

## How does the Psychopath NYC FED Banker Cartel Operate?

Many people do not know our banking system. They pay no attention to the many warnings given by educated founders who wrote the Constitution of America. The world system is controlled by a hybrid-Angel Satan who can only rule all nations through ambassadors who function like hangmen appointed that favor bankers.

The founders wrote to never give away the printing press of currency to the bankers, or we would lose total control of the economy and become corrupt. The consequences are even seen by my grandchildren who do not understand why all life is in danger to disappear in the next 5 years.

I live in California and no longer see a single housefly. The humming birds disappeared years ago. Butterflies vanished. Most of the insects I saw 70 years ago are gone. YouTube has many videos of red tide with billions of critters dead floating on the beach. Millions and millions of chickens, turkeys, geese, cattle and wild life are DEAD, documented in video pictures.

The whole environment is poisoned as nature will follow entropy laws, which is unforgiving and do not care if you die or get horrible cancerous diseases. The food is modified with GMO and will collapse because the reproduction intelligence has been altered like a stupid bull let loose in a china store.

It gets worse. Now Transgenetic change the human race by mixing it with animal genes, strictly forbidden by the Creator ELOHIM who will once more end an Evil Civilization like in Noah's day and will use again an asteroid as projected by science. Please check out Dactyl coming our way.

To absolutely control the whole world, the psychopath NYC Illuminati bankers allow only one energy source globally – **OIL**. Since 1920 they have suppressed every patent of **free electricity**, like the 700 patents of Nicola Tesla. They denied the second biggest energy source the **Ocean** splitting water into Hydrogen and Oxygen invented by a scholar Hoffman in Germany. The result is shown in the next picture worldwide everywhere.

The next generation kids will explode with diseases according to GMO laws already accelerating not reported on TV because they are all owned by NYC bankers printing fiat money. They want absolute rule over a **New World Order** to keep the masses utterly ignorant in total servitude by paying off anyone with huge grants.
