's life and death in the *Daleth* dimension created controversies that continue unsettled even today. Jesus died according to the plan foretold by many prophets, and He rose after three days with a transformed, incorruptible body. This resurrection revealed a new birth as a new creation that had never occurred before in the universe. What was and is so astounding about Jesus' resurrection is that His presence was not restricted to the *Heh* dimension of "the other side." It appeared multidimensional. For forty days Jesus walked and talked with His disciples on earth. (Luke 24:36-49) They touched his solid body of flesh and bone. He walked through walls and traveled great distances within seconds and enjoyed eating food. The resurrected Jesus demonstrated a supernatural dimension of a higher order as witnessed by 500 people, which I call the coming ages of *Teth* on earth and *Jod* for the other side the heavenly Jerusalem.

The coming of the Apocalypse heralds also the promised future time of a totally new universe where God Himself dwells with His children. The Apocalypse is not only a destruction of the Second Civilization, but the birth of a new one. It is like the bloody placenta born with the baby: evil, like the placenta, is permanently removed even as the Kingdom of God is born bringing with it the dawn of new life. My World Cuckoo Clock model explains it in Chapter 10 of *Apocalypse Prophesied*.

So the Apocalypse is a birthing process where the mortals of the *Daleth* dimension are transformed into the immortals of the *Heh* dimension that fills the age of *Jod*. Jesus is already there. In the book of Revelation John reported from Heaven as he stood in front of the most holy throne. All John could see proceeding from the Throne was exceedingly brilliant light, burning fire, lightning and thunder. Nothing else. But then, just in front of it stands Jesus with His wounds identifying Him. Here again, He is visible to a mortal witness who

Apocalypse Prophesied

From Eden to the New Jerusalem: God's Plan for Humanity

reports it for us. Jesus also glows radiantly in a brilliance that reminds us of His glory foreshown on the mountain of transfiguration just before His crucifixion, which was like a prophetic telescope witnessed by (5) five people on earth. (Mathew 17:1-8)

The Hebrew concept of God expressed by Aleph, meaning the "One," also refers to His role of sustaining the unified integrity of the creation. (Colossians 1:17) In some manner the energy nature of the One God is invisibly imbedded in every element or subatomic structure as taught in physics even as He maintains His uniquely separate person-ness expressed as the Father, the Son and the Spirit to make us understand what belongs to the other side. The "One" created Beth (2, the house or creation), which expanded into the *Daleth* dimension peopled with mortal humans and angels. But *Daleth* is only temporal and will end in =*Taw* (400). What comes next, the old order?

The answer is "No." The old Pre-Adamic order in the heavenlies has been broken. Out of *Daleth's* relationship with *Heh*, God now institutes a new age (4+5=9, *Teth*) that hints of the coming age of *Jod* (2x5=10), the "Second Birth" of a New Heaven and a New Earth with new creatures living in it. Since it is broken, the old order must die with the old system. It became finite when it malfunctioned, failing to properly perform its eternal purpose; hence it exists in this broken, rebellious state only until the new child of the Kingdom of God is born.

Since His resurrection, Jesus Christ, which the Apostle Paul rightly recognizes as the Second Adam is a new totally new creation - no longer composed of *Beth* material but of *Jod*. Only the Hebrew Alphabet Number System provides a suitable analogy to explain it to our limited comprehension of the material world. Our present reality provides nothing to compare it with, except to reflect it like a mirror faintly understood by the wise saints prophesied to live in the last days.

In *Jod* (10) *Beth* (2) is elevated to 10+2=12, meaning the once invisible God becomes visible - a concept impossible for the angels to comprehend. Remember, 10 is a higher level of the "One," who through the detour of life in the *Daleth* dimension becomes now *Jod*, a "resting hand." Hebrew would make a picture of *Jod* creating *Beth* again; however, on a higher level we will never ever have a *Daleth* dimension appearing or being created again because the *Daleth* immunization lessons have been painfully imbedded into the righteous nature of the saints now born into *Jod*. In this way alone does God prevent any future reoccurrence of the evil being given birth such as Heaven experienced from Lucifer's rebellion. That is why the *Daleth* dimension came into existence in the first place. So, 10+2 becomes 12, and its meaning is "perfect government."

Apocalypse Prophesied

From Eden to the New Jerusalem: God's Plan for Humanity

The previous government in the *Heh* dimension failed, and God the invisible now becomes visible, which is the solution for a better government. Seeing His wounds in His hands now elevated and resting is what *Jod* means. These wounds will everlastingly remind us of His great love poured out for us. He paid a great price for our lives so that the faithful saints may live forever. Love is the only bond of fellowship that can prevent rebellion from ever happening again. The resurrected Saints will love, honor and worship Him forever so that the universe will again become functional to the benefit of all created beings in the cosmos.

Modern Confusion

My Jewish readers, please wake up from your 2,000-year old sleep! Jesus is coming back soon. He is the only one to be able to save Israel one person at a time and as a nation from total destruction. The Israeli army will not be able to preserve your freedoms and independence from the coming global government. The Bible predicts that your nation will be deeply divided politically: about half will cooperate with the Babylonian system and many will resist.

Do not fear losing your seeming friends like the United States government. America will become severely weakened and unable to protect you or help you financially – even if she wanted to. All nations will gather against Judah and Jerusalem because they come to fight God. (Zechariah 12:2-3) The LORD of Hosts is your only shield, and He alone is able save you. This fact of survival has always been the case, but we humans do not like to depend on the unseen Eternal One who is *Aleph*.

The children of Israel even today do not read all that God has promised, nor do they mention it in their synagogues because there are additional promises made to Israel in the New Covenant of Yeshua/Jesus. No wonder their leaders make big mistakes like the monorail Christian theologians, who ignore the Jewish scriptures and traditions, are the blind leading the rest of the world's blind.

The Jewish people are not alone in their ignorant resistance. Satan has done a brilliant job educating the Christian church on earth to follow his perversion of what the Bible says. Most modern Christians are ignorant of the Bible as they read endless books that emphasize the good life or focus on false doctrines that satisfy the intellect and confuse the simple.

Christian readers need to wake up, too! The modern Christian church has an extremely difficult time delineating between even the most basic truths and errors concerning life and morality. It is rapidly degenerating into baseless unbelief regarding the saving necessity of Jesus' blood as

Apocalypse Prophesied

From Eden to the New Jerusalem: God's Plan for Humanity

well as an almost outright denial of the Bible as God's inerrant Word that means what it says.

No wonder that there are so many competing, opinionated doctrines to muddy the spiritual waters for the average person. Just look at the yellow page listings under "churches" in any town in America, and you will quickly prove my point to yourself. Either they claim exclusive truth directly from God, or that it does not make any difference what you believe because it is "truth" to you. They all say that we have the exclusive truth directly from God. Other sincere people are led into saint-worship of beautifully carved pictures on gold veneered wood or ancient icons. They suffered from directed adoration to a new "Queen of Heaven" who is really the old one in disguise. It is just like the Babylonian religion that God condemns in the Bible. Then there are the rest of the non-biblical religions on earth who have no idea who God is.

Some Muslims may be sincere in worshipping the Creator, but those who murder others to honor their perceived deity are in fact serving Satan who is a Destroyer since the beginning of time. A false god made up by evil man in their own image covered up by a counterfeit holiness through the contradictory and too often inaccurate haze of the Koran. In all cases whatever truths may be present in that revered book will be distorted by human leaders looking to accomplish their own goals exploiting the good will and resources of a deceived following.

Some proclaim a god that requires one's own life to be literally sacrificed on the altar of violence to define their sacred faith. That kind of faith brainwashes them to dutifully murder and kill as many as possible of their self-defined, nebulous, and amorphous category of people called "unbelievers," which they consider subhuman dogs to die in order to please an indefinable Allah-God. Such a religion does not know anything about the loving true God who created humanity to bless them out of His affection, friendship and tenderness for us – even though we do not deserve it!

Yes, the God of Heaven will judge this world devoted to evil, but He alone has the authority to be the executioner. He did not appoint some fallible sinful corrupt followers of any religion to be the judges of the world in His place, nor is God impotent that He needs His followers to wage war on His behalf. Satan is liar and always has been. A disguised Satan promises 70 virgins in a garden paradise to Muslim terrorists who sacrifice themselves for his religion. Don't count on it. The other side is also hell as the Bible states and it does not mention virgins as a reward. The true God will reward good deeds, but those who commit evil deeds without obtaining forgiveness are sent to where the demons live that refused to submit to His ways and rebelled against the Holy God of the Bible.

Apocalypse Prophesied

From Eden to the New Jerusalem: God's Plan for Humanity

Contrast the teaching of a Moslem religion with its terrorist or warrior dogma in the teaching of Jesus who voluntarily died for each and every sinner to forgive their sins, when He did not need to. The truth is just the reverse of those who preach a violent *jihad*: In Jesus we have a God dying for humankind and not the other way around. That is the difference between truth and error in both Christianity and Islam religions. Even warfare under the false pretense of being conducted in the name of Jesus is damnable. Such "Crusader" service is not rendered to the Creator but to Satan the Destroyer. Many so called Christians who commit murder by conducting wars are probably not true believers either.

Remember, Satan is a liar and a murder from the beginning. (John 8:44) Satan's children are easily identified by their lying, murderous fruits. The servants of the true God may also be known by their fruits. They respond with love because their God is love. Most charitable organizations worldwide responding to disasters are Christian or Christian in origin. It is a cause-and-effect law of the universe. For instance, in the disasters of New Orleans in September 2005, the biggest storm in 150 years, just one little Baptist denomination in that area sent 16,000 volunteers to feed 36,000 people daily. They do not make headlines on TV, but God knows their faithfulness to express their belief in love for their fellowman in need.

My advice is to stop being a monorail theologian, scientist or common skeptic, and just simply believe what Jesus told Phillip very plainly 2,000 years ago, "If you have seen me, you have seen the Father." In other words Jesus was saying, "There is one God." Then you can stretch you minds a bit more on what that means

Coming back to the Apocalypse, remember that it is like childbirth: it will be a difficult time for everyone. For those who are lost, it will mean the horrors of Satan's cruel rule and a fiery destruction in the lake of fire. He is about to bring hell on earth for the purpose of destroying every person and the creation God made to be our home. Satan wants to be God and to be worshiped by beings. If you fear or honor the devil, you will become evil or incurably corrupt like him. If you honor and serve Jesus, who is now the visible God of the universe, then you will become holy or wholesome as He is.

Jesus died for us that we might inherit everlasting life through faith. On top of this wondrous blessing, He guarantees no more pain, tears or sickness. The day is coming when all of the former things will pass away forever. In its place will be the glorious mansions of the heavenly realm bearing a beauty and joy beyond our imagination. Instead of conflict, the redeemed will enjoy healthy relationships with each other as only true friends and loving family can foreshadow today. You cannot have it

Apocalypse Prophesied

From Eden to the New Jerusalem: God's Plan for Humanity

any better so do not be so stupid as to miss out when it is being offered free to you. Get with it, and do not waste another minute and become His child.

It is in your power to decide to be born the second time and to put butterfly wings on for your second birthday journey. There is still time to repent and believe the good news of the gospel. In my life I have known some people who got up in the morning to work like any other normal day, but they never came back home that evening. In their next moment of consciousness they will wake up where they wanted to be. It might be like a butterfly in a beautiful meadow or imprisoned in outer darkness where there is weeping and gnashing of teeth in the utter pain of having missed out. I will end up being with my Redeemer. It is a much smarter choice. No theologian will put it to you like that, so I rest my case.

In my books I openly share my thoughts to help my readers to grow in the grace and knowledge of God. Please do not elevate my words to dogma or start a new church. Just consider them as you read God's Word, which is the only saving knowledge needed.

Love God with your whole being. Honor Him who engineered humanity to be inoculated with evil or by failure so that chaos in the Kingdom of God will never happen again. God's desire is to govern the universe in peace and prosperity for everybody's benefit. There will not be any more rebellious surprises to greet Him such as Moses had when he returned from the top of Mount Sinai with the covenant tables of stone in his arms only to see the people of Israel cavorting around a golden calf fashioned by his own brother and high priest, Aaron.
