#### Book Two: The 7 Years of Great Tribulation

The Bible predicts the future, but scholars widely disagree on what the Bible says! How can the average person sort out fact from fiction? Daniel 12:10 boldly states that the

wise will understand prophetic chronology in the last days. Have those days already begun?

Retired hi-tech inventor and author Herbert R. Stollorz discovered that the dates of many key events predicted in the books of Daniel and Revelation fall between the years 2008 and 2018. Two of the keys that unlocked this mystery are the Hebrew Alphabet Number System and the Jewish feast and fast days. One of those fast days, Tammuz 17, commemorates the fall of Jerusalem prior to the destruction of God's Temple in Jerusalem.

Do not expect a theological treatise or the date for the return of Jesus Christ. Instead, you will read about the events of the soon-coming Great Tribulation described in detail and dated. The unique perspective of this applied scientist is revealed through the research methodology he used to unlock Bible mysteries built into the universe by God at the beginning of time. The same pragmatic approach that has helped to make functional hi-tech devices now provides challenging answers to questions like:

- How do you know that the Apocalypse will begin on December 21, 2008?
- How does 12 December 2012 link the Aztec, Chinese and Hebrew calendars?
- What has the jubilee (50) year gear between 1968 and 2018 got to do with the Bible's Rosetta stone and Daniel's 70 Weeks prophecy?
- How and when is the spirit world revealed to mortals? What are Antichrist's "Shock Troops"? Will mortal believers go through these trials?
- Why is it important to read both testaments of the Bible?
- How do Jewish festivals reveal the dates of the Apocalypse?

### CHAPTER 12

## The Plan and Identity of God in Jesus

### The Smallest Micro-Egg of the Universe

Why is there a plan for humanity? Why do  
I exist?

What or who is God? One? Three? Both?

Who was Jesus?  
Was He human or divine? How?

Midway through our journey of our Bible-land exposition we must come to terms to understand a few important questions introduced this book. It covers the story of people and God for

## **Apocalypse Prophesied**

From Eden to the New Jerusalem

about 6,000 years of history and an additional 1,000 years of prophecy yet to come.

Is there an end to this story, and what is it? Many of our scientists have come to the conclusion that we are on the edge of a great global environmental crisis. They believe that there are too many people on earth, and that we humans are stressing both our biological and social environments. Many experts see no escape from eventual disaster. In other words, to them our evolutionary path has crested, and it is from now on a downhill plunge. They can only try to estimate speed of our descent.

Most secular predictions I have heard do not go beyond 100 years. I admit that it can be very depressing, and we know that our civilization will not fix the problems of over-fishing, pollution, genetic manipulation, the production and supply of fossil fuels or their alternatives, global warming and the others. In almost every corner of the planet, we are greedily destroying what has been a nurturing environment for thousands of years.

Do not think for a moment that those white-coated, overeducated scientists in the laboratories have any idea that preserving this world is a noble undertaking. They are driven by an irrational appetite for obscene corporate profits around the world, they will continue in their destructive path until all of the original gene pool has been assaulted for exploitation with the intermixing of genes from every vegetable and animal. What will happen when the population has doubled again the next 20 years, and again the next 20 years, and...?

Before many more years there will not be any pure, original genetic material available for gene splicing or manmade modification of agricultural plants and animals. In many cases farmers are facing deteriorating yields in quality and quantity as well as increasing costs. At some point the consequences of consuming all of these genetically modified foods will show up in the health of the general public on a massive scale beyond correction and restoration due to the lack of original, unmodified organisms that will have disappeared from civilized areas and perhaps even become extinct. Hence the answers cannot come within a closed system. A closed system is when you state. "I exist because I am."

## Apocalypse Prophesied

From Eden to the New Jerusalem

Put together, they can be articulated in a short sentence with only four Daleth words:

### **“God created - the Saints.”**

This was and is the purpose of God for humankind and becomes a micro miniature egg of the big Russian toy egg of the Bible. Only God could have written it, and HANS became an instrument to clarify it for His children. This concept was expressed by a tiny little church I visited in the backwoods of the Redwood forest in California as follows:

This is my Bible, Gods Holy Word. It tells me where I came from, where I am going and how to get there. This Bible tells me how to live as a Christians, so I will hide His word in my heart that I may not sin against God. My Bible tells me that I receive Christ as my Savior, I pass from death unto life, so Thank God; I will never be the same.

## Final Words

In many ways I finished my book in Chapter 10, but I just wanted to open the doors of your mind to keep thinking bout the Creator who loves you. We are certain of difficult times ahead. I urge you to caution lest you find yourself trying to fight God. If you do, you will never, ever win. Read the Bible. Ask to understand His purpose in life for you, and you will receive! It is not that difficult to be counted among the sheep who will inherit the kingdom:

He has told you, O man, what is good;  
And what does the LORD require of you  
But to do justice, to love kindness,  
And to walk humbly with your God?  
(Micah 6:8 NASB)

I hope you enjoyed reading this book, and I would like to hear from you by email or through our Readers' Forum. Please recommend it to your friends or relatives. Finding biblical treasures like I have written about in my books is worth sharing. Maybe you, too, will write a book to tell us about your

Page 58 of 60

## Apocalypse Prophesied

From Eden to the New Jerusalem

Our monorail scientists (those who reject divine revelation from outside of our material dimension of time and space) try to tell us that a complex design system inherently imbedded in every cell evolved from one cell by itself. If so, then it logically follows that my complex computer or watch has evolved too. Or, try to imagine that without the hands, feet, electricity and factories of thousands of intelligent beings that the cell somehow designed and built its structure by chance, yet it is equipped with the same features we find in a complex TV or any other invention made by gifted and highly skilled humans. This faulty reasoning of course is in conflict with the Second Law of Thermodynamics, which is scientific evidence and not speculation.

Institutionalized academia is not allowing serious debates within professional scientific forums on other options to explain the origin of our planet and universe. Over 3,000 years of written observations made by Greek philosophers (scientists actually), religious scholars, or the many recorded experiments left to us by the scientists of antiquity are denigrated as inferior by many of our modern scholars. Condemnation is especially focused on any works that mention the Bible because true spiritual revelation cannot be scientifically proven in the Daleth dimension.

It is a wrong-headed policy not to permit the disciplined study of biblical revelation in our institutions of higher learning because it treats such revelation as being irrelevant. Denying that a Heh dimension exists just because we cannot test it in the Daleth dimension laboratory is like denying the existence of love, life, death, magnetism, gravity or many other realities of life that cannot be understood either solely based on the Daleth dimension data. The fact is that we have not really come up with any believably rational replacement for the origins other than some form of intelligent design from what is observable in our material universe.

Reputable scientists who desire to investigate the questions about origins should also look outside our closed system for answers. As a scientist, I have found reliable knowledge outside our closed system that gives a purpose for our existence in a material universe. If you think about the concept of purpose, eventually you are confronted with God who designed and brought into existence a very complex system observable all

Page 3 of 60

## Apocalypse Prophesied

From Eden to the New Jerusalem

around us, everywhere we look, for as far as we can probe with our extended five senses.

As a dual rail scientist, I employ the teachings of the Bible together with experiential and applied science. It is the only book on earth that can back up its claim that its knowledge and wisdom comes from the outside our material dimension of time and space, which HANS defines as the Daleth dimension. It does so with authority and through prophecy – both fulfilled in past history as well as that which is yet to come to pass.

Usually, the massive amount of evidence I have submitted in my books is readily dismissed by monorail scientists, monorail theologians and other “experts” who are educated in Godless institutions that teach the macro-evolutionary theory as fact. Those who never venture into the literal, systematically integrated, dual-rail biblical worldview will never understand either the Daleth or the Heh dimension. Their willful ignorance and rebellion against the Creator God pre-empts the possibility of an open mind.

Why? Because if they do make an honest investigation, they might have to admit that God is real, which means they would have to face the issue of His moral and spiritual authority. The problem is that they desire the license to satisfy their pride or some felt need of their flesh more than they want to be transformed into someone with the same loving and righteous character as the Creator.

But the truth is that one day we all will stand before the God revealed through Israel and Israel’s Bible, who then will be the ultimate Judge. Their shame will be that they probably already know His name. In that final Day of Judgment all persons who have been dead, and any then living, will need to individually acknowledge Him as their Creator and rightful King. Each will hear His decision as to whether he or she has passed the test. School time is then over, and those who graduated will get a wonderful job in the eternal life prepared from the beginning for them.

My books focus on what is ahead of us within the context of past history. They also look forward to a tremendous future, which God has in store for all of those willing to love Him in truth. Long ago the Bible predicted the coming collapse of our global

## Apocalypse Prophesied

From Eden to the New Jerusalem

Humans thus receive redemption by exchanging or mortal life force destined to end (*Taw*) with an eternal life force a portion of Jesus Holy spirit life (*Jod*), which is the force sustaining our very existence. It is analogue to the Aleph/Alpha force (GodFather) embedded in every atom to give it “Gestalt” or existence so that we have a Daleth dimension universe still functioning as we can see with our eyes and otherwise observe through instruments that extend our natural senses.

From the beginning God determined for mortals to learn through suffering in order that we will become immune or be inoculated against evil. That is why we have the two-birthday butterfly cycle for our complete development stage to correct any inherently wrong programs, which express their presence through sinful behavior. All those who serve Him must learn through trials and affliction to become suitable for a new life experience in the Jod dimension, “for the disciple is not above his master.”

“If the world hates you, be aware that it hated me before it hated you. If you belonged to the world, the world would love you as its own. Because you do not belong to the world, but I have chosen you out of the world—therefore the world hates you.

Remember the word that I said to you, ‘Servants are not greater than their master.’ If they persecuted me, they will persecute you; if they kept my word, they will keep yours also. But they will do all these things to you on account of my name, because they do not know him who sent me. (John 15:18-21)

As a consequence of living at the last days of a rebellious civilization (Zayin Age) coming now shortly to an end, all mortals must learn their final lessons. The primary reason for the Apocalypse is to end Satan’s domain and to purge the Second Heaven (part of the Heh dimension). This follows the removal of all evil on the earth, and it will eliminate all satanic influences in preparation for the coming Kingdom of God on earth during the millennial global rule of Jesus from Jerusalem. The plan of God for humanity as expressed in the Bible can be summed up with the very the first two words of the Old Testament in Genesis combined with the very last two words of Revelation in the Bible.

## Apocalypse Prophesied

From Eden to the New Jerusalem

wrath and anger and wrangling and slander, together with all malice, and be kind to one another, tenderhearted, forgiving one another, as God in Christ has forgiven you. (Ephesians 4:17-32)

When the saints receive the Jesus' Holy Spirit, they develop a new "identity in Christ." They learn to reject the old spirit of selfish rebellion of the natural Adam nature we are all born with, and they embrace or conform to the Second Adam nature, to be like Christ, in order to qualify for life and administrative office in the Jod dimension. This process will result in a series of choices that will transform the mind of our personal identity or character as believer and will "inoculate" him or her against any capacity for evil to be prepared for the coming Jod-resurrection to be born into the Kingdom of God lasting forever.

What I am saying, brothers and sisters, is this: flesh and blood cannot inherit the kingdom of God, nor does the perishable inherit the imperishable.

Listen, I will tell you a mystery! We will not all die, but we will all be changed, in a moment, in the twinkling of an eye, at the last trumpet.

For the trumpet will sound, and the dead will be raised imperishable, and we will be changed. For this perishable body must put on imperishability, and this mortal body must put on immortality. When this perishable body puts on imperishability, and this mortal body puts on immortality, then the saying that is written will be fulfilled:

"Death has been swallowed up in victory. Where, O death is your victory? Where, O death is your sting?"

The sting of death is sin, and the power of sin is the law. But thanks be to God, who gives us the victory through our Lord Jesus Christ.

Therefore, my beloved, be steadfast, immovable, always excelling in the work of the Lord, because you know that in the Lord your labor is not in vain. (1Corinthians 15:50-58)

## Apocalypse Prophesied

From Eden to the New Jerusalem

economic and political system we think of as civilization. We are already experiencing the advance warnings of the great natural and man-made crises to come.

But the Bible also foretells that most of humanity will continue to reject the God of Israel's plan and promises in order to try to solve its problems on its own. The nations will try to solve their problems with a massive and repressive One World System of government. It will be founded on international trade and a unified religion the Bible calls Mystery Babylon.

In response God is going to purge the Second Heaven part of the Heh dimension of all satanic forces. He will follow that up by wiping out any human rebels on earth (Daleth dimension). The resulting process of birth is popularly called the Apocalypse. Its purpose is to prepare humanity for the promised arrival of the Kingdom of God on earth. Through it, Jesus will reign over all nations from Jerusalem for a thousand years of peace, prosperity and spiritual clarity executed justly in truth. Read the 7th chapter of this book again.

There will be no "Rapture" for the faithful, though misled Christians who desire to escape prior to the Apocalypse. Jesus' coming in the clouds will happen sometime after the Apocalypse is over. There are a number of theologically simple reasons why many Christians will then be terribly surprised. The Second Heaven of the Heh dimension is currently occupied as the realm or dominion held by the Devil and his demons. (Ephesians 2:2)

Monorail Christians do not know what Heaven is. These spiritual battles are real and not trivial as demonstrated by Gabriel's delay by the demonic "Prince of Persia." In Daniel 10:13 this man of God reports that Gabriel had trouble penetrating through the air domain under Satan's control in order to deliver his message. It took 21 days for the mighty Gabriel to get through to Daniel, and even then he required the help of Michael at the head of a heavenly army.

So Christians listen, when Jesus comes in the clouds on a white horse to meet the living and dead mortals now resurrected with glorious bodies, one thing is sure: no evil angels are going to be around to sabotage and break up His wedding party. The war in heaven will already be history by then. (Revelation 12:7-10) With the written marriage covenant, which is also the title to the

## Apocalypse Prophesied

From Eden to the New Jerusalem

earth, in His hand Jesus will have had the heavenly highway before Him totally cleared of spiritual scum before He comes for His Bride. (Revelation 19:7-10) Until Michael and the Host of Heaven have finished driving them out, Christ cannot come for His Bride, and the Saints cannot rise to meet Him in the air either. (1Thessalonians 4:16-17; Revelation 20:4)

This means that the true believers will also live during the Apocalypse. A number of them will become martyrs. Through the trials of the Apocalypse, the saints will acquire a special immune system against evil that will qualify them to rule in the highest government positions of the Jod universe under the eternal God, who is now made visible in the person of Jesus Christ.

Many believers will survive the ravages of the Apocalypse to its very end. Other survivors will include millions of basically decent people who were not killed by the four (4) death angels you will become familiar with in my second book. These people will live to serve God in the future and repopulate the planet during the 1,000 years of peace and prosperity to come that I call the Teth Age. God will bring His sheep safely through the years of tribulation. These are the ones who will be sealed throughout the Apocalypse by the holy angels. They were appointed and sent by God for that purpose even as the wicked (goat people) will be judged with suffering and removed by death:

...the Lord knows how to rescue the godly from temptation [trial-alternate reading], and to keep the unrighteous under punishment to the day of judgment. (2Peter 2:9)

You still have time, dear reader to make a very important choice: who you want to believe? The animals and plants, of course, have no choice, and I hope that you do not consider yourself to be an animal as our schools teach. They live and move in accordance with the divine plan for their creation and biological survival in their native environments. Of course, their lives are different from ours. With them, however, we endure the conditions of a fallen world under Satan's destructive juggernaut due to Adam and Eve's choice, and that is why many species have become extinct. Since then, the natural environment has been thoroughly exploited, as animals have been worked to death and treated like biological raw materials that can be

## Apocalypse Prophesied

From Eden to the New Jerusalem

Spirit to make us fit for the Jod dimension or conform to the Second Adam nature, to be like Christ.

This is the "old man" versus "new man" analogy most Christians are familiar with, or the structural meaning of "Christ in me, the hope of glory."

...and it is no longer I who live, but it is Christ who lives in me. And the life I now live in the flesh I live by faith in the Son of God, who loved me and gave himself for me. (Galatians 2:20)

Now this I affirm and insist on in the Lord: you must no longer live as the Gentiles live, in the futility of their minds. They are darkened in their understanding, alienated from the life of God because of their ignorance and hardness of heart. They have lost all sensitivity and have abandoned themselves to licentiousness, greedy to practice every kind of impurity.

That is not the way you learned Christ! For surely you have heard about him and were taught in him, as truth is in Jesus. You were taught to put away your former way of life, your old self, corrupt and deluded by its lusts, and to be renewed in the spirit of your minds, and to clothe yourselves with the new self, created according to the likeness of God in true righteousness and holiness.

So then, putting away falsehood let all of us speak the truth to our neighbors, for we are members of one another. Be angry but do not sin; do not let the sun go down on your anger, and do not make room for the devil. Thieves must give up stealing; rather let them labor and work honestly with their own hands, so as to have something to share with the needy.

Let no evil talk come out of your mouths, but only what is useful for building up, as there is need, so that your words may give grace to those who hear. And do not grieve the Holy Spirit of God, with which you were marked with a seal for the day of redemption. Put away from you all bitterness and

## Apocalypse Prophesied

From Eden to the New Jerusalem

God has spoken through Jesus, "Whosoever comes to me (Jesus) will enter into everlasting life. If any man is thirsty and believes in Me, then from his innermost being shall flow rivers of living water." (John 7:37-38) Those born of the Holy Spirit will become springs of living water (the Holy Spirit). That is the Word of Jesus. It is guaranteed and that is the law of the universe originally brought into existence by His Word. God spoke before time, and the universe became an energized reality with the invisible electromagnetic force Dr. Einstein discovered in the seven rainbow colors of the visible light spectrum. God will speak again, and the Jod-universe will come into existence "making all things new."

So you see, the second rail gives balance to the whole system. One must understand the system of HANS in order to understand the trinity. You will also begin to understand how the Holy Spirit functions as the invisible side of God in the Heh dimension. One must use both rails to reach toward a more complete and balanced understanding of God's plan. I tried to share it with you in these many pages. I have attempted several different approaches and methods in the process, but without the help of the Holy Spirit we will never understand it. Whether you are a Moslem, Christian or a Jew, understanding the concept of three in one is difficult, but both science and the Bible teach that God is One, which fact may remain a permanent mystery for you.

We have now covered new concepts that you will not find taught in universities and seminaries. Discovering HANS was a wonderful experience for me, and I hope it has cleared up some of your own questions, which in one way or another have raged throughout our civilization for thousands of years. I look forward to meeting Him who was invisible but now is reveal in Jesus. I want to touch His hands and feet and be secure in loving the right person forever.

To sum it up, Jesus is the Holy Spirit Godhead shrouded in the flesh to become visible. He continues invisible in the believer who has received the gift of the Holy Spirit. Many Christians like to say, "Let Jesus come in your heart." When the saints receive Jesus' Spirit they develop a new "identity in Christ" by learning how to reject the old spirit of selfish rebellion of the natural Adam nature we were born with and embrace the Jesus Holy

## Apocalypse Prophesied

From Eden to the New Jerusalem

exploited through mass production and genetic engineering without moral regard for their conscious being. This could apply to many of us who think we are just biological relatives of apes. It has before under the Nazis.

Hundreds of years of abuse by thousands of professional religionists have inspired many secular philosophers to think that religion is poisonous to healthy societies and their citizens. If Voltaire and Marx (to name two famous European thinkers) had been educated in the dual-rail system and not rejected biblical truth simply because of the many gross abuses of the religious establishment, then, perhaps, Europe would not have been destroyed twice at the hands of the likes of Hitler, Stalin or Mussolini and the thousands of faceless executioners they employed. Millions of people would not have lost their lives needlessly.

The Bible teaches a cause-and-effect law of life, which comes from the God's throne. Ignoring it only demonstrates it exists because the wholesale rejection of faith has also led to millions of people being oppressed and murdered by totalitarian economic and political systems as modern history testifies. These sad tales of violent oppression and genocide will be repeated over and over if we forget why millions were killed in the name of one ideology or another.

People trained to think systematically or logically cannot avoid these important questions without coming to terms with the Bible. Most educated people today have never read the Bible, and most of those who have read it, understand very little of what they read because the eye of our natural minds requires the lens of the Holy Spirit in order to comprehend the mind of God revealed in His Word. (1Corinthians 2:6-16) Jesus has promised help to those who ask through prayer in His name.

Nevertheless, the "Book of books" cannot be ignored. The Bible may seem a complex literary work because it was written by 40 authors over a period of 3,000 years ending over 1,900 years ago. For a collection of books written by so many over such a long period of time, the Bible demonstrates an amazing degree of integrated unity of knowledge or wholeness. This fact in itself demonstrates the existence of an eternal Editor to guide its development from beginning to end. The Bible is God's Word,

## Apocalypse Prophesied

From Eden to the New Jerusalem

and it is His revelation to humanity. Through His Spirit, He unveils what He wants us to know when we read it or hear it taught:

For to us God revealed them through the Spirit; for the Spirit searches all things, even the depths of God. For who among men knows the thoughts of a man except the spirit of the man which is in him? Even so the thoughts of God no one knows except the Spirit of God.

Now we have received, not the spirit of the world, but the Spirit who is from God, so that we may know the things freely given to us by God, which things we also speak, not in words taught by human wisdom, but in those taught by the Spirit, combining spiritual thoughts with spiritual words.

But a natural man does not accept the things of the Spirit of God, for they are foolishness to him; and he cannot understand them, because they are spiritually appraised. But he who is spiritual appraises all things, yet he himself is appraised by no one. (1Corinthians 2:10-15, NASB)

Like the smaller eggs in my Russian Egg analogy, my books attempt to relate a condensed version of what you will discover in the big egg of the Bible. Please do not be surprised when I tell you about the Bible's Editor from the other side of the Heh dimension because He wants us to have this information from outside of our closed system Daleth dimension. It is the only trustworthy source for rational and honest answers to the big questions.

One might ask a monorail scientist to explain the big picture of our existence with its many dilemmas and meaningful questions of life like, "Why I am here on this planet? Where is this world going? And, will it end some time?" but their best, honest answers are going to be incomplete at no professional fault of their own. The only dependable answers must come from outside of our material dimension of time and space that they cannot examine naturally. It takes spiritual help to understand the impending course and destination of today's the mad rush of modern technological developments.

## Apocalypse Prophesied

From Eden to the New Jerusalem

It seems to be out of "nothingness" because our material universe of the 7-color band Daleth dimension was formed out of the higher energy levels of the 5-color band Heh dimension that we cannot perceive by any physical means, method or instrument. Remember, the Heh dimension is the eternal reality. At the end of time even the Heh dimension will be made anew raised to a new, Jod dimension of the New Heaven and New Earth.

The Biblical Holy Spirit of God can only perform or work the will of God, according to His perfect love and justice. As a counterpart for the visible God in heaven, Satan now operates in the Daleth dimension through a spirit power from the Heh dimension that is universally present in our material universe and that cannot be measured by science. It is like a counterfeit Holy Spirit. This "power of the air" (Hebrew ruach = moving air, wind or spirit) is analogous to the Holy Spirit, but it is a power that can be accessed to do either good or evil interchangeably. It is the spirit of rebellion and ephemeral existence. It probably represents a level of the energy continuum's Daleth side that is near what we perceive as the infinity border from the scientific or natural side of reality.

There are a number of other discoveries we can make with this construct of the universe. If it was possible to remove the Holy Spirit from the resurrected Saints, then they would cease to exist similar to how the elements of the Daleth dimension would no longer exist if the internal energy left the atoms of the natural elements making up the seven rainbow colors. They would implode in a chain reaction that would collapse the whole universe so that nothing would exist. It would be like taking the iron - only one element - out of a skyscraper: the building would implode just as the Twin Towers pancaked for all to see on TV during the 9/11 disaster in New York.

Like in the natural world where each element has imbedded so many electrons, positrons, neutrons and hundreds other particles, so the resurrected Saints will emit a personalized radiance of the one perfect Holy Spirit. Each person will be uniquely different throughout eternity just like the natural elements differ from each other in their pure state or blended together in various compounds possessing different percentages of components.

## **Apocalypse Prophesied**

From Eden to the New Jerusalem

groups of people comprise all the redeemed and resurrected citizens destined for the Jod dimension, which are known by God to be His. They are mostly invisible to us.

The 5 rainbow colors of the Heh/Jod dimension are added to the 7 colors of the Daleth dimension's electromagnetic spectrum to form one continuous band of energy inclusive of the physical and metaphysical universe that could be represented by a 12-color band rainbow. Even though we can only see the visible light part of the Daleth dimension's electromagnetic spectrum on earth, we know that there is energy at continuous frequency intervals both above and below it. They gradually increase or decrease until the endpoints marked infinity are approached. Similar to the limited range of visible light, beyond infinity is where the Heh dimension part of the full Daleth-Heh energy spectrum is to be found even though science cannot "see" it with all of our modern technology. In fact, I believe that the "rainbow" that John described over God's throne in Revelation has 12 color bands.

To repeat it again, the Daleth dimension has seven (7) rainbow colors within the light spectrum of the natural world, which is one rail of the HANS system, and the heavenly realm has five (5) colors, which parallel the five names of the saints and are second rail of the railroad track system. As spiritual stones, the Saints represent the heavenly elements whose imbedded signatures are found in the 5 Heh dimension rainbow colors above God's throne. (1Peter 2:4-8) They are analogous to the elements of the Daleth dimension that have patterns of spectral lines for their signatures. Thus, each one of the millions of Saints has a unique signature, which reflects their special immune system against evil for overcoming the sins, trials, temptations or obstacles in the Daleth dimension as well as their rewards for the works and fruit that the Holy Spirit had accomplished through them.

The GodSpirit is the multidimensional divine force that holds the physical world together. (Colossians 1:17) All of the matter and energy in the universe ultimately is an extension of this continuous band of God's power and presence. All that science can examine and all that the Bible ascribes to Heaven from before time to after time is created out of Spirit because it was out of the seeming nothingness of God's omnipotence that everything has been created. (Hebrews 11:3)

## **Apocalypse Prophesied**

From Eden to the New Jerusalem

As I see our society being relentless herded into the Apocalypse, I am forced, as a dual-rail scientist, to embrace the faith of a Savior called the Messiah, Jesus Christ as the only solution sent to a world out of control. He is the micro-egg of the universe in my Russian Egg analogy. He is the only answer to my questions. Investigating Him is the only way I know that stands any chance of penetrating the mysteries of the universe that address every scientific, philosophical or theological problem we encounter in our modern world.

Since science cannot explain the Heh dimension, we must go to a witness that came from the Heh dimension. Let's find out and see if the Bible provided a trustworthy eyewitness to believe, and with that I will end my book with this last question that I must ask the only witness to come from the other side:

**Who is Jesus Christ? Is He human?  
Is He divine? How? Why?**

### **The Wise will Understand**

To answer my questions about Jesus, we must first provide context of the methodology. The prophet Daniel wrote the book of his visions from God 500 years before Christ. The question came up, "How long to the end of these wonders?" He was told to go his way because the answer would be "sealed up" until the "end time." (Daniel 12:8-10) In the last days there would be wise ones who would have insight into the timing and events leading up to the Great Tribulation and restoration of Israel under her promised Messiah-King.

Yes, the angel of God (perhaps Gabriel?) told Daniel that at the end time there would be people who would figure it out. Reading Daniel's prophecies I came to realize that the last days have already arrived. As the actual events unfold, all that I have written in my books – as well as all of the old theories, prophecies and their various religious interpretations will come under the test of fulfillment. They will endure the scrutiny of all in regards to their truth or error.

Through HANS (the Hebrew Alphabet Number System), I have presented a number of calendar dates as well as some alternative understandings of specific Bible verses. A number of

## Apocalypse Prophesied

From Eden to the New Jerusalem

the insights I have gained from HANS explain some of the prophetic story a little differently. If you have not purchased my second book yet, you may read the Mystery of Tammuz 17 on the Internet at [www.apocalypse2008-2015.com](http://www.apocalypse2008-2015.com). If you do, I think what you find there will motivate you to buy that book, too.

When I discovered HANS, it revolutionized everything that I had ever been taught in Christian Sunday school. Finding this unique new discovery late in my retirement years did not surprise me. When you have invented as many gadgets as I have, your mind never stops. An obscure Hebrew Alphabet Number System found in a 50-year old book filled me with the youthful excitement of new discovery. However, when I shared this discovery with others, many became upset and did not want to hear any more about it. So I started to write in response to an inaudible inner voice that compelled me to comply. At first I resisted this undertaking, but as you can see, I gave in and did it spending over three years of my life in the process.

HANS looks at God's plan for Humanity from a full Bible perspective in which one rail represents the Hebrew Scriptures and the Jewish culture founded on them such as the annual festivals and fast days. The second rail so necessary for the dual-rail track of God's prophetic railroad through history and prophecy is the Greek New Testament and related Christian beliefs. These two traditions look at certain scriptural truth a little differently. My rediscovery of HANS made me aware of both rails and helped me to resolve any seeming conflicts in their specific perspectives. HANS makes it easier to see what they have in common.

Each religion emphasizes who God is and proscribes how to worship Him. For example, the Jewish traditions focus on the oneness or unity of God, beside whom there is no other. Christian religious leaders developed a Trinitarian perspective of God's nature over a period of 400 years following the life of Jesus. God the Father was equated with the Old Testament LORD (Yahweh). Jesus was God the Son, and Holy Spirit referred to God's continuing presence with the individual and/or body of believers, which expressed the concept of God as three in one.

Since both religions are obviously at odds over their definition of God and since they have a history filled with considerable

## Apocalypse Prophesied

From Eden to the New Jerusalem

either, although a "great number" of priests became "obedient to the faith." (Acts 6:7) To this day rabbinic Judaism still refuses to accept their Bibles' predictions that plainly spell out the need for a suitably perfect and eternal sacrifice to redeem Israel and fulfill all of the promises without compromising God's holiness.

## The Invisible Purpose of the GodSpirit Explained Science Reveals that God is One

In applying the mirror analogy we can learn a great deal about the Heh dimension from science that we cannot learn any other way. Based on the principle that they are very similar, we can postulate how the Heh dimension works by comparing it with Daleth and then overlay those conclusions with HANS and the Bible. With two rails we can begin to have a more balanced perspective of the nature of God.

The key is to better understand the functions of the Holy Spirit, who is the third expression of the Christian trinity concept. Daleth dimension science has proven that energy lies at the core of the universe's structure. All matter can be converted into energy, and energy is the "glue" that holds atoms together. It is imbedded within every element at the subatomic level. The energy of the Daleth universe is expressed in 7 rainbow colors of visible light. The rainbow represents every element defined within one infinite electromagnetic force continuum symbolized in mathematics by Alpha/Aleph. In the HANS overlay we call it the GodSpirit force. The Bible and most Christians refer to it as the Holy Spirit because it is the divine presence and essence emanating from God and is God.

God is Spirit, and those who worship Him must worship in Spirit and truth. (John 4:24 NASB, capitalization is mine)

On the other (*Heh* or *Jod*) side or rail, we find the same structural energy embedded in all of the elements of the metaphysical universe (like the New Jerusalem's streets, etc.) including the redeemed Saints. Here the rainbow has 5 colors according to the Rosetta Stone 7:5 ratio. This conclusion is substantiated by the Bible's 5 names for the different groups of Saints described in the Family of God section of Chapter 5. These

## Apocalypse Prophesied

From Eden to the New Jerusalem

me must follow me; and where I am, my servant also will be. My Father will honor the one who serves me.

"Now my heart is troubled, and what shall I say? 'Father, save me from this hour'? No, it was for this very reason I came to this hour. Father, glorify your name!"

Then a voice came from heaven, "I have glorified it, and will glorify it again." The crowd that was there and heard it said it had thundered; others said an angel had spoken to him.

Jesus said, "This voice was for your benefit, not mine. Now is the time for judgment on this world; now the prince of this world will be driven out. But I, when I am lifted up from the earth, will draw all men to myself." He said this to show the kind of death he was going to die.

The crowd spoke up, "We have heard from the Law that the Christ will remain forever, so how can you say, 'The Son of Man must be lifted up'? Who is this 'Son of Man'?"

Then Jesus told them, "You are going to have the light just a little while longer. Walk while you have the light, before darkness overtakes you. The man who walks in the dark does not know where he is going. Put your trust in the light while you have it, so that you may become sons of light." When he had finished speaking, Jesus left and hid himself from them. (John 12:20-36, NIV)

After Jesus' resurrection two disciples were walking home to Emmaus, and Jesus attaches Himself to them so that they walk together for some distance. (Luke 24:13-35) Along the way Jesus explained the necessity for the Messiah to suffer death in order to enter into glory. God was born in the flesh as a man to make atonement for human sin so that all who believe may be saved. I think that this story makes it plain that even the disciples did not quite get it. Obviously, then, the masses were not tuned in to what was being fulfilled before their very eyes and in their hearing. The lawyers of the Torah did not get it

Page 50 of 60

## Apocalypse Prophesied

From Eden to the New Jerusalem

antagonism, HANS could be the tool to open the doors of common understanding and worship of what is normally considered to be the same God, revealed in the shared Bible of Israel written almost exclusively by Israelites. While only a few may have noticed, I believe the time has already arrived when we will need each other in order to survive the coming times of trial and destruction.

God is giving us one last chance to repent from any superstitious antagonism or hateful racial or ethnic bias. We need to focus on what lies ahead of us. My hope is that religious persecution would stop for one another as we come to recognize that we are called to be spiritual brothers. If we cannot do this now, the Apocalypse coming in 2008-2015 will force us to do so because God announced that He will purify His creation in preparation for the birth of His Kingdom in the new age to come usually referred to as the millennium. Our preparation is to do our best, with God's help, to live in accordance with His ways today.

HANS is very simple matrix. That is its beauty. Any deviation to the pattern alerts us to ask why. When I did this with the book of Revelation written by John, I got a much clearer picture of what was going on. Originally, I thought that perhaps the pages were mixed up as the story seemed very confusing to me, and I knew that I was not alone in that because there are a variety of interpretations taught by the various church denominations. Then it occurred to me that what John saw was like standing in the middle of a 360 degree cinema-in-the-round.

It would take expert writing skill to describe what he saw. Imagine yourself watching all the fire, thunders, armies and angels coming and going intermixed with strange creatures with multiple heads and a variety of horns. All in all, he did a very good job. You can read a more extended description of my perspectives on what John saw and wrote about in the Introduction to "The Mystery of Tammuz 17."

A word of caution! Do not elevate HANS to a religious doctrine, or look to it to give some mystical secrets of hidden knowledge like might be found in the Cabala. It is just a little ABC tool for the Hebrew language that gives us a little richer understanding of what is plainly written and understood in its various literary and cultural contexts and nothing more.

Page 11 of 60

## Apocalypse Prophesied

From Eden to the New Jerusalem

As someone who made his living in the professional world as a scientist and inventor of various instruments used in applied science, I found myself in the middle of scientific and religious debates where, much to my sorrow and dismay, the scientific facts in the Bible were distorted or denied outright. On the other hand, unscientific theories like evolution have been elevated to a religious belief system exclusively taught in our schools. HANS is a tool to discipline our thinking logically rather than a means of avoiding confrontation.

Christians should not be afraid to use science to check out biblical truth. For me, discovering HANS exposed me to biblical perspectives I never would have encountered otherwise. This is why I am so adamant about using both rails of the biblical railroad track of understanding God's plan and purpose through time. This means using both the Old and New Testaments to explore biblical teachings, or the two rails of science and the Bible to understand the bigger questions concerning God and the universe.

My meditations on the nature of God from the perspective of HANS and science, hopefully, will not be construed as an attack on any established belief system. Science and religion should be thought of as a dual rail railroad track, too. Trying to understand God using only one side of the track makes one a monorail theologian or a monorail scientist, depending on which rail you are sitting on. I believe that the Creator God has imbedded His plan for humanity and this planet into both sides of the track. He has designed a balanced system of revelation from the other side (Heh) for us to grow in the knowledge and grace of spiritual truth. So if you find something you do not agree with in my writings, first remember my railroad analogy and look for how the system can balance out.

## The Bible's Rosetta Stone

My discovery of a Rosetta Stone in the Bible at this time in our civilization is not an accident. I believe that it is part of the fulfillment of the Word of God delivered so long ago to Daniel. I do not have exclusive rights to the idea that God's judgment is near. In fact, I have even learned about a few others who have arrived at the same or similar dates once I had put my first draft

Page 12 of 60

## Apocalypse Prophesied

From Eden to the New Jerusalem

brilliant light – but they hear a voice speak, or is there another person? Could it be the same person speaking?

Like in Deuteronomy 4:35, it says: Out of Heaven (Heh dimension) He let you hear His voice." In our three examples only a voice is heard like in ancient days of Israel. The one God was always represented with one voice only. The Bible text seems clear to most Christians in our modern Western mindset that there are not two persons here, but if you think as Jews did 2,000 years ago, then maybe you can come up with another interpretation of this event.

To you it was shown so that you would acknowledge that the Lord is God; there is no other besides him. (Deuteronomy 4:35)

So acknowledge today and take to heart that the LORD is God in heaven above and on the earth beneath; there is no other. (Deuteronomy 4:39)

One more happened shortly after Jesus was acclaimed the Messiah by the people waving the branches of palms in Jerusalem. Jesus had predicted His death and resurrection to glory. He called out, "Father, glorify Thy name," and a voice from Heaven answered. Those further away said it was a thunder. Wondering about it Jesus said plainly that it was for their benefit and not His. He had come from the Heh dimension - from Heaven, and they had not. Part of His divine purpose was about to be fulfilled – His qualification to replace the current ruler of this age, Satan the Devil:

Now there were some Greeks among those who went up to worship at the Feast. They came to Philip, who was from Bethsaida in Galilee, with a request. "Sir," they said, "we would like to see Jesus." Philip went to tell Andrew; Andrew and Philip in turn told Jesus.

Jesus replied, "The hour has come for the Son of Man to be glorified. I tell you the truth, unless a kernel of wheat falls to the ground and dies, it remains only a single seed. But if it dies, it produces many seeds. The man who loves his life will lose it, while the man who hates his life in this world will keep it for eternal life. Whoever serves

Page 49 of 60

## Apocalypse Prophesied

From Eden to the New Jerusalem

that God would choose to come to them as a fleshly human subject to death.

Even the disciples did not get it. After hearing hundreds of sermons Philip asked Jesus, "Show us the Father, and it is enough for us." Jesus answered, "Have I been with you so long, and you do not yet know me? If you have seen me, you have seen the Father!" (John 14:8-9 paraphrased)

When Jesus asked Peter, "Who do you think I am?" Peter said correctly, "You are the Messiah, the Son of the living God!" (Matthew 16:16) His understanding inspired Jesus to give him keys of the Kingdom of Heaven, which meant access to the divine power of the Heh dimension.

The Bible offers three events as witnesses in order to give us extra confirmation of Jesus being the Son of God. The first came when He rose out of the waters of His baptism by John, the heavens were opened, and a voice said, "This is my beloved Son." In other words, this human being in front of you is divine from the other Heh dimension. Remember Jesus is introducing an important, new concept to mostly uneducated people and must therefore go easy leading into deeper truth and use analogies the common people understand.

Remember, analogies only explain some aspects of complex issues. Jesus used many parables from farming like the wheat and tares, sheep and goats, lost sheep, owners, field managers and day laborers, various rich men and some poor. His family-oriented parables included ones about virgins and oil lamps, elderly widows, a father and his sons.

The second witness is recorded by three different gospels and took place on a high mountain with a select audience. This event is referred to as the transfiguration because Jesus radiates brilliantly like the sun. Five (5) men (10 ears and 10 eyes) heard Jesus referred to as, "My Son." Granted that two of them, Moses and Elijah, were witnesses from previous ages who seemed to be alive and talking to Jesus. The other three were the disciples Peter, James and John.

A voice is heard to say, "My Son." But where is God? Is something recognized or is it implied here that there are two persons? The witnesses see only one person - Jesus shining in

## Apocalypse Prophesied

From Eden to the New Jerusalem

of the books on the Internet. My work is original in that presents a whole system of theological thinking in a scientific context, but I have not leaned on any other person's attempts to calculate the dates of the Apocalypse or any theological treatise on the nature of God and the universe. I have had the help of a dual-rail professor with some background in theology and archaeology, Christopher Patton who has become my co-writer and editor.

HANS pointed me to Daniel's prophecy, which then led to a discovery that sums up what the Bible has to say about God's 7,000-Year Plan for Humanity. It tells us why God created us and placed us in an unfair world often plagued by terrible evils. That topic by itself could fill a thousand books as yet not printed, because most cultures still have a great deal to learn about Bible.

I found the 7-year plan for the Apocalypse imbedded within the 7,000-year plan. The key link between the two is Noah's Flood – just where Jesus directed us to look. (Matthew 24:37) The only reliable information about Noah's Flood is found in the Bible. Modern journalistic science mostly covers up the geological evidence for the Flood because they do not want you to know about it. In reading my two books, you have quickly learned that I understand the Bible from a perspective that is neither an established theological nor a secularly scientific viewpoint. I come at it from the practical and technical side of applied science, which is where I have my experience as an inventor and entrepreneurial business owner.

Providentially, the Bible has the answers, and I can give you many logical analogies from the natural world that you can easily follow. These analogies provide insights into the nature of God and the metaphysical universe from what we can observe and measure in our physical universe of matter, energy and time.

Just remember than any analogy has its limitations, and one analogy normally conflicts a bit with another as they never complement each other perfectly. Our brains are limited to the Daleth dimension by their sensual input, but we are trying to learn about the metaphysical Heh dimension of "the other side." Because human beings are born with a spiritual component that creates in us a sense that there is something more to look for beyond the fog of our material consciousness. Every now and

## Apocalypse Prophesied

From Eden to the New Jerusalem

then we can get a brilliant flash of the true reality beyond, but we must mostly be content with an indirect knowledge of the Heh dimension until we are born into it by the resurrection.

It is up to you to determine how it is best to apply my analogies to your existing belief system. My primary objective is for you to accept the idea that we can discover many truths about God in the realm of science. To learn anything, one must first lay aside (at least temporarily) any existing biases, including his or her religious bias or upbringing. It does not cost you much to do so, just a little time. But the benefits of doing so could be far reaching – from an eternal life in glory to better planning your retirement investments. Personally, I have nothing to gain one way or another as that is your own business to decide. If you choose to ignore what I have written, that is OK with me. I have gone out on a limb and given you some specific dates to watch out for. Whether I am right or wrong about them, you will still need to deal with God one day.

## How Monorail Theology Got Started

In AD 325 the Christian leaders were brought together at Nicaea in Asia Minor (modern Turkey) by the Roman Emperor Constantine to define the Christian faith. He wanted a single religious organization to unite his empire of diverse peoples, and the various bishops were divided in their understanding of a few primary doctrines including the nature of the relationship between the Father and the Son. In the process the shift to a monorail Christianity became the official religious perspective of the emperor-approved Orthodox Church, present in the west as the Roman Catholic Church.

Most of the “Jewishness” of the early church was formally removed, and most of the remaining Jewish believers were expelled. The Council of Nicaea marked a major turning point in the relationship between the Jewish and Christian communities. About two hundred years prior to that Council of Nicaea, most of the Jewish residents of Judea were forcefully evicted from their homeland as a result of their revolt against Rome in the late AD 60s.

## Apocalypse Prophesied

From Eden to the New Jerusalem

sinner. Your mother is a whore, and you were born out of wedlock. It is only by the goodness of your adopted father that your mother’s reputation was saved, as well as your own. You are no one worthy enough to teach to us about our God.” There are many incidences like these mentioned in the Gospels. You should read the Bible to find out what really happened.

Jesus faced significant obstacles to His teaching. He had to fight a number of misconceptions and pure ignorance about the Bible. For example, what was He communicating when He used the term, “Son of Man”? Slowly, Jesus develops the concept that the Eternal Creator God residing in the Third Heaven of the Heh dimension has now become visible to humanity as a man. This by itself is an impossible proposition even more incompatible with today’s Jewish religion.

HANS helps us to readily recognize that the expression “Son of Man” belongs to the Daleth dimension side of the Jesus coin and the expression “Son of God” refers to the Heh Dimension side. It is the same person only our viewpoint is redirected:

<u>One God</u>	
Jesus	Jesus
Son of	Son of
Man	God
<i>Daleth</i>	<i>Heh</i>

At his trial Jesus plainly referred to Himself as “I AM,” meaning the Creator God who appeared to Moses and gave Israel the Ten Commandments. This statement enraged the High Priest and his followers so that the trial itself ignored many procedural aspects and ended up behaving like a lynch mob.

Jesus also presented His relationship with God as being a father-son dynamic where Jesus on earth was the divine Son of the invisible Father in Heaven. It was His chosen way to communicate the unfamiliar, out-of-this-world relationship between the Daleth and Heh dimensions to the simple folks that made up the bulk of His audiences. At that time nobody could even dream that this analogy of father and son would be elevated to the enforced doctrine of the trinity 300 years later. It was very difficult for the Jewish people of Jesus’ day to believe

## Apocalypse Prophesied

From Eden to the New Jerusalem

Both faiths believe when God says an original something, it is the truth and cannot be altered because God cannot be a liar and does not change his mind later. However, Christians who are not educated on the other rail of the railroad track cannot argue their theories any better than the Pharisees in Jesus' time because you cannot disprove it from a monorail perspective. Remember the doctrine of the trinity came about 400 years after Jesus lived, when the two monorail religions were firmly entrenched. By that time many Jewish people had already been severely persecuted, even tortured and killed, by Christians. These two monorail systems will be dismantled during and with the trials and truths revealed by the Apocalypse 2008-2015.

Now let's shed some light how this new revelation (that God is three persons in one) got started. If you feel a little lost, you are not alone as most people do not understand this subject very well. When the incarnate invisible God prepared a body to show up in the Daleth dimension of our material world in time, He appeared as "His name shall be called Jesus." Then comes the announcement in the Bible of about the purpose for His birth, "for it is He who will save His people from their sins."

She will bear a son, and you are to name him  
Jesus, for he will save his people from their sins.  
(Matthew 1:21)

Jesus had an amazingly normal childhood. When He grows up, people do not accept that He was so different as to be a sinless person or God in the flesh.

They were saying, "Is not this Jesus, the son of Joseph, whose father and mother we know? How can he now say, 'I have come down from heaven?'"

Jesus answered them, "Do not complain among yourselves. No one can come to me unless drawn by the Father who sent me; and I will raise that person up on the last day. (John 6:42-44)

Jesus plainly said, "I have no sin in me; tell me if you find one." This statement is a paradox from the human perspective and consequently yielded an outrage for stoning, which Jesus avoided by walking away. Then he said in the synagogue that He was the Messiah. Again, they picked up stones, and said, "You are born

Page 46 of 60

## Apocalypse Prophesied

From Eden to the New Jerusalem

The Jewish Zealot rebellions against Rome divided their community. Even in the Gospels one can read about the different religious and political parties like the Pharisees, Sadducees and Herodians. As a result of Jesus' ministry, the coming of the Holy Spirit and the teaching of the apostles, about one third of the Jewish population of 4-6 million believed that Jesus was the promised Messiah son of David. Following the Roman victories in the 70s, the Jewish believers in Jesus were gradually and forcefully evicted from the rabbinic synagogue. Thus, the rabbis became monorail religionists to protect their place of leadership in the community.

The exclusion of the Jewish followers of Jesus from the Jewish community became total during the rebellion of the false messiah Simon Bar-Kochba in the AD 130s. One of the primary founders of modern rabbinic Judaism, Rabbi Akiba, had proclaimed Simon the Messiah of Israel. Those who did not follow his religious leadership were rejected from being Jewish due to their perceived lack of patriotism. The Romans under Emperor Hadrian crushed their revolt, sowed Jerusalem with salt and dedicated a temple to Jupiter Olympus on the site of the Israelite Temple. No Jews were permitted to live in Judea, and the long "Diaspora" or exile of the Jewish people as a nation from their promised land began.

Non-Jewish Christians did not want to be associated with the rebellious Jews, so they generally rejected the outwardly Jewish roots of their faith to avoid being persecuted as anti-Roman troublemakers. So from AD 325 on, it is clear that both the Jewish and Christian religions practiced monorail theology. Unfortunately, the two parties started to fear and hate each other, too. The Jews taught that there is only one God, and the Christians defined God as a unified three: the Father, Son, and Holy Spirit. If you did not believe what your group taught, then you suffered. Some were even burned as heretics. I hope that my attempts to explore the nature of God using HANS and analogies from the natural world will help to bridge this gap.

God reveals Himself to sincere persons who want to learn about the Creator of the universe who authored the Bible. Honest questions must be asked: What does God want from me? What is the other side when we die? How could a loving God send the terrible trials of the Apocalypse upon all nations? Is He a

Page 15 of 60

## Apocalypse Prophesied

From Eden to the New Jerusalem

forgiving Person or Spirit? Will He condemn me to hell? Is He Jewish or Christian? What about the Moslems' God? Is He the same God? Many similar questions are also asked, and my books might inspire a few new ones.

### Analogies from Science and Infinity

One reason why I use simple analogies from science is to make it easier to set aside our existing biases. The observations of the natural world are equally understandable by all, in any culture. For instance, butterflies are found in almost every country. We have all observed that this critter starts out life as a worm-like caterpillar, which moves its camouflaged fatness slowly along a branch. It is designed to feed even as it blends into the foliage to escape the notice of hungry birds. If he is successful in this stage, the caterpillar lives only to die in a cocoon or chrysalis, but that is not the end for him.

What was once a worm is reborn a beautifully winged marvel – something totally different. He soars into the blue sky and dances on flowers. A person just looking at this final stage of life lived with beautiful wings would not detect any evidence of the caterpillar he was before. As a matter of fact, nature provides many examples of the two birthday principle. Even seeds must die in order to germinate and be born again as some plant or another. (John 12:24) The sprouting vegetable, shrub or tree is the manifestation of its second birthday.

Very truly, I tell you, unless a grain of wheat falls into the earth and dies, it remains just a single grain; but if it dies, it bears much fruit. (John 12:24)

This butterfly analogy overlaid with HANS perfectly illustrates what the Bible teaches us about the two birthdays granted to people. God has given us one birthday in the Daleth dimension and a second one in the Heh dimension. In review now, the ABCs of the ancient Hebrew alphabet the letter Daleth is "D," and it also stands for the number 4 with a meaning of "this world and in this time." Also, Daleth literally means "door." It is followed by the letter Heh, which is "H" and the number 5. It conveys the concept of "the other side" or "window."

## Apocalypse Prophesied

From Eden to the New Jerusalem

be a conquering king who would re-establish David's throne of political rule over the land promised to Abraham. Everybody expected it. Judea was occupied by the Romans and the Bible's promised national deliverance was a very popular message preached in the synagogue.

That there was also prophecy of a suffering Messiah was not often mentioned, although some looked for Him under the name of Messiah ben Joseph. But by and large, the greater population and even the educated lawyers of the Jewish Religion did not know about the many prophecies concerning the suffering and death of the messiah.

Jesus often said to them, "Have you not read..." You see, the foundation bed of the Jewish monorail track was already being laid in Jesus day. That's why the leadership, as a whole, collectively rejected Jesus on behalf of the whole Jewish commonwealth and condemned Him to death. Of course, we know that many tens of thousands and probably millions of Jewish people did come to believe in His claims of a saving messianic mission shortly after the resurrection. These believers looked for Jesus to return soon and restore God's Kingdom to Israel. (Acts 1:6)

### God versus Jesus?

That the original truth of God being "one," but now seemingly split into two, was impossible for any Jew to believe without the help of God to open their minds through His Spirit.

To you it was shown so that you would acknowledge that the LORD is God; there is no other besides him. From heaven he made you hear his voice to discipline you. On earth he showed you his great fire, while you heard his words coming out of the fire. (Deuteronomy 4:35-36)

This has not changed even after the passage of almost 2,000 years. Since the Christians in power developed the idea that God is split into three has only made it more difficult for Jewish people or Muslims to accept Jesus as their personal Savior.

## Apocalypse Prophesied

From Eden to the New Jerusalem

Some of my Christian friends asked, "What about when Jesus said, 'my Father' implying that He is the Son? Even God said, 'Listen to my Son.'" At other times Jesus referred to Himself using the recognized messianic title, "Son of Man." These references seem to indicate even to me that Jesus, as the Son of God, was differentiating between two persons. In answer to that question, let's think in Hebrew terms because Jesus addressed himself to ordinary people, most of whom were uneducated.

In Jesus day the Jewish commonwealth had a number of competing religious and political parties. Two of them dominated their official government, the Sanhedrin, which operated openly under Roman supervision. The priestly party of the Sadducees did not believe in an afterlife and were often secularly inclined Hellenists. In many ways they are not much different from many modern politicians and scientists who believe in evolution and social reform through the government controlled educational system.

The other major party in power was the Pharisees, who believed in judgment of God and the resurrection as well as tried to order their lives according to the Torah and oral laws (traditions) of the fathers going back to Moses. Both of these groups argued with Jesus and disputed His statements that He came from the other side (Heh), called God His Father, exercised the right to forgive sin, healed all manner of sickness, cast out demons and otherwise spoke with inherent authority rather than quoting other rabbis.

The big conflicts between them came about for a number of reasons: first, because those in power never want to willingly surrender it; second, because they rejected Jesus' claims due to their ignorance and/or submission to Scripture and prophecy. Several interpretations of the messianic prophecies circulated in those days, the Jewish religious establishment (with a few noted exceptions) chose to ignore the ones that supported Jesus' claims.

Prophecy from what we today call the Old Testament was not well understood. Today, we can look back through a Jewish prophetic telescope to see two mountains, just like the railroad track has two rails. The first mountain is addressed to Jews. They have prophecy about a Messiah to come in the future who would

## Apocalypse Prophesied

From Eden to the New Jerusalem

In these two Hebrew letters Daleth-Heh HANS communicates that there are two different dimensions to reality. The first one, Daleth, is the physical world we perceive and explore with our five senses. Every thing in this dimension is something that we can touch, see, hear, smell and taste. Many people accept or feel another or sixth sense within them. This is the spiritual side of being a human. Only you know about it because it is invisible to me or anyone else. You must describe it to others using the five physical senses, which is often difficult to do.

As I wrote about with some depth in earlier chapters, the Hebrew worldview operates on the premise that the "other side" is the real world of eternal existence as expressed with the letter Heh or with in the presence of some aspect of the number 5. To repeat it one more time, the "other side" is the spiritual world, which can be expanded to include Heaven, angels and ultimately God. It is the reality or universe that we cannot examine with the tools of our natural sense and thus, science. Somehow our capacity to even think or philosophize about it eventually encounters a boundary beyond which it cannot go in this life.

The ancient Greek philosophers thought about these questions, too. A few of them even came up with the theory that the universe was composed of small building blocks that could not be further reduced in size called atoms. Scientists worked with this concept for hundreds of years. Being taught old-fashioned physics in school, my teachers defined atoms as particles. If you divide a particle in half, you get two smaller ones. If you kept going, you ended up with the smallest little bits of something called electrons, neutrons, positrons, neutrinos and a whole lot of others.

Then along came Dr. Albert Einstein who looked at science from anew perspective and gave it another explanation. Instead of particles, the universe was made up of energy bundled together in the frequencies evidenced by the spectral lines. So, good-bye to particles, and say hello to something like electric energy only bigger. It is the other side of that coin I mentioned a little earlier.

Toward the end of the twentieth century, scientists built atom-smashers, big billion dollar machines as large as a football field and larger. One I am familiar with is like a two-mile long canon

## Apocalypse Prophesied

From Eden to the New Jerusalem

set in Stanford University. I helped to build klystrons for this machine, which is part of the atom gun mechanism used to break up the targeted particles to see what might be discovered about them.

This technology was also used to complete the periodic table of all the elements found on earth or in the universe. The frequency signatures of all the elements of the universe are found imbedded within the visible spectrum of the seven-color rainbow, too. If you have a good prism, you will see these spectral lines. Each set of lines represents an element like copper, iron or carbon, etc.

Turn your light switch on, and you get light if you are connected to a source. Common sense tells us not to stick our finger or a piece of metal into the electric socket because it could kill you if the voltage is high enough. The power is pushed through the cord to the light fixture by an invisible force we call a current. This simple, everyday convenience that we rarely think about can tell us a lot about the universe. The universe could be thought off as a continuous band of different energies all plugged into a common source.

Well enough, but the problem I have is, "How do I see both sides of the coin simultaneously?" Dr. Einstein got me, as a scientist, on the trail to find an explanation of who God is. I have difficulties understanding three in one as Christians define it, so the writings and experiments of Albert Einstein, a genius of science, really helped me. He tried to put a two-sided coin on the table where you could see both sides of the coin at the same time. I came up with the idea to use HANS to explain how both sides of the coin can be seen simultaneously. If you overlaid HANS like a mirror flat on the table and held the coin on top of it, you can now see both the bottom and top of the coin at the same time. Now, this may look a bit like a magic trick, but it is much more than that when you remember that the Bible calls itself a mirror and that HANS works like a scientific mirror for the Bible. (James 1:22-25)

## Apocalypse Prophesied

From Eden to the New Jerusalem

The mortal reality we perceive in our flesh today is merely the transitory modeling clay that the invisible God appeared in. As Dr. Einstein's theories demonstrated, every atomic particle of Jesus' flesh, as well as our own, has invisible energy imbedded that has come from God. The whole universe, with both the Heh and Daleth dimensions, is interwoven in its existence in a way that cannot be separated. In the Teth (9) Age the Daleth and Heh dimensions are both visible on earth ( $4+5=9$ ). In the Jod (10) Age God lifts up and transforms the Heh (5) dimension to an exponentially higher energy level and builds a new house (Beth=2) for it called the New Heaven and New Earth ( $2 \times 5 = 10$ ).

While on earth, Jesus performed miracles using the same supernatural principles available to other mortals. He sent 70 disciples out to heal people, to cast out demons and to announce "the kingdom of God." Jesus said, "Greater signs will be performed by those who follow Him." Through prayer, we can receive power from the Heh dimension. This extra supernatural energy must flow into our material world from the higher energy Heh dimension. Nothing can flow from the Daleth dimension to the Heh. This is the lesson from science in regards to energy flows and nuclear reactions.

Likewise sickness could be described as missing biological energy dissipated by a decay of natural balance in the Daleth dimension. Divine healing can occur when extra energy flows into the sick person from the Heh dimension. The agency is prayer, like a copper wire conductor in electricity, and Jesus used it to even raise the dead Lazarus. Thus, divine restoration of health involves an addition of divine energy to supply what is missing on the Daleth dimension level, which could have also been supplied by good, healthful medical treatment ranging from a better diet to antibiotics.

I visualize prayer as a petition that is transferred by angels operating in an energy band slightly above X-rays and outside the rainbow frequencies of our material world. I believe that the divine energy of healing is delivered by the angels who live on a higher level on the electromagnetic spectrum than any scientific instrument can detect. You can read my second book for further clarification.

## Apocalypse Prophesied

From Eden to the New Jerusalem

presence as energy and matter cannot be dismissed in the sustenance of even the smallest particle of the universe.

God...in these last days has spoken to us in His Son, whom He appointed heir of all things, through whom also He made the world. And He [the Son] is the radiance of His [the Father's] glory and the exact representation of His nature, and upholds all things by thy word of His power.

When He had made purification of sins, He sat down at the right hand of the Majesty on high; having become much better than the angels, as He has inherited a more excellent name than they. For to which of the angels did He ever say, 'Thou art My Son, today I have begotten Thee'? And again, 'I will be a Father to Him, and He shall be a Son to Me.'? ...let all the angels of God worship Him. (Hebrews 1:1-6, NASB)[my clarification added]

For purpose of redemption the invisible God made Himself visible first in a Daleth body. He also entered the two-birthday program being born like humans with all their emotions, aspirations, sorrows, joys and sufferings – even unto death.

In fleshly manifestation Jesus remained fully God until He took on a brief but extremely intense and lonely separation from the Father that our sins demand and died fully human. (Psalms 22:1; Matthew 27:46) After three days He rose by the power from on high (Heh). The firstborn from the dead, He was resurrected to the next butterfly stage, as is promised to all those who trust in Him. Ever since, Jesus is and has been the visible God in Heaven who is now openly revealed to angels and humans alike:

But now Christ has been raised from the dead, the first fruits of those who are asleep. For since by a man came death, by a man also came the resurrection of the dead. For as in Adam all die, so also in Christ all shall be made alive, but each in his own order: Christ the first fruits, after that those who are Christ's at His coming. (1Corinthians 15:20-23)

## Apocalypse Prophesied

From Eden to the New Jerusalem

There are now beautiful charts of the electromagnetic spectrum<sup>1</sup> available, which will graphically show what I am discussing here better than I can express it with words alone. In these charts you will notice a little place in the middle, which is the visible portion that we can see with our eyes. On either side of that narrow window we need special instruments to observe or measure the invisible light energy vibrating at frequencies higher or lower than we can see. The full range of electromagnetic energy includes familiar power sources such as infrared, X-ray, ultraviolet, microwaves, radio waves, radar waves, TV waves and many more. I have no idea what they all do, or all the ways in which they could be useful in technology. At the end of the frequency spectrum, at the very top of the chart, we come to the last labeled point – infinity, which is indicated by an eight lying on its side horizontally.

That "lazy eight" represents the border or end of the material universe of time, matter and energy as we know it. The number eight in HANS is the letter Cheth, which conveys something closed or fenced in. As such, it is a very good concept of our material universe: enclosed by eternity. Whatever direction one could travel in the universe, or search with probing instruments, eventually we come up to a boundary of infinity. What is it?

HANS tells us the answer: Daleth (4) is followed by Heh (5), so our material dimension is bounded by the "other side." At its source, Heh stands for God in Heaven. Traditionally, Heaven is expressed as "above," so "below" the enclosing curve of infinity is found our finite universe and planet, which HANS indicates is the Daleth dimension. As Heaven is "above" earth, so the number 5 is above 4. The concept of the infinite in HANS is expressed with the number 5. This simple concept unravels a few mysteries kept secret for thousands of years.

It is interesting to note while the "one" God concept is expressed on one rail of the railroad expressing the Heh dimension of the Jewish religion. The concepts of multiple or a triune concept of God come from the Daleth dimension rail. To the human

## Apocalypse Prophesied

From Eden to the New Jerusalem

perspective, God's appearance is related to the purpose He is performing. He creates as Father. Redeems as the Son and indwells as the Spirit. Thus, we need both rails to understand who God is. I discovered a neat little simple formula which explains many Bible concepts in form of a math symbols:

$$1+4=5$$

Understanding God according to the dual-track railroad perspective can be symbolized by adding the concept of "one God" from the Jewish tradition to the "three-in-one" concept of the Christian tradition to make four (4). Thus, a second "one God" concept is needed to complete the formula. It comes from science where we have learned that God's divine infinite energy of Alpha/Aleph  $\infty$  is imbedded into the smallest subatomic particle of each atom of every element. When we add them all together, they make 5 (Heh), which then reveals the invisible and infinite God to angels and humans alike.

Advanced mathematical science uses the Greek letter Alpha (=Hebrew letter Aleph) to represent the infinite. Some scientists go further in their analytical theories and postulate that four (4) more Alphas exist and that one is not yet defined. By overlaying these four infinite Alphas with HANS it is possible to theorize about the undefined Alpha, but HANS shows us that the 5th is impossible within the strict parameters the Daleth dimension; therefore, only faith can explain it. However, their scientific intuition tells them that there must be another one between the second and third members of the exponential series of five Alphas. Some scientists are deeply biased towards a monorail Daleth mentality. They do not understand or think that a Heh dimension might exist, so they call such theoretical thinking "junk science." Hans is hot on the trail telling us that  $5=4+1$  which we recognize as the Hebrew hand rule of adding God (1) to the material universe (4). Thus, God is expressed as Alpha/Aleph in the Heh dimension (5 times):

$$\infty^0 = \infty^1 + \infty^2? + \infty^3 + \infty^4 + \infty^5$$

Thus, the above mathematical expression of  $\infty^0$  for the infinite, which some scientists declare to be junk science, helps to define the invisible God as confirmed by using both rails and by applying the Hebrew hand rule formula  $1+4=5$  from HANS.

## Apocalypse Prophesied

From Eden to the New Jerusalem

human being. Jesus the fleshly son of Mary is one rail whereas Jesus born by His resurrection is the Invisible God now become visible in the Heh dimension, which is the other rail. (Romans 1:4) You need the perspectives of both rails to get a good grasp of the nature of Jesus and His role in God's plan of redemption.

Jesus' life in the flesh remains a great mystery that very few people understand. Just take the fact that God in the flesh (Jesus) never used the overpowering force available to Him from the Heh dimension. He had the prerogative to do so at any time since He was the eternal God, but He meekly and humbly chose to be beaten and crucified instead of asking for 12 legions of angels to defeat His earthly enemies in battle. (Matthew 26:52-54) He kept to His plan.

For He did not subject to angels the world to come, concerning which we are speaking. But one has testified somewhere, saying, 'What is man, that thou rememberest him? Or the Son of Man, that Thou are concerned about Him?

'Thou hast made Him for a little while lower than the angels; Thou hast crowned Him with glory and honor, and hast appointed Him over the works of Thy hands; Thou hast put all things in subjection under His feet.' For in subjecting all things to him [man], He left nothing that is not subject to him. But now we do not yet see all things subjected to him.

But we do see Him who has been made for a little while lower than the angels, namely Jesus, because of the suffering of death, crowned with glory and honor, that by the grace of God He might taste death for everyone. For it was fitting for Him, for whom are all things, and through whom are all things, in bringing many sons to glory, to perfect the author of their salvation through sufferings. (Hebrews 2:5-10 NASB) [my clarification]

However, His submission to mortality did not make Jesus an ordinary mortal. He was still the eternal Creator God of Israel. His divine origin cannot be dismissed just like God's omni-

## Apocalypse Prophesied

From Eden to the New Jerusalem

the Lord God the Almighty, who was and is and is to come.”

And whenever the living creatures give glory and honor and thanks to the one who is seated on the throne, who lives forever and ever, the twenty-four elders fall before the one who is seated on the throne and worship the one who lives forever and ever; they cast their crowns before the throne, singing,

“You are worthy, our Lord and God, to receive glory and honor and power, for you created all things, and by your will they existed and were created.” (Revelation 4:2-11)

The Bible mentions that 500 people witnessed and testified to Jesus’ resurrection. John reported on it in Revelation, the last book of the Bible.

Then I turned to see whose voice it was that spoke to me, and on turning I saw seven golden lampstands, and in the midst of the lampstands I saw one like the Son of Man, clothed with a long robe and with a golden sash across his chest.

His head and his hair were white as white wool, white as snow; his eyes were like a flame of fire, his feet were like burnished bronze, refined as in a furnace, and his voice was like the sound of many waters. In his right hand he held seven stars, and from his mouth came a sharp, two-edged sword, and his face was like the sun shining with full force.

When I saw him, I fell at his feet as though dead. But he placed his right hand on me, saying, “Do not be afraid; I am the first and the last. (Revelation 1:12-18)

His resurrection body is a totally a new creation. The apostle Paul refers to Jesus as the Second Adam and describes the metaphysical body in 1Corinthians 15. Again we see the two railed track principle. Jesus, the eternal God was made visible by being born in the Daleth dimension where He was shrouded as a

$$[1+4=5]$$

or

$$x^0 + [1+3] = 5 \text{ (or God)}$$

HANS defines God (Heh= 5) as:

1 from Science:  $x^0$

1 from Hebrew rail of One God

3 from Christian rail of Trinity: Father, Son and Holy Spirit

Let me explain this major discovery once more because Jewish, Christian and Muslim theologians have wrestled of this issue for thousand of years. They could not explain it, and neither could science. And it is an important issue: millions have died in war or as hated heretics because of it.

Scientists discovered a peculiar mathematical concept stone, ( $x^0$ ) and could not figure out its purpose because it could not be defined with Daleth knowledge. So it lay there indefinable. Some denigrated it as junk science and questioned whether it even exists. Other scientists defended it and others still preferred to forget about it, leaving it on the junk pile of scientific inquiry.

Meanwhile, on other rail of the railroad track analogy, the religious establishment found a beautiful mosaic picture, but there was a big hole in the middle of it. A central part of the whole design picture was missing. If they could find it, then their religion could more clearly explain the unexplainable “God”. Some denied that a hole even existed while others strongly defended it. This situation went on for thousands years. Religious leaders summarized their position by contending that people must simply have “faith.”

Faith, of course, is not science; hence a seemingly irreconcilable conflict has existed between religion and science. These two systems are in need of a connecting bridge just as the two rails

## Apocalypse Prophesied

From Eden to the New Jerusalem

of a railroad track need ties. Now HANS comes on the radar screen, and we discover that the rejected stone from the science railroad department fits the gaping hole in religious side of the railroad track. Now, for the first time, the indefinable can be logically explained. That is a major breakthrough for theologians and scientists alike. It will take them a little time to digest.

My hope is that they do so relatively quickly because 21 December 2008 makes it mandatory to do so. We are nearing the end of the track. This may be God's final revelation to humanity before the train of human civilization enters the tunnel of the Apocalypse. My books make it much easier to understand God's plan for humanity because of these discoveries. Without them we would still be heading down the road to destruction for lack of understanding, and I am including myself here.

As a scientist, I am quite happy that science is included in a religious debate. Even if it is "junk" science that proves God exists as an indefinable reality, which has some value and is therefore not Zero. Infinite ( $\aleph^0$ ) is the opposite of zero. It includes all that exists. It is the fulcrum or very center that connects the Daleth dimension with the Heh dimension:

### Daleth [4] ( $\aleph^0$ ) [Heh]

Thus, God is the bridge connecting our material existence with eternity. We need both rails with HANS to understand it. Do not forget the mirror analogy where the reflection of what we see in the Daleth dimension must have a reality on the other side, Heh. If there is nothing in Heh, then there is nothing to reflect and consequently nothing would exist in Daleth either.

The very fact that junk science, as a reflection in the mirror, has a mathematic expression for the infinite Alpha is proof of its existence and proof that it has a value. For some it is useless; for others it is very precious. You may have heard the expression "buy junk and sell antiques." It makes sense because it is a good business if you think about it. Philosophically, the "infinite" cannot be zero, which then tells us that God exists on the opposite side of the spectrum frequency-quantum theory - as Dr. Albert Einstein defined it.

More marvelous to comprehend is the coming the Jod dimension ( $2 \times 5 = 10$ , or a new house [*Beth* = 2] for *Heh* is *Jod*) of the

## Apocalypse Prophesied

From Eden to the New Jerusalem

### One God

Mary's	Resurrected
Jesus	Jesus
Daleth	Heh - Jod

Finally, Jesus' life had to be worth the lives of all - billions! Which is it? Religious seminars and pagan universities still have not settled this question. Perhaps HANS and the two-rail perspective of the biblical railroad track can help.

### Prophecy and the Nature of Jesus

Now I must return to the question, "Who is Jesus, really?" I understand Him to be the same invisible God historically made visible on earth in the Daleth dimension. Since His resurrection, He is visible in Heaven as He stands by and is seated with the invisible omnipotence on the Great Throne in Heaven.

At once I was in the spirit, and there in heaven stood a throne, with one seated on the throne! And the one seated there looks like jasper and carnelian, and around the throne is a rainbow that looks like an emerald. Around the throne are twenty-four thrones, and seated on the thrones are twenty-four elders, dressed in white robes, with golden crowns on their heads. Coming from the throne are flashes of lightning, and rumblings and peals of thunder, and in front of the throne burn seven flaming torches, which are the seven spirits of God; and in front of the throne there is something like a sea of glass, like crystal.

Around the throne, and on each side of the throne, are four living creatures, full of eyes in front and behind: the first living creature like a lion, the second living creature like an ox, the third living creature with a face like a human face, and the fourth living creature like a flying eagle. And the four living creatures, each of them with six wings, are full of eyes all around and inside. Day and night without ceasing they sing, "Holy, holy, holy,

## **Apocalypse Prophesied**

From Eden to the New Jerusalem

Some might question Jesus' divine sourcing because He was born as a helpless baby who needed to learn everything from His earthly parents to physically survive. These folks assume that being born the Son of God means that Jesus knew everything about the Heh dimension crystal clear from the time He crawled instead of walked. We do see Him at twelve years old teaching the elders in the Temple at Jerusalem, and logic tells us that he learned how to be a carpenter-builder from Joseph. Jesus needed to acquire those skills so that He could earn a living and support the whole family after Joseph, the father of His brothers and sisters, died.

In Jesus, time books did not exist for the general population. Any books or scrolls were handwritten, extremely rare and expensive. The ancient classical education emphasized a capacity to put documents and speeches to memory. The Romans used gifted students for messengers who could memorize substantial communications on one hearing. They were like today's court recorders who transcribe your words as you speak. Our modern brains are not trained in this capability because we have become dependent on written documentation, and now computerized digital technology is providing an increasing number of recording and retrieval options.

This ancient educational focus on memorized recitation explains the phenomena of the Gospel accounts where we read exquisite text beautifully articulated as if someone had a tape recorder. It is no wonder that Jesus quoted extensively from the Torah. He was not alone in this habit. The Pharisaic lawyers did so, too, because scrolls were rare. Remember the story of Joseph and Mary finding the "lost" Jesus sitting in the Temple with elders? Going into the Jerusalem Temple library would be a crowning education experience for a 12 year old boy. I am sure Jesus returned many times to visit old scribes He befriended.

Millions consider Jesus to have been a wise and good man that could not possibly have been God. But many prophecies declare that He must be divine for His sacrifice on the cross to be inclusive of all humanity as well as being pure and suitable to atone for our sins. Here's an attempt to illustrate Dr. Einstein's method to see both sides of the coin using HANS' explanation of "One God" at the same time, as far as it concerns Jesus:

## **Apocalypse Prophesied**

From Eden to the New Jerusalem

new creation, which will last forever and ever in the Jod Age that the Bible refers to as the New Heaven and New Earth. The appearance of the minerals, plants and animals will remind us of the good from this age, but it will all be constructed differently from within in order to retain perfection even as it grows and changes throughout eternity.

## **The Mystery of the Pre-Dawn Universe**

### **Or, another look at the "Big Bang"**

HANS can move us toward some definitive answers by bringing some order to our thinking process. Once more, let us go back to the beginning of time and try to mentally put ourselves in God's place as the Creator and Sustainer of the natural universe. The Bible records that there was a rebellion in heaven, big time. The invisible God cleaned up His house and threw the bums out who violated His honor.

Put your wings on like one of the remaining good angels who now ask Him, "What's next? How are you going to fix the problem? We all agree that it happened, and we do not want to see that kind of upset again." How do you answer? How do you propose to help God out a little here? Think about that situation and at least propose a program that would fix it so good that there will never be another rebellion. Nobody else will try to pull that one off again and disturb the peace of Heaven. After you have developed your little story to repair what went wrong, let's compare it to what the Bible reveals about God's solution.

I am serious when I ask you to think it through. Do not let me spoon-feed you like those who probably will not accept what I have written. Each reader is a unique person. You become so when you start to think or have a little imagination. Hey you could even invent something like I did, and make some money!

I will even tell you what I thought. My opinion was that Satan should have been immediately eliminated – zapped into nothingness! That would "shock and awe" or "put the fear of God" into everyone around. Don't make invisible Omnipotence on the Great Throne of Heaven angry, or you are history. For instance, I would take a big Heh dimension sledge hammer and anvil, put one fallen, rebellious angel at a time on that anvil and

## Apocalypse Prophesied

From Eden to the New Jerusalem

let him have it like a blacksmith working hot iron. And yes, I pictured full sound effects, too. And let's not forget the splattering angel guts shooting out in all directions. Now that would make an impressionable deterrent that should last for ages, if not eternity! So every angel who had showed me the finger would have gotten what he had coming. Justice would have been done fast and final. The warning to all the others would have been clear: do not mess with the invisible God!

But if that had been what God did, then what would have happened to the good angels watching such a performance? I think they would have turned scared and hid quickly with each one thinking, "I better visit another galaxy and not get too close to God. What if He gets angry? I might not survive." So, here a little fear and there a little doubt would creep into the community of angels. The result would be a lonely God who would wonder, "Where is everybody? The place is empty?"

Now let's look at matters from God's perspective. Imagine the Creator thinking, "I made everything perfect but look at what happened. Can I blame them now if they fail to love me? Why did Satan and his bunch become so totally selfish? Nobody denies that but who can explain it or even better, prevent it from happening again? How can I show everybody that I love my angels, without compromising my holiness and righteousness? It is right to require respect because I am the life everybody shares. They are after all created beings for my pleasure and purposes, and I have good intentions for everyone to have fun, too. Satan crossed the line, and I must deal with him separately. The others should not fear me just because I am powerful and can create anything I want, or start something new just to keep me busy."

Enough of that. Here is how God solved His problem as told in the Daleth dimension where we live. In other words, here is what I understand the Bible has to tell us about why God did what He did and what He has yet in store for us. In short the Bible reveals that God loves us, but He is not a dictator to force us to love and/or to obey Him. Furthermore, He has a plan in place for humanity to qualify to live forever in His glorious presence filling the vacant positions left open by the angels' rebellion.

## Apocalypse Prophesied

From Eden to the New Jerusalem

plainly told His disciples that He had made the Father, the invisible Godhead, visible. (John 14:8-10)

It gets better. As you grow in understanding, you will see so much more when read the gospels from the perspective of both railroad track rails. We still have not discussed why God chooses to show up in Heaven with an obviously resurrected body transformed from an inferior, earthly body of the Daleth dimension.

Jesus appeared historically by being born from a normal woman, Mary, as a little baby about 1 BC/AD. Luke 1:35 states that the Holy Spirit "came upon" Mary so that she could give birth as a virgin. In some fashion the Holy Spirit fulfilled the biological function of sperm in Jesus' conception. At same time it meant that He was born without the original sin from Adam that the rest of humanity inherits.

The angel said to her, "The Holy Spirit will come upon you, and the power of the Most High will overshadow you; therefore the child to be born will be holy; he will be called Son of God. (Luke 1:35)

Is Jesus the same, invisible God that John reports as now being visible in Heaven? Christian scholars raged for centuries over how to define the nature of Jesus Christ as God born in the flesh. Some say He was a fully human, and He became Godlike after the resurrection. Some taught that Jesus never pre-existed before being born to Mary while others believed that He was some form of divine essence shrouded in a human body. The orthodox decision at the Council of Chalcedon in 451 was that He was fully human and fully divine.

When we examine ancient mythology, we find many stories about gods and humans having children who are half divine and half mortal or demigods. These myths are evidence that Satan knew something about God's plan of a divine messiah. Not only did he inspire pagan religions founded on various kinds of divine fertility, and he tried to stop God's plan of salvation by imitating it. In Chapter 4 I related how the "sons of God" (fallen angels) cohabited with the "daughters of men." Their offspring were the heroes of old, "great men of renown" called "nephilim" by the Bible. Satan's strategy was to corrupt the seed of Adam so the he could be the "father" of the promised messiah.

## Apocalypse Prophesied

From Eden to the New Jerusalem

"Come, I will show you the bride, the wife of the Lamb." And in the spirit he carried me away to a great, high mountain and showed me the holy city Jerusalem coming down out of heaven from God.

It has the glory of God and a radiance like a very rare jewel, like jasper, clear as crystal. It has a great, high wall with twelve gates, and at the gates twelve angels, and on the gates are inscribed the names of the twelve tribes of the Israelites; on the east three gates, on the north three gates, on the south three gates, and on the west three gates. And the wall of the city has twelve foundations, and on them are the twelve names of the twelve apostles of the Lamb.

It is as big as a country - 1,500 miles foursquare and pointed into the sky like a rocket. In fact, we recognize it as a pyramid that has five (5) sides indicating the Heh dimension and will shine as bright as the sun. A vehicle of that size dwarfs anything of our own imagination, but then God is not limited. Monorail Christian artists often show the Heavenly city like a cube that resembles and portrays the image of an altar with its connotation of blood and atonement connected with sacrificial death. Others show it as a temple in which you could get killed if you violated the rules. These perspectives do not surprise me because of their lack of education in a dual railroad system.

Read Chapter 10 again, where I discussed the mystery of the pyramid. It has an incredible number of mathematical laws imbedded into its architecture. A cube represents the #6 (six sides) and reaches its highest level at 666 ( $AxBxC = 3$  letters), the number of Antichrist. A cube does not symbolize eternal life of the Jod dimension and mansions for the Saints or a 666 replica of God's vehicle similar in function to the US President's "Airforce One."

Back to our last big question. Is it possible that Jesus Christ in front of the throne is the visible image of the one God, who without Jesus was, is and will be invisible to angels, people, John and everybody else around the throne? When Jesus was on earth, He said that He and the Father are One. (John 17:21) He

## Apocalypse Prophesied

From Eden to the New Jerusalem

To that end, God fashioned the new applicants as mortals. He did this at a special place we call earth within the Daleth dimension of material time and space so that they could go through a trial learning phase where malleable minds that could be changed and where failures could be easily be detected and removed without affecting the heavenly realm. In fact our physical make-up puts natural limitations on how much damage we humans can do, though it seems that we have the capacity to do more harm than God might have thought possible. Getting inside His thoughts might have been like this:

"These mortals will go to my school of life in the Daleth dimension where they can learn all the facts about evil and good taught by Satan and his bunch. I'll let that sleazy guy teach them all of his tricks, and once they get their fill of his brand of good, then I'll give them the Holy Spirit to teach them the difference, so they will know deeply what real love and goodness is all about.

"The good thing about the Daleth dimension is the two-birthday design feature that will permit mortals two successive stages in order to complete their development. In the Heh dimension there is only one birthday in the total life cycle. That's how angels were built by a process something like cloning. The problem is that once they are broken, there is no way to fix, reconfigure or rewire them. It's like a ceramic dinner plate: once broken it cannot be fixed. You can try to glue it together, but you will still see the pieces, and it is never as strong again. What is broken forever is broken.

Only humans are born with an inherent capacity for modification through a two phase lifecycle including a mortal stage, which permits reprogramming and is correctable. They can learn lessons and be rewired through the process of repentance that sets up an antenna through the Son permitting the harmonization of their individual personalities with the Holy Spirit of my perfect love. They will experience two birthdays. The unconformable or rebellious ones, who refuse repentance and submission to my rule, will be born the second time to judgment while the others, called Saints, will be born directly into the heavenly Heh dimension as it is purposed for them. The Saints will now qualify to fill the previous made vacant jobs in my administration. Again we see the two-rail principle at work.

## Apocalypse Prophesied

From Eden to the New Jerusalem

"But I am already thinking of the end goal of my plan to create Saints when I first need to place them in a closed environment to be tested with good and evil. They cannot escape from that enclosed Daleth environment without going through death. Since death to them is a horrible experience, they will do anything to survive and learn what there is to learn. I put an instinctive drive in them that is programmed to preserve their own lives because that is my character imbedded in them to honor life, which is part of who I am.

As the originator of life, I desire that a human's death will come at my discretion, as I have planned for them and not sooner so that they skip my school. But each must be free to choose my ways, and hence Myself. I will not force their choice because I must have eternal security from future rebellions. Those who willingly choose my way of love and obedience by faith will receive my teaching Spirit to tutor or further help their growth in grace and knowledge as they prepare for the positions prepared for them. They will inherit those vacant thrones in the First Resurrection, which will take place at the beginning of the Teth Age.

"These future administrators will have been exposed to evil and tested so that they automatically reject the same evil Satan invented. This exposure to evil will result in an immunization effect, biased towards the laws of the new universe that will be eternally imbedded in my Saints' characters and individual personalities. This self-controlling system will prevent any future evil emerging in the New Heaven and New Earth that my holiness will not tolerate.

"The corrupted imprint of all experienced evil, rebellion and any other aberration of what is good, as defined by who I AM, is called 'SIN.' (This is the reason why mortals are called sinners.) My standard as God is absolute and not subject to negotiation. Adherence to regulations for the New Heaven and New Earth must become imbedded into the very fiber of my Saints' being, into the character of their eternal nature if they are to rule or even live in my kingdom. The penalty of sin is death in the Daleth dimension, so that there will be no sin in the future Jod Age. I know the only good way to live forever, and I want to share it with them.

## Apocalypse Prophesied

From Eden to the New Jerusalem

these we learn that God is not only infinite light or energy imbedded in the matrix of the universe but also a person. Of course, the question then arises, "How do you define a 'person'?"

For example, God and two others visited Abraham in Genesis 18. Abraham's visitors ate a hastily sacrificed calf with curds and milk and seemed to Abraham to be like men in every way. Abraham recognizes that he is being visited by the LORD, yet the Bible also states that no one has seen Him at any time. (John 1:18) So the logical question is: what kind of body did God visit Abraham with?

I have no problem figuring this one out. He is the Creator of the universe. He can create any vehicle and any energy needed to fuel it from out of His own being. All He needs to do is speak, and it is done!

Let me use another analogy here. If I want to visit somewhere, I just go into my garage and pick out which car I think is best for the purpose. People manufacture cars for many different purposes and in a number of styles. Likewise, God would pick out a suitable, not too scary, and yes, even familiar, body form in which to meet Abraham in the Daleth dimension. Then He would just get in and go. Why should it be so difficult for the Creator to do something so similar to what we do? It is only the details that are different.

Another example. Some hundreds of years after talking to Abraham, God showed up in a burning bush to visit Moses. Moses had never seen a Heh dimension vehicle like that, and it got his attention right away! Before Moses had a chance to get close enough to really check it out, he is told to take off his shoes because he was standing on holy ground. Just a reminder here: watch out for the fire from the Heh dimension – even small ones! God also visited the prophet-priest Ezekiel. Read about it in Ezekiel Chapters 1 and 10. This time God uses a Heh dimension contraption that looks like something with wheels within wheels. There's fire in the spokes and awesome angels attached round about.

So what I want to tell you is that God can show up in any form He wishes. As Creator, I am sure there are hundreds of different vehicles in His garage. Check out the biggest one He has described for us in Revelation 21:9:

## Apocalypse Prophesied

From Eden to the New Jerusalem

invisible electromagnetism that coexist in our world of smell, tasting, hearing, seeing and touching.

The father concept is also one of "source." You cannot necessarily feel or measure God's presence in your mortal members, although sometimes the fleshly surging of life seems almost immortal - especially in our youth. Being composed, made-up or formed of the Daleth dimension's natural matter and energy is not the same as being "born again." Remember, there are two birthdays. All mortals require a spiritual rebirth from the other side in order to live forever in the Heh dimension. Jesus is the pioneer of spiritual rebirth being declared the Son of God by the resurrection being indwelt by the Father's fullness. (Romans 1:4; Colossians 1:19)

## The GodSon Mystery

Now let's continue in our quest to better understand God. When John was standing before the Great Throne of God in (the Third) Heaven, he noticed a real person standing next to it. He recognized the resurrected Jesus by the nail marks on His hands, feet and side. These 5 scars will eternally identify the Son who lived in the material world of time and space of the Daleth dimension. The four scars of His hands and feet are His Daleth (4) dimension signature. Add to them the killing wound from the spear thrust into His side and you have 4+1=5 for the Heh dimension significance of His sacrificial death.

I am reminded that when a lamb was sacrificed on the Israelite altar, its 4 feet were bound tightly together. Then the knife took away its life similar to the 5th wound of Jesus. His hands and feet were bound by nails to wood, recalling the unburned wood beneath Isaac's back when Abraham had planned to sacrifice his only son in obedience to God. (Genesis 22) So appropriately is Jesus referred to as the Lamb of God.

In Revelation John wrote that he saw Jesus center stage at the Father's throne in Heaven, where the action is. So the question has been asked for ages, "Is Jesus a separate person, or is He God in another shape, emanation or appearance in physical form. There are some Bible verses where God visited man in the Daleth dimension before Jesus was born in Bethlehem. From

## Apocalypse Prophesied

From Eden to the New Jerusalem

"In the words of my butterfly example, I teach mortals what does not violate my standards of justice. They are exposed to natural dangers of corruption, lying and deceits and many more possible failings, which will impress lessons learned deeply into their consciousness. Then I can retrieve and reward successful 'caterpillars' who have learned the essential lessons needed to be good 'butterflies.' It must transfer their learned, absolute abhorrence of evil and imbed it into the very beings of these new creations (butterflies) and become fixed forever by the resurrection of the Saints. This 'immune system' will safeguard against any future rebellion. It works like a computer's virus protection software that springs into actuation whenever any foreign virus of sin is detected.

"Life after the resurrection will be void of all evil and enjoyed by all of the Saints without any guilt from past failures because all of the sins from the Daleth school will be totally forgiven and forgotten. Only the lessons learned remain. I will structurally imbed their lessons into them like an immune system that only comes alive when something needs proper guidance so that the Saints autonomously, freely and always to the right thing in conformance to my desire and character.

"However, I must also do something on the love side to enable this plan, which will be potentially dangerous and definitely painful - even for me as God. To give humanity a choice to love me voluntarily without force, I need to demonstrate to them that I am absolute love. I must do it on their level, or they will reject it. The only way is to experience the Daleth dimension as one of them and even die there. I will offer my death there in just payment as an expression of love for them. In going through the same school of life, I will feel the pain they feel, experience their need for the essentials of life's physical necessities and experience the tenuous spiritual dependence of a fleshly Son on the Father above.

"Those who pass the test will be drawn to me and will learn to love me because I gave up myself for them. When they see that I gave up my divine prerogatives as Creator of everything to become mortally vulnerable it will surprise many that I will be born of earthly flesh on their same level - even unto death. Throughout eternity, my scars on my hand side and feet will remind all that each and every one shared the trials and

## Apocalypse Prophesied

From Eden to the New Jerusalem

temptations of the Daleth dimension as well as the victory of the resurrection, together.

"However, my death in the Daleth dimension will be the decision test to determine who really wants to live and rule with me in the Jod Age of the New Heaven and New Earth. I will create something totally new for those who pass the test that decided to love me. Those who die with me in faith shall be raised with me according to "Mercy unto Life." The others will experience "Mercy onto Death," which gives them an out so that they disappear forever. The rebellious lost soul will no longer experience pain, tears or hate either because all these matters of the Daleth dimension will have ended as Taw = 400, as it is indicated in HANS.

"Those who reject my ways for their own ways are those who refuse to repent and submit to me. Such are they who reject my free offer. They shall be judged to "Mercy unto Death," which is the path of eternal loss for those who opt out to be annihilated in the darkness of the Daleth dimension black hole where all elements will melt together into the one original frequency of my Word spoken to bring all into being. It will end all previous Daleth dimension existence as everything will be dissolved back to the pure, primordial energy that preexisted before time. The former things will have past, no more Daleth dimension of pain tears and corruption, which is expressed in the Hebrew letter Taw-400. I will make all things new.

"From that event forward, there will be another fundamental change in the Jod Universe. I will never again be invisible to my creation. All beings will see me with their eyes, and I will never change my visible body created for that purpose and for the salvation of mortals. It will always show the marks of suffering on my body to remind all that I, also, humbled myself to learn from suffering – just like those whom I love. My resurrected body originally born in the Daleth dimension will be raised from the Heh dimension to the new dimension of Jod, which will be the only reality that fills the age of Jod.

"Jod is an ancient symbol of the resting hand at a higher level with a numerical value of 10, or one-zero. It stands for the time of the New Heaven and New Earth or the age of Heaven on earth when all of the former things are totally recreated. Any signs or

## Apocalypse Prophesied

From Eden to the New Jerusalem

the universe by taking back His energy. In micro-moments the Daleth dimension would implode; human civilization and the universe would instantly and irreversibly "become history." In fact, something like this will happen when the age arrives for God to "make all things new" with the New Heaven and New Earth. (Revelation Chapters 21 and 22)

Back to my analogy of the electric switch on the wall. The switch is part of a network of wires that is connected to a light on one end and a source of electricity miles away outside of the house. The electricity is only noticed when the switch is turned on or off. Instantly, you will recognize that it was there all along. Think this through; it is not taught in universities because in general they do not believe in a divine energy. Most are willfully blind to what can be clearly seen in nature. Of course, some scientists do see the necessity for intelligent design and at least a first cause, but they are in the minority on this globe. Usually, their opinions are squelched, and they cannot publish their opinions within the university forum of professional journals. This closed viewpoint is a political thing that will change when the Apocalypse arrives. It amazes me that millions of people pay a fortune in tuition to be educated by respected but spiritually blind people in order to be kept ignorant about religion themselves.

To sum it up, God the Father is found everywhere in the natural universe from within the smallest particle or frequency to its borders of infinity. The existence of the Daleth dimension is sustained by God. That means, each of us are built out of and operate by energy ultimately sourced from the divine God, who sits on the Great Throne of Heaven as revealed in the book of Revelation and other scriptures.

Before he rebelled as Satan, Heyl-el ben-Shachar, or Lucifer, became lifted up in pride because of the divine energy coursing through him to perform God's purposes. He became twisted in his imaginings and rebelled against his Father who created him. Lucifer and the other created sons (angels) of God once all "shouted for joy" at the origin of the Daleth dimension. (Job 38:7) Then they believed a lie and lost it all. Adam and Even believe Satan's lie and chose a knowledge path incorporating the natural spiritual force of good and evil. To discern the good from the evil, mortals require the guidance of God's written Word, the Bible. It functions like the compass that reveals the forces of

## **Apocalypse Prophesied**

From Eden to the New Jerusalem

thing in common. Since the atomic bombs of 1945, we have all learned that some elements can be transformed through the release of vast amounts of explosive energy. Matter can be moved from a higher level of energy to a lower level with an enormous amount of energy released as a by-product of this process. Matter is built out of energy, which is Dr. Einstein's famous equation  $E=mc^2$ . The consequences of this discovery have been very deadly for humans, and we have not seen the end of it yet by any means. Albert Einstein understood this fact very deeply, and it motivated him to spend his last years earnestly working for peace.

Thus, invisible energy becomes visible in matter of various elemental structures like copper, iron, magnesium, plutonium and uranium. While certain elements are more conducive to our present level of atomic technology, all the elements of the periodic table are a result of God's creation process based on  $E=mc^2$ . Understanding the explosive results of changing the atomic states of matter tells me, "Do not mess with God." It is nuclear physics version of biochemical genetic manipulation. After all, everything in the universe has come from His divine energy.

By faith we understand that the worlds were prepared by the word of God, so that what is seen was made from things that are not visible. (Hebrews 11:3)

In reference to Jesus as the Son of God born by the resurrection (His second birthday), the Bible states in Colossians 1:17, "He is before all things, and in Him all things hold together." The context shows that the fullness of the Father now dwells in the Son, and it is through the divine energy that the universe ("all things") is maintained and kept together. This means that the power of God lies imbedded in every atom, molecule or particle. Yes, you heard right. Part of the infinite power of God is invisibly present in the smallest particle we can see under an electron microscope.

If you take this sustaining energy away from even one atom, it will collapse. If God took it away from a small mass, the implosion that would take place could cause horrible consequences to all of us living in the Daleth dimension. In other words, God can decide at any moment to end His sustenance of

## **Apocalypse Prophesied**

From Eden to the New Jerusalem

scars of Satan's rebellion in Heaven and hatred against the Saints will no longer be visible and be forgotten. The new bodies promised at the second birthday will now enter this age with me and will never experience pain, hunger or sickness again. With eternity inherent with them the fight for survival will be permanently swallowed up in this new creation. The new universe will be peacefully balanced again without evil and rebellion forever, I promise. Please examine all those many butterfly wings in nature and that will give you a picture how beautiful my new creation will be."

This dear reader is the greatest news ever revealed. It is the very center of God's plan for humankind. So please tell others, and do your part for God so that you will receive a great reward.

### **A Different Perspective on the GodFather Mystery**

When John in Revelation was called up to Heaven to write what he saw, the man found himself conscious "on the other side" or in the Heh dimension.

At once I was in the spirit and there in heaven stood a throne, with one seated on the throne!  
And the one seated there looks like jasper and carnelian, and around the throne is a rainbow that looks like an emerald. (Revelation 4:2-3)

There he saw magnificent brilliance beyond light emanating from a great throne. He cannot make out who or what it is, but he recognizes something that did have a familiar look - a rainbow on top of the throne! I understand this vision to be God's presence in the form of invisible light of the highest electromagnetic spectrum beyond the infinite region. In fact, the energy must be flowing out from God's throne in all of the dazzling frequencies of infinite light as expressed by the full span of all known and unknown electromagnetic frequencies, including the magnificent brilliance of the visible light spectrum that mortals can see. To me, the visible sign of the rainbow represents the fullness and entirety of the Daleth dimension including all the elements known and assembled in the Periodic Table and all of the power of the electromagnetic spectrum.

## Apocalypse Prophesied

From Eden to the New Jerusalem

The Bible says, "No one has seen God anytime," and the implied completion of that sentence would be, "and lives to tell about it." He is unapproachable light. We can measure the sun's heat from the earth, 93 million miles away. We have also sent space probes into it that radioed back readings until it melted. Anything getting too close to the sun is instantly vaporized. Its component elements are broken down and pulled into the burning mass of the sun's surface to disappear within where it is re-forged in the nuclear furnaces of its interior.

Throughout the history of humanity the sun has stood for God or been worshipped as if it was a god. Considering what John saw and recorded in Revelation, being in the presence of the sun is a fair analogy to being in the presence of God on His throne. If we rephrase the concept that God is unapproachable light, one can say that He must first call you into His presence, or you will perish instantaneously if you show up unannounced. It is that simple. Remember, I am using incomplete analogies here. God is not the sun, nor is He merely an impersonal totality of energy, or the totality of matter and energy. Since He created all from nothing, the entire physical universe has come from Him somehow, but God is much more than that.

By faith we understand that the worlds were prepared by the word of God, so that what is seen was made from things that are not visible.  
(Hebrews 11:3)

The Bible uses an understandable human analogy to describe God. Jesus revealed Him as the Father. Anciently, the father or patriarchal concept also communicated the source of authority for the whole clan or family structure. Many cultures are still typified by strong patriarchal authority, such as in most Muslim countries. When Jesus referred to God as "Father," He related the unknown to something everybody can relate to. I do not have to elaborate on this point except to point out that in the Hebrew Alphabet Number System "Father" also means "God" the unapproachable light as represented by the first letter of the Hebrew alphabet, Aleph.

The letter, Aleph, was developed from an early pictograph of a bull's head. Many ancient languages developed scripts in this way. Often religious symbols were used. It is well known that

## Apocalypse Prophesied

From Eden to the New Jerusalem

bulls were worshipped by many ancient cultures, and the Bible relates how Israel sinned in worshipping a Golden Calf when Moses was gone to visit God on Mount Sinai. You can read about what happened in Exodus 32. Part of the message here is that the people felt the need to see their God. Humans are not always bright, and we all have limits at some point. This is one reason why Jesus used parables and analogies to teach us spiritual truths. (See our appendix, The Mystery of the Hebrew Language.)

In HANS Aleph also means the number 1. To be number 1 is every politician's goal, and in some manner most of us can be included in that very human proclivity. The reason is that we are made in the image of God, and this aspect of who we are is often twisted by a pride that pushes us to be number "one" – mostly at the expense of others. That was Satan's problem, too, and it cost him his job in Heaven.

According to HANS, God, as number 1, must be added to the Daleth dimension to reach the Heh dimension of 5 ( $4+1=5$ ) because the energy level of Daleth objects must be supernaturally raised contrary to the Second Law of Thermodynamics – an impossibility in the natural system. This is because God, the power of one, also comes from the "other side." He inhabits eternity.

For thus says the high and lofty one who inhabits eternity, whose name is Holy: dwell in the high and holy place, (Isaiah 57:15)

So, we should also be able to find a door to eternity on the lower regions of the Daleth dimension, and we do find it there thanks to our champion of science, Dr. Albert Einstein. Notice that in Isaiah we find the name of a Holy Alpha/Aleph who inhabits the eternity (Heh), dwells in a holy place (Jod) and is imbedded in the Daleth dimension. We find the invisible Spirit as one rail and the spirit – breath of life as the other rail. It is the entire electromagnetic spectrum of energy and elements expressed in one verse.

Looking closer to the science of Dr. Einstein, I do not understand all of it, but in a nutshell, every element that exists is found within the rainbow color spectrum, all the elements depicted with their particular pattern of spectral lines as signatures, have one
