

Pearl #106 – Hebrew Alphabet Number System –

Alpha (1), Beth (2), Gimel (3)

[Appendix Pearl # 300, part 4]

Number 1 = Aleph (א)

The first letter of the Hebrew alphabet is *Aleph*. It represents the beginning of everything in the universe and symbolizes an enteral God of all He created and its origin. (**Gen 1: 1**) Thus the Creator YHWH is a profound mystery of harmony. *Aleph* has a numerical value of (1) and is the first prime number which signifies a beginning.

Aleph is one of two consonants in the Hebrew language that cannot be pronounced. It is always silent, indicating the qualities of being hidden, incomprehensible, unexplainable and infinite.

In the Hebrew language, the word *Aleph* means "*head of a bull*" or *the head of royalty - King*. Moses came down in forty (40) days from Mount Sinai with two carved stone tables of Ten Commandments, (**Exodus 32**) and saw that the children of Israel produced an Egyptian idol like a golden calf. In anger broke the original tables which YHWH wrote, hence made a duplicate for the future generations, and stored it in a golden Covenant Ark. The people coming from an Egyptian culture wanted to symbolize God with the bull's head to legitimize their fraudulent religion, thus covered their statue with gold.

Humanity often borrows ideas from the Torah-Bible in order to give our enterprises an image of acceptability. The prophet Ezekiel saw in a vision four creatures before the Throne of God. One creature had a steer head, representing the physical domain linked to a coming World of strange infinite light designed for a new *Jod* dimension.

Number 2 = Beth (ב)

The letter *Beth* means "house." or "duality" with a mathematical value of two (2). It symbolizes earth & nature interconnected with a *Heh - Daleth* universe now is defined in the new *Jod* Dimension. Investigating our earth is not a globe and is like the inside of a house with many rooms filled with objects. It encompasses billions of people with governments various civilizations and infinite life forms on our flat earth. These concepts also reflect unknown realities found in Heaven. Yeshua tells us in His oldest book that many mansions are prepared for repentant believers, the Saints, who worship Him as King of Kings & Lord of Lords in His Kingdom. (**Rev. 19:16**)

The Torah-Bible is written in the Hebrew language, which begins with a foundation report in **Genesis 1:1-31**, "B'ree(i)shit Barah Elohee(i)m." It is translated in English as, "In the beginning God created the heavens and the earth."

Notice the first word in the Bible starts with the letter *Beth*. It is the outward expression of the "I AM" or the eternal Creator YHWH articulated in the first pages of Genesis.

Therefore, the Torah-Bible defined creation by a Hebrew number letter system (*Beth*) meaning "duality" or "division" consequently is linked to Adam-Eve, like two genders male and female multiplied by many animals and plant species for the *Daleth* Dimension. It is designed with four opposing forces, like Yeshua with His close disciples ending the New Testament with Paul, John, Peter, and angel scribes. It is coupled to **good** - **evil** defined in right - wrong and ultimately will receive eternal **Life** versus Death related to Ten Commandments. These concepts will only be understood when *Beth* is connected with *Aleph* - God the Creator YHWH.

Number 3 = Gimel (ג)

Gimel means "camel." As a concept it indicates the physical (animal) side of man. Its numerical value is three (3). This is another prime number that cannot be divided. Gimel expresses important ideas, thoughts or things. It is graphically represented by an Israel's flag, which is designed with two interlaced triangles. The triangle pointing up means "perfect manifestation on the physical side of man"; the other triangle facing down indicates the "perfect manifestation of the spiritual side", like the new *Jod* Dimension.

Gimel also stands for "divine completeness or perfection." Expressing God in a letter (*Aleph*) will show His visible attributes in three aspects proven in the Time dimension by a Trinity of GodFather, GodSon and GodSpirit. It also connected to **Probation** after death for many people not evil being judged too for **good** and **evil**? (Matt. 19:23-26)

It indicates that a *Jod* dimension will be a familiar place where we will feel at home. Thus our world is linked to a house with doors, windows and a roof. However there are three notions like **Probation** now hidden (**John 5**) received after death of a *Daleth* dimension which is recorded in a same chapter of Revelation. (**Rev. 5:13**) John writing both but this time he mentioned a "Sea" because it is documented in heaven, like a *Heh* dimension" for the Plan of Mankind.

It could be explained in modern true science like a camel will go through a needle-eye with dual gene strand similar to DNA (Deoxyribonucleic Acid). Another Bible story is Nicodemus, a Pharisee, coming at night (**John 3:1-21**) and asking Jesus -Yeshua how to be born again after mortal death? Please check it out to know receiving Resurrection, the most important event for you and me.
