The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

This chapter presents twelve observations to corroborate the content of my books. Together I believe that they provide strong proof for my proposed scenario of events that compose the biblical Apocalypse. Eleven of these observations come from calculations in the 7-based dimension according to the "Rosetta Stone" theory. The twelfth, the "mother of all observations," comes from the 5-based dimension meaning it has a cosmic overlay.

As I analyzed all the other eleven, I discovered the twelfth and last one. It had been included in the pages I had written without knowing it. I had thought that this book was ready to print, but this twelfth embedded discovery had to be inserted even if it caused delays. I recognized God's finger in its verification of the dating for the Apocalypse from the *Heh*, 5-based dimension. In the Hebrew Alphabet Number System the number eleven (11) stands for "depravity" or "judgment" while the number twelve (12) communicates "governmental perfection."

Remember, I am not a prophet. I am just a fallible human being who has received insight into these marvelous biblical truths by God's grace. Besides being a cuckoo clock hobbyist, I am an inventor and a long-time maker of precision instruments. The innovative perspectives and practical skills developed from these experiences have given me a unique perspective on the Bible, and I hope that I have communicated them clearly to you in these pages. I trust that I have understood enough of God's message to take the risks involved in writing these books. Believe me, humanly I would have much rather continued to enjoy the simple life of my retirement on my vineyard. Perhaps reading these books will cause you to also re-evaluate your spiritual priorities and change how you are living before God!

Because these eleven plus one observations enable me to pinpoint the many of the events and dates of the Apocalypse, I have boldly stepped out on a limb to predict that the seven years of the Great Apocalypse will take place between:

21 December 2008 and 21 December 2015
Kislev 24, 5769 and Tevet 9, 5776

I hope that you take it seriously. I hope that we will spend eternity together in the presence of our Creator who purposes to bless each of us with nothing but goodness and love, as long as we are willing to humbly accept His ways in faith and deed through Jesus as Savior.

Observation #1 (Aleph)

A Test of Basic Assumptions

I am not a historian, but what I have discovered is a system that works within a reasonable margin of error when one considers the various calendar conversions and often long periods of time involved. Furthermore, I have discovered many “coincidental” cross-checks that confirm the validity of the research methods I employ.

When I started my research, I soon learned that the historians do not agree among themselves on almost any date dealing with the Bible and history. In fact the discovery of the gears and cycles at work actually helped me to select from among the experts’ different proposed dates. Perhaps my tables could help resolve some of the debates between historians just as they helped me to confirm proposed prophetic dates.

In my study of the biblical Apocalypse, I discovered two calculations for predicting the beginning date, which serve as witnesses. My calculations are based on historical facts. These two witnesses support the research methods I have used for determining the other observations.

This first observation locates the notch on the World Cuckoo Clock that will activate the cuckoo bird to announce the beginning of the Apocalypse. If these calculations are correct, we can assume that all the others will conform in accordance with the same mathematical laws.

The 483 year gear is significant in several calculations used in both the 7-based and the 5-based systems. To verify its assumptions, we can try it out on some historical dates that we already know. That way we will have reasonable assurance that the method can be used to predict future events that have not happened yet.

In other words, we take a Bible verse that was prophetic when written but has since been fulfilled in history. If it worked for fulfilled prophecy, then that gear probably works for other prophecies yet to take place in our *Daleth* dimension of this earth and time. We should not forget that the gears must mesh to justify their utility in the measurement of prophetic time.

Now, let’s test the theory of gears:

First Test

Daniel said that the Messiah (Jesus Christ) would appear sixty-nine weeks “from the issuing of the decree to restore and rebuild Jerusalem.” (Daniel 9:24) Here the Bible gives us a gear of 69 weeks, which is $69 \times 7 = \mathbf{483}$ years. Some Bible scholars have

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

determined 454 BC to be the date of the decree to rebuild. Other dates may be more popular with today's students of Bible prophecy, but this date works perfectly within the chronological system of gears, and that fact confirms 454 BC as the best historical option.

Bible prophecy often speaks in terms of units that may have more than one absolute chronological value. In this case we agree with most scholars' opinion and use units of years. The biblical basis for this conclusion derives from 2Chronicles 36:21. In this case there were 70 literal missed land sabbath years out of the Temple's 490 years of existence. (Leviticus 25:2-7) Hence almost all agree that one prophetic week scales to equal 7 years.

Thus, we multiply 69×7 to discover a gear of 483 literal years. In our calculations (as shown in the 7000-Year Table of Human History) When I add a sixty-four (64) year gear to the end of the Jewish captivity in Babylon at 518 BC, we again come to the same date of 454 BC. Next we add the 483 year gear to 454 BC in order to determine the year of the Messiah's appearance:

$$454 \text{ BC} + 483 \text{ years} = \text{AD } 29$$

Secular history confirms that Jesus' ministry began at about this time, so this approach establishes a proven chronological gear of 483 years. Using other combinations of the 483 year gear in other known historical settings will further prove that the 483 gear is valid so we can trust its utility in predicting the future dates of other prophesied events mentioned in the Bible.

Second Test

This time we will use the five-base system and the $1 + 4 = 5$ rule to get to the end of Daniel's 70th Week (the foreshadowed time that includes Jesus Christ's ministry, death and resurrection). Since the 5-based system also works while counting backward from end dates, we will compute backward from the liberation of Old Jerusalem and the Temple Mount in AD 1968.

Counting backwards to verify and test prophetic dates has never been done before because Christian scholars only know one system of calculation – what I call the 7-based system. The 7-based system always anticipates forward from antiquity to our modern time. Since one gear was used to move forward to the appearance of Messiah, we need to subtract four 483 year gears from AD 1968 ($1=5-4$):

$$\text{AD } 1968 - 1,932 (4 \times 483 \text{ gears}) = \text{AD } 36$$

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

Again, this calculation agrees with the first test. There are seven years (1 week of years) between AD 29 and AD 36, which would be Daniel's 70th Week - if it were to immediately follow the 69th week! Both of these tests, like two witnesses, give evidence that the gears and methods utilized are valid.

Observation #2 (*Beth*)

2008 as the Beginning Year of the Apocalypse

We could try to find the date of the Apocalypse by using either the 5-based system or the familiar 7-based system. To me, it seems more reasonable to use the 5-based system because the Apocalypse will take place during the 5-based 50-year Jubilee Gear (Daniel's 70th Week in the 5-based system) that falls between 1968 and 2018. (See Chapter 7.) Furthermore, I have established the endpoints of humanity's 7,000 years of history by using the 5-based system, too.

So to determine the approximate time for the second appearance of the Messiah, which occurs after the Apocalypse has ended, I counted **backwards** from AD 3017, the end of the *Teth* Age using two 483 year gears associated with the Messiah's (second) appearance. (The year 3018 begins the *Jod* Age.) Thirty-five (35) years must be added to the amount to be subtracted because the 7,000-Year Table of Human History shows five (5) cycles of 490 years from 518 BC, which need to be converted to our time by adding seven (7) years for each cycle. Since the conversion factor of 35 years can be added anywhere within the 3,500 years between 518 BC and 3018 AD, we add it here even though we are using only two (2) gears of 483 years.

Counting backwards always makes any projection more difficult because if you have the wrong date in the future, anything else would be wrong too. The gears simply would not mesh. The calculation for the second appearance of Jesus as the conquering King of Kings looks like this:

$$\text{AD } 3017 - 966 (2 \times 483 \text{ gears}) - 35 = \text{AD } 2016$$

Jesus personally comes sometime after the end of the Apocalypse. (See Chapter 5 beginning with the section, *The Unprepared Virgins*.) The calculation of the year 2016 for the appearance of the Messiah confirms my end date for the Apocalypse because 1 January 2016 falls just ten days after 21 December 2015. If we subtract seven (7) years from 2016, we come to an estimated starting year for the Apocalypse of 2009. My predication is for 21 December 2008, so a ten day variance or difference is needed to push the actual start to the closing days of 2008.

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

To find the missing ten (10) days buried between the 3,500 year cycles, the secular solar calendar is corrected by adding one additional day for every 400 years. This is the super-leap year to make up for the fact that the earth does not revolve around the sun in exactly 365 and one quarter days. When we divide 400 into 3,500 years, we arrive at 8.75 days that must be inserted in order to properly adjust the calendar.

This narrows the accuracy of my prediction down to within a day and a few hours over the course of 3,500 years! It gets better. Counting nine (8.75 rounded = 9) days back from January 1, 2016 brings us to 22 December 2015, which is the winter solstice as well as being correct to within one day over the course of 3,500 years!

So here we have yet one more reason that the 7-year Apocalypse and the 7,000-Year Table of Human history scales align perfectly. This is why I can safely predict that the Apocalypse will begin on: 21 December 2008.

So, do we trust the emerging prophetic clock with meshing gears? Or do we remain skeptics with our own personal feelings and/or ideas about the Apocalypse? I have found many Christian's books full of uncertain speculation presented as evidence.

The Bible is not uncertain, but our thinking about it can be. This is why we must seek out additional, self-verifying evidence in the Bible that witness to the accuracy of our possibly flawed ideas about the Apocalypse. I have carefully done that in these books. Even so, I am constantly testing my ideas as I learn more. Reading my books is an opportunity to test your own ideas with the same objectivity.

Observation #3 (*Gimel*)

21 December 2008 - the Day the Apocalypse Begins

Two periods of 1,715 years each appear at the beginning of the 7,000-Year Table of Human History: 4018-2303 BC and 2303-588 BC. These two 1,715 year gears overlay the first 7 of twelve 490-year cycles of the Rosetta Stone 7:5 ratio for the 7,000 years of human history. The 1,715 years must be converted in order to forecast a specific date to overlay this time period with the 7-Year Table of the Apocalypse.

Specifically, we are going to overlay the seven 490-year cycles of human history with the seven years of the Apocalypse: one year to a cycle. It is like the big Russian Egg within a smaller egg. Because they have the same structural appearance, one can rationally calibrate their respective scales of time so that they can be compared by overlaying or aligning the number and sequence of historic or prophetic events. This

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

methodology reveals other aspects of the internal relationships that exist between the prophesied or historical events found within their separately formed contexts. The positional relationships contribute to our understanding of the future.

The Bible confirms the idea of calibrating time along different but consistent scales when it says that a thousand years are like a day before the Lord. (2Peter 3:8 NRSV) Here I am going to treat one year as a day, so two times 1,715 (years to days) comes out to 3,430 days. To convert from these Hebrew calendar days to our solar days, we multiply 1,715 by 1.0145 to come up with 3,480 days.

When we count these 3,480 days backward from **30 June 2018 (17 Tammuz 5778)**, we arrive at a beginning date for the Apocalypse of **21 December 2008**, which is also the eve of Hanukah, **24 Kislev 5769**. This date is also the first solstice in the Apocalypse's calendar of events. This winter solstice is the longest night in the northern hemisphere.

The 17th of *Tammuz* was picked to count backward from through the application of several overlays that take the 12 major Jewish festival and fast days into account. What is especially amazing about 21 December 2008 is that it is a solstice. A solstice or an equinox is a cosmic day: it is not a day that we can move around so that it will fit other data.

Observation #4 (Daleth) –

Another Verification of 21 December 2008

According to my methodology, there should be some similarity of spiritual significance, or other meaningful correlation, between the major events of these parallel periods with the Hebrew Alphabet Number System's symbolic values. The alignment of events in the 9th or *Teth* position needs to express the common theme of "new life" in order to confirm the dating methodology of the Apocalypse.

To test the validity of dividing the Great Apocalypse into 12 periods, I overlaid them with the 12 cycles of humanity's 7,000-year history. We should find events of related significance when we align the 9th Cycle of the 7,000-Year Table of Human History (28 BC to 498 AD) with the 9th Period of the 7-Year Table of the Apocalypse (22 August 2013 to 21 March 2014), we discover that they match exactly like a small Russian Egg fitting within the big one.

In the big egg (the Bible) we note that the birth of Jesus Christ (1 BC) occurred after the beginning of the 9th Cycle of the 7,000-Year Table of

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

Human History. The number 9 is *Teth* in the Hebrew Alphabet Number System. It indicates "new life." Jesus Christ proclaimed that He is life: through faith in Him alone comes eternal life by grace to everyone who is willing to ask. So this cycle expresses the beginning of a new spiritual reality on earth.

To overlay this 9th Cycle of human history with the 9th Period of the 7-Year Table of the Apocalypse, we will count forward 1,715 days from 21 December 2008 until we arrive at Thursday, 26 September 2013, which is the eighth (*Cheth*, "fenced in" or "new beginning, new creation") or last great day of the fall festival season called the Eighth Assembly (*Shemini Azeret*), 22 Tishri 5774.

On this last day of the *Sukkoth* festival season Jesus stood in the Temple and taught that He was the true bread come down from Heaven. He opened himself as the only ($8 = 2 \times 4$ *Daleth*, door) way to receive the waters of eternal life (the New Creation in the Holy Spirit). He called on all who believed to come to Him without fear of being unsatisfied. (John 7:32-39) Thus, this festival, by Jesus' own words, reminds believers of His promises and purpose to enable new life ($9 =$ *Teth* or "new life") to be born in the souls of a dying world.

Our purpose is to prove that these different sets of events in overlaying time segments share a specific harmonizing relationship. The beginning and end points of the Apocalypse align with those of the twelve 490-year cycles of human history's 7,000 years. Scaled down to seven (7) years, I have given the Apocalypse a parallel structure by dividing it into 12 periods of 213 days or seven months each. The 1,715 gear clearly intersects with an event recalling "new life" during the 9th Period of the Apocalypse. Will it bring us to the "new life" event of Jesus' birth when applied to the 9th Cycle of human history?

Although the year of Jesus' birth is not firmly established, the Hebrew Alphabet Number System would favor a date of 1 BC. At first it looked like there was a small discrepancy because Jesus' birth year falls too early. It looks like 1 BC would equate to falling 1,704 days from the beginning of the 9th Cycle of history. While 1,704 days may equate to eight periods of 213 days, it is still eleven days short of 1,715 that is needed to demonstrate positional alignment relative to the starting points of the aligned time segments (9th Cycle with 9th Period). However, if we look closely at the 7,000-Year Table of Human History, we notice there are a few extra years at the beginning of the 9th Cycle.

From 28 BC, the beginning of the 9th Cycle, to 1 BC is a total of twenty-seven years, which is 5.5 percent of 490. Remember, the number 490 is the total number of years found in a standard cycle of the 7,000-Year Table of Human History. If we apply that same 5.5 percent to the

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

typical 213-day period of 7-Year Table of the Apocalypse, the calculation works out to a little over eleven (11) days - exactly the right number needed to add to 1,704 to equal 1,715 days. Thus, the 9th Cycle and the 9th Period of these two different tables align perfectly.

We expected to find "new life" in the *Teth* or 9th time unit, and we find it in both. Not only do we find corresponding "new life" events in each 9th position, we also find precise corresponding relationships relative to the start of each unit. This precise alignment between 7,000-Year Table of Human History and the 7-Year Table of the Apocalypse provides further proof that we predicted the dates of the Apocalypse accurately.

Restated, the 1,715 day gear intersects on 26 September 2013 when counted from 21 December 2008 confirming the 213 day length for one 7-year Apocalypse time period because the 9th Period of the Great Apocalypse precisely coincides in position and meaning with the 9th Cycle of the 7,000-Year Table of Human History. Again, we have an example of diverse gears meshing perfectly.

A closer look at the date 26 September 2013 reveals another correlation. There is an equinox date three days earlier on 23 September 2013. I puzzled over its placement and so I compared it with the 7-Year Table of the Apocalypse. This is what I found.

Jesus Christ lay in the tomb three days and three nights after which He rose. His resurrection exemplifies "new life" like nothing else can. When the Apocalypse ends on the solstice day of 21 December 2015, there remain these same three days that follow it until we reach the eve of His traditional birthday, which will also signify "continued new life."

Thus, the Apocalypse is framed within solstice and equinox dates because it belongs to the age of *Cheth* - (enclosed, surrounded) indicating a cycle of judgments. But three days later follows the new age of *Teth* - "new life." The symbolism of the Hebrew Alphabet Number System is embedded everywhere I search, and I keep finding new examples of it.

Observation #5 (*Heh*) -

Forecasting the Middle of the Apocalypse

The table of the Mini-Apocalypse is built on twelve (12) prophetic Scripture references. It exists like a smaller Russian Egg within the Twelve Periods of the Great Apocalypse table. The 12 prophecies of the Mini-Apocalypse overlap in parallel: 7 of the prophecies come from the book of Daniel and 5 of them come from the Book of Revelation written five hundred years later by the Apostle John.

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

Notice the 7:5 ratio. This appearance of the Bible's Rosetta Stone ratio indicates how important these 12 prophecies are, and that is why I gave the period of time they dominate its own name, the Mini-Apocalypse. Remember, the number seven (7) indicates "divine perfection" and the number five (5) points to *Heh* "the other side."

The Mini-Apocalypse (4 DECEMBER 2011 - 17 SEPTEMBER 2015)			
6	22 NOVEMBER 2011	21 March	21 JUNE 2012
*7	22 JUNE 2012	*21 December	21 JANUARY 2013
8	22 JANUARY 2013	21 AUGUST 2013	
9	22 AUGUST 2013	21 MARCH 2014	
10	22 MARCH 2014	21 OCTOBER 2014	
11	22 OCTOBER 2014	21 MAY 2015	
12	22 MAY 2015		
	Mini-Apocalypse ends	17 SEPTEMBER 2015	
	Great Apocalypse ends	21 DECEMBER 2015	

7,000-Year/7-Year Overlay

We can only look at prophetic events through the prophetic telescope of the biblical prophets' recorded visions. What they see does not flow chronologically. Prophecy from God comes from the *Heh* dimension where time is meaningless; therefore, prophetic events usually have more than one chronological setting. Most commonly there is a near-in-the-future event, which may have already been fulfilled, and a far-in-the-future event yet to be fulfilled. Elsewhere, I have given the example of seeing a series of mountaintops without seeing or knowing the size of the chronological valleys between them.

The relatively far vision perspective of the Apocalypse is placed in the 13th railroad station of the 7,000-Year Table of Human History. The Great Apocalypse has thirteen (13) biblical references to dated events within its 7 years duration. Twelve (12) of these biblical references will take place during the shorter Mini-Apocalypse that falls within the Great Apocalypse.

These 13 prophecies from Daniel and John focus on what will happen to the Jewish people and Israel during the Great Apocalypse. Also, they all overlay with the 7,000-Year Table of Human History as indicated by the period numbers in the left column next to the dates. To determine the dates of the Apocalypse, we will piggyback our predictions alongside

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

Israel's timetable, because they are connected, like the two rails of the prophetic railroad track.

Because Daniel 9:24-27 presents three separate prophetic events, the total number of apocalyptic vision references given by the Bible comes to fourteen (14) as shown in the 12th Period Table – A Micro Egg, the 7-Year Table of the Apocalypse and the 7,000-Year Table of Human History. There are eight (8) references of three and one-half prophetic years (which is also written as forty-two months, 1,260 days or a three times and a half time) out of a total of fourteen (14) prophecies. The proportion of 8 references out of 14 follows the Rosetta Stone 7:5 ratio. This ratio is repeated in the Mini-Apocalypse with its total of twelve (12) references, seven (7) from Daniel and five (5) from Revelation.

To recapture the list of apocalyptic prophecies, Daniel has seven (7) plus two (2) for a total of nine (9) references. When added to John's five references, we get a total of fourteen. However, Daniel mentions 5 time periods during the Mini-Apocalypse that extend beyond the 1,260 days (1,278 of our days). These references have special significance.

The Mini-Apocalypse has eleven (11) events that all start on the same date, 4 January 2012, which is Wednesday, 9 *Tevet* 5772. The Jewish Fast of *Tevet*, the Tenth Month, recalls terrible historical events that took place on the 8th, 9th and 10th days of *Tevet*. Here again it is prophetically consistent with history. This date falls in the second month of the 6th Period of the Great Apocalypse, which begins the Mini-Apocalypse. Eleven references "Judgment" or "Disorder" – just as Noah's Flood started in the second month, too.

Daniel 12:11 gives one special period of 1,290 days, which is #12 on the 7-Year Table of the Apocalypse. I believe that it will begin thirty (30) days before the 1,260 day periods begin, intersecting at 4 December 2011, which is in the first month of the 6th Period and begins the Mini-Apocalypse. These prophecies are best illustrated in the Twelfth Period Table – A Micro Egg.

What we see here again reminds us of Noah's Flood. Noah and his family entered the ark on the 1st day of the 1st month. From all over the world God brought animals to the ark. The Bible does not say when the animals began their journey, but it does say they arrived from the time of Noah's entry into the ark until the 10th day of the 2nd month when the LORD shut the door of the ark behind them. Seven days later on the 17th day of the 2nd month, the rains began, and the "fountains of the great deep burst open." (Genesis 7:1-17) I believe that this last reference describes the greatest earthquake in the earth's history to the present. It may well have been triggered by the impact of an asteroid.

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

God knew from before human realization that our present Hebrew calendar would require the insertion of the leap month, *Adar II*, during the 6th Period (2011) of the 7-year Great Apocalypse. To correct for this thirty (30) day difference, Daniel was told of a 1,290-day prophecy - #1 in the table, Daniel 12:11.

Can this be mere coincidence? Think about it. Daniel was told over 2,500 years ago that there would be a leap year month of thirty days (*Adar II*) added during the year when Israel's great tribulation began! Could He or anyone living when the Bible was written know that? No! But God did from the beginning of time.

What else has God predetermined from the beginning? What does this Creator God of Israel know about you? Will you let Him get to know you? Will you cease rebellion now so that you can enter into His divine life now and avoid this conflict with Him?

The number eleven (11), for the 11 prophecies that begin on 4 January 2012 (9 *Tevet* 5722), by itself delivers the message of "judgment and disorder." These 11 prophecies refer to or are connected with the desecration and destruction of the Temple. The 13 prophecies together refer to the "rebellion" in the heavenly *Heh* dimension.

Nine (*Teth*="new life") of these prophecies end on 17 *Tammuz* 5775 (4 July 2015) signifying that the unrestrained era of evil has ended on that date. It will seem triumphant at the time, but in truth the Mini-Apocalypse draws to a close soon thereafter on 17 September 2015 - short of the full 7 years so that there will be a "new life" remnant of humanity to populate the millennial age that follows.

John's 5 references to the period of 1,260 days, plus Daniel's 3, make a total of eight (8) prophecies that start at the same time and end at the same time. (3½ years is equal to 1,260 days, or 42 months, or "time, times and half a time.") This makes a total of 8 (*Cheth*) references to the 3½ times period and 5 (*Heh*) references to a period a little longer than 3½ times or biblical years (that is, either 75 days or 30 days longer in solar adjusted years).

Together there are 13 prophecies for the "rebellion" and "depravity" of the Apocalypse. Eight (8=*Chet*, "closed in") that date the beginning of and duration of the predetermined, limited time of 1,260 days for worst of the Mini-Apocalypse. Five prophecies (5=*Heh*, "the other side") point to the end of the Great Tribulation and the blessings beyond, which is the purpose and promise of Heaven.

11	Daniel 12:12	4 January 2012	18 Sept. 2015	1,335
12	Daniel 12:11	4 December 2011	4 July 2015	1,290
13	Daniel 9:27	21 December 2008	21 December 2015	7 years
14	Daniel 12:7	518 BC	3018 AD	3,500 years

These 14 prophecies also appear as timelines on the 12th Period Table:

1. **Revelation 12:14:** God says that He will take care of the woman (Israel) for "time, times and half a time." Israel has the assurance that they will survive odds stacked a 1,000 times against them for their destruction. Because this promise is mentioned in both the near vision and the far vision, God wants us to understand and make no mistake in the certainty of survival for His covenant people.
2. **Revelation 12:6:** We have here the second witness of God's promise to Abraham to preserve his descendants. In

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

accordance with His plans for the nation Israel, God will take care of "the woman" (Israel) for 1,260 days – to save a significant remnant out of the midst of major destruction in the Middle East.

3. **Revelation 13:5:** The beast (ten-nation EU system) utters blasphemies for forty-two (42) months. The endtime civilization will degenerate into the total tyranny of a godless dictatorship. Basic Christian values and ethics will be dismantled and crushed. Hatred will intensify and destroy any remnant of family relationships. This civilization will sink to the lowest point possible - just like the generation of Noah's time, which was called continually evil.
4. **Revelation 11:2:** The city of Jerusalem will be trampled under for forty-two (42) months (1,260 days) by Gentile NATO military forces.
5. **Revelation 11:3:** Two witnesses will prophesy for 1,260 days. This will be a last call for repentance to a corrupt society. Their ministry will result in thousands coming to the Kingdom of God. Hundreds of thousands of Israeli citizens will be converted to the true Messiah Yeshua - Jesus Christ. This will be one of the greatest awakenings ever recorded in Jewish history. God's Holy Spirit will indwell the new converts who boldly proclaim the love of God against the background of the highest persecution. This movement will not be silenced or snuffed out by satanic forces.
6. **Daniel 7:25:** Within the **Mini-Apocalypse** of three years, the saints (the true Christian church) and Jews will be intensely persecuted by the European government as represented by the beast for "time, times and half a time" (3½ years) or 1,260 days. This prophecy ends with the Antichrist's dominion being taken away from him and given to the saints of the God of Israel who will rule over the nations forever.
7. **Daniel 9:27:** The newly instituted daily sacrifices at the Temple will cease in the middle of the Apocalypse on Sunday, 4 December 2011, due to unusual events happening around Jerusalem. This verse is cross-referenced with the next paragraph. On 21 March 2012 Antichrist breaks the 7-year covenant of peace He had made with Israel in 2009.
8. **Daniel 12:7:** The shattering of the holy people will come to an end after 1,260 days. For almost three and a half years Israelis will have been hunted down and murdered, but this scattering to save everyone's life will come to an end in a

(11-14-2005) Chapter 9, page 14 of 40

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

"time, times and half a time." In his last attempts to forever wipe out the Jews and the saints, Satan will destroy the Temple in Jerusalem on 25 July 2015 (9 Av 5775). This date coincides with the second Jewish fast day.

In the 7-based system, this vision applies to the *Cheth* Age of the Mini-Apocalypse. The word *shattering* means that Israel's citizens must escape into the mountains and desert regions to join with the surviving Israeli armed forces. There will be a massive flight from an Islamic mob gone crazy. It will be a horrible battle that the Israelis will not win.

On 4 September 2015, God's anger will be aroused, and He will intervene by releasing the greatest earthquake ever to rock the earth in order to save Israel. This miracle will rank with the Flood as one of the biggest miracles in all of history.

9. **Daniel 7:12:** ("a season and a time" NRSV). See explanation in Observation #10. Two concepts are indicated here: a "season" and a "time." Each period is a different length. That is why Daniel made the distinction. It indicates the end of the "beast" time 1,260 days after the assassination of the EU president.
10. **Daniel 8:14:** A new sanctuary will be consecrated 2,300 days after the beginning of the Mini-Apocalypse on 4 January 2012. The foundation of the Fourth Temple will be laid about 24 May 2018. Four days prior, all of Israel will have celebrated the Feast of Weeks (6 *Sivan* 5778) also called Pentecost. I am sure this holiday will be extended for a new national holiday for the future. Observation #8 tells more about this.
11. **Daniel 12:12:** This verse refers to a time of blessing for those who will survive the Apocalypse. Officially the Apocalypse will be over on **21 December 2015**, 9 *Tevet* 5776 – the Fast of the Tenth Month. However, the Bible says that the allocated time will be cut short because of the severity of persecution, so by **the end of these 1,335 days on 18 September 2015**, the Apocalypse is basically over. The survivors will then begin to gather together and return home. (Matthew 24:22; Isaiah 11:11-16)

Previously, by Friday, 4 September 2015 (19 *Elul* 5775) the four death angels will have killed one third of the world's remaining population. Passing over Israel at the same time, millions of annually migrating birds will arrive to eat the dead bodies lying around Jerusalem. These bodies will be the remains of the armies that had attacked Israel and Jerusalem.

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

These birds will be on their migration route and will “just happen” to be there at the right time to fulfill prophecy.

Friday, 18 September 2015 (5 *Tishri* 5776) is two days after the Fast of Gedaliah on Wednesday, 16 September 2015 (3 *Tishri* 5776). Five days later on 23 September (10 *Tishri*) Yom Kippur is celebrated perhaps for the first time as a feast instead of a fast. (Zechariah 8:19)

12. **Daniel 12:11:** The 7-Year Table of the Apocalypse shows the start of this 1,290 day prophecy in the first month of the 6th Period (Sunday, 8 *Kislev* 5772 or 4 December 2011). This day starts the Mini-Apocalypse as Antichrist terminates the daily sacrifice offered at the Temple.

About a year later this man, the President of the EU, will be assassinated. After three days He will regain life because Satan will indwell and resuscitate Antichrist's dead body by his presence after being cast out from Heaven on 21 December 2012. To convince the world that He is the resurrected Messiah, an abomination will be placed in the Temple, which will be some kind of personal image. It will offend the Jewish people in the grossest way possible. The satanically indwelled Antichrist will demand to be worshiped as the resurrected Messiah. This event is also confirmed in the Aztec and Chinese calendars.

13. **Daniel 9:27:** Daniel's 70th Week in the 7-based system provides the 7-year parameter for the total length of the Great Apocalypse. For more discussion about this floating prophetic week of 7 years, see Chapter 7.

14. **Daniel 9:24:** This verse has another application that could apply from the perspective of the 5-based system. In the 5-based system one prophetic week equals 50 years, thus a "time, times and half a time" would refer to 3,500 years. This 5-based perspective connects the end of the Jewish people's Babylonian captivity in 518 BC with Satan's last rebellion just before the end of the millennium at AD 3018. Now Satan finally comes to the appointed time of his permanent destruction. (Revelation 20:7-10) See also Chapter 7.

These two aligned and overlying prophetic events from one verse again demonstrate an important principle of prophetic interpretation. Like mountain peaks with hidden valleys, here we can see a near fulfillment and a far-off in the future fulfillment in God's plan with an unseen period of time between them. The near event will take place during the Apocalypse,

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

and the more future second occurs at the end of the millennial *Teth* Age.

Here is a summary of the Mini-Apocalypse's traumatic, earth-shattering events as prophesied by Daniel and John:

1. On **21 December 2012** Satan will be cast out from Heaven and his dominion on earth will probably **end** on the third fast, the Fast of Gedaliah, on 16 September 2015, which coincides with the final purging of the earth by the four death angels. (Revelation 12:7)
2. The official end of the world's Babylonian evil economic, religious and governmental system will be observed on **21 December 2015**. All evil people and angels will have been eliminated. They will have no place in God's kingdom since they would only cause trouble. According to the sheep-goat selection process, God will have decided who will live and who will be removed from the earth by death.
3. After the end of the Apocalypse, the First Resurrection of the dead will take place. My best guess is this will probably happen on 24 December 2015, but "no one knows the time."
4. Jesus Christ will be crowned King of Kings. I believe that this event will coincide with the Jewish Jubilee in 2018.
5. A new world government will be established by 2018.
6. At the second coming of the Lord, God's eternal city, the heavenly Jerusalem, will be placed in orbit around the earth like a second moon suspended over her earthly counterpart.
7. Israel will be elevated to the place of prominence among the nations in order to honor God on earth. Centered in the Temple at Jerusalem, the Israelites will teach God's laws around the globe and become the timekeeper again (2018-3018).

In just a few short years Israel will suffer its last hate-based holocaust, which the Bible refers to as "Jacob's Trouble." (Jeremiah 30:7) This time of terrible trial is popularly referred to as the Apocalypse by many Christians. When it is over, God will instigate a final re-gathering of any remaining children of Jacob from the four corners of the earth. He also promised to preserve a remnant of the Gentiles, just as He did in the days of Noah's Flood in order to repopulate the earth. But unlike the Flood, not everything or everyone will be destroyed because God will be more lenient and merciful this time around.

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

Many Christians around the world have worked for social justice and concern for the poor. They have tried to eliminate misery despite much opposition and persecution. Christians have always been first to help in disasters around the world, and they did not shrink away even when many were assassinated by religious extremists. They are the salt in a corrupt world and a light of hope to the needy.

The Apocalypse will end Islamic hatred and confusion about the true God of Abraham, Isaac and Ishmael. This will be a direct result of Satan's imprisonment in a special abyss until after the millennium. All of his false religions and worldly philosophies will be terminated.

Observation #6 (*Waw*) -

The Middle of the Apocalypse and the Return of the *Shekinah* to the Fourth Temple

Waw in Hebrew means "connect." Through the Hebrew Alphabet Number System, I discovered a very unusual connection between the Apocalypse and the Lord Jesus Christ's last days on earth. Using my research methods, I determined that the crucifixion took place in 33 AD.

By the Sunday morning after the crucifixion, Jesus had already risen from the dead because Scripture states that He would be in the underworld of Hades only three days and nights. After 40 days of appearances to His friends and over 500 witnesses, Jesus visibly ascended through the clouds into Heaven. Two angels told the disciples that Jesus would return "in the same way as you have watched Him to into Heaven." (Acts 1:9-11)

As one might expect, the disciples had a few last questions just before Jesus left. They had seen Jesus pass through walls and disappear at will. His body had been transformed into the immortal resurrected substance of the *Heh* dimension. Certainly He could now "come in the clouds" as prophesied by Daniel. Would He do so as He had declared that He would at His trial? (Daniel 7:13-14; Matthew 26:64)

But Jesus said that it was not for the disciples to "know times or epochs which the Father has fixed by His own authority." (Acts 1:7) Instead, Jesus promised them the power of Holy Spirit so that they could be true witnesses of the gospel throughout the world.

Sent to Jerusalem by Jesus' last words, the disciples had to wait ten more days because God is a master of timing. Jesus did not just give them the power by breathing on them in the Upper Room, nor did He bless them with it at His ascent. God as the Three-in-One waited for the right moment on the right day, the Jewish feast of Weeks or Pentecost.

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

On that day God made a down payment on His promise to establish His kingdom on earth: the out-pouring of His Holy Spirit. (Acts 2:1-13) To the Jewish people, the Feast of Weeks or Pentecost commemorates the giving of the Ten Commandments on Mount Sinai: it is the Word of God expressed in the form of commandments to guide one's life. At that eventful Pentecost of 33 AD, the Holy Spirit as the Living Word was given to empower the faithful to life eternal.

The Holy Spirit is a perfect force only capable of activity in conformance with the will of the Father and the Son. The Holy Spirit comes to dwell within a new believer. By His presence a believer is enabled to obey God as He or she is guided through this life in Jesus' absence. The indwelling Spirit and obedience to the Bible work together to transform the new creation within us into the fullness of Christ. You should read all about that event in the Bible to get informed.

Lord, is this the time when you will restore the kingdom to Israel?
(Acts 1:6 NRSV)

He answered:

It is not for you to know the times or periods that the Father has set by his own authority. (Acts 1:7 NRSV)

When I read these verses my mind reflects on what lies behind the obvious, external story. I look through the telescope of Bible prophecy to find hidden meanings. Usually, I see at least two mountain peaks. This verse addresses two questions:

1. Foremost is the expectation of Israel's restoration under the Messiah in the *Daleth* dimension, and
2. Second is the expectation of the arrival on earth of the Kingdom of God representing the *Heh* dimension.

Sure enough, I recognized two dates tightly bound together like the two rails of a railroad track. Israel's hope for thousands of years has been that they would again be a kingdom with their own king like David. There are many prophecies about such a kingdom ruled by a descendant of King David, the Messiah. This was the messianic concept in the minds of the disciples when they learned that Jesus, who they thought was the fulfillment of that ancient hope, would soon leave them.

After the fact of the resurrection the disciples had no doubt that Jesus was the promised Messiah and Son of God. Their hopes were not dashed, but neither had their understanding of the coming kingdom changed, so their question was "when" and not "if" or "who."

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

When the question was asked, it presented a little difficulty for the Lord to answer. In the disciples' question about the future restoration of the kingdom of Israel, I saw through the far and near prophetic lenses that their question and the answer must connect (*Waw*) with the Temple.

Religious life in Israel cannot be separated from God's chosen place of worship for them. For this reason dates surrounding events at the Temple have always been important chronological markers in God's plan for humanity. Gentiles, the other nations, do not have that problem. For the Jewish people the Temple is where the spiritual eternity of the *Heh* dimension connects with the material temporality of the *Daleth* dimension.

First-century Christians could not understand the plan of God for the ages because the Bible was not yet complete. Today, not only do we have the book of Revelation, but we also have the perspective of being able to look back at history. In particular we have events such the return of the Jewish people to their land and the liberation of Jerusalem in 1967.

These two events of recent history provide important new facts unavailable to the early disciples that make it possible for us to now estimate when the Apocalypse will begin and end, as well as some other future dates. The cuckoo clock gears are fixed and embedded in Scripture, and only through this methodology of gears, cycles and overlaid alignment, can we determine the future dates of events prophesied to take place during the Apocalypse with some degree of certainty.

Let's identify the two mountain peaks. The plural form of time ("times") indicates two thousand years. Adding two thousand years to the date of Jesus Christ's last day on earth in May of 33 AD (or AD 33.366), brings us to $(2000 \times 33.366 = 2033.366)$. Multiplying 2033.366 by the conversion factor of 1.0145 (to convert 360-day Hebrew years to our 365.24-day years) brings us to 2062.849. The fraction .849 converts to 310 days, which is ten months. When I add it to May, I come to the month of October 2062.

Interestingly, **1 Tishri 5823** (Rosh Hashanah, the Feast of Trumpets, the first day of the Hebrew civil year) falls on **5 October 2062**. I believe that this date marks the possible return of the Shekinah – the return of God's presence to the newly completed Fourth Temple. If so, it would mean that it will take 44 years $(2062 - 2018 = 44 \text{ years})$ to finish building the temple complex so that it will be able to receive the millions of tourists who will come to observe the Feast of Tabernacles from around the world. (Zechariah 14:16)

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

The Fourth Temple complex in the millennial Jerusalem will be far bigger in size than the Vatican is today. It will be a city within a city for the world travelers who come to see the Temple and worship Yahweh, the God of the universe. Herod's Second Temple had been under construction for 46 years at the start of Jesus' ministry and was still not complete. (John 2:21) In fact it took over 80 years to complete the construction of the Second Temple, which gives us an indication that 44 years of construction for the Fourth Temple is not farfetched.

If you look at the 12th Period Table you will notice that Daniel's prophesied 2,300 days begins on 4 January 2012 during the 6th Period of the 7-year Great Apocalypse. The 2,300 days will end in May of 2018. I believe that this is the date when the first foundation stone will be placed for the Fourth Temple. This is the month of our secular year when the feast of Pentecost normally occurs. Thus, just as the giving of the Ten Commandments and the outpouring of the Holy Spirit are foundation stones in the spiritual temple that God is building, so it seems likely that the material foundation stone of the Fourth Temple will be laid on that day. The last stone will be put into place prior to 5 October 2062. To learn more about what happens when the *Shekinah* glory of God enters that new temple, read Chapter 9 in *Apocalypse Prophesied*.

Let's return to the near vision peak and connect it to the disciples' question, "Will you now restore the kingdom to Israel?" Again we are dealing with events concerning the Temple, and these events always connect to other dates.

From **5 October 2062**, the completion date of the Fourth Temple, we must now count back a 50 year Jubilee or restoration gear. It brings us to October 2012 (October 2062 - 50 = October 2012). October 2012 falls within the 7th Period of the Great Apocalypse. It comes after the beginning of the Mini-Apocalypse and shortly before **21 December 2012**, when Satan is cast out of the heavenlies.

As the Mini-Apocalypse persecutions against the Israelis and faithful believers steadily intensify from the 6th Period, many will ask the same vital question once voiced by Jesus' first disciples, "When?" Remember, hopeful expectations of many religious Jews had risen when the Third Temple was built. But Antichrist will stop the ritual sacrifices in the Temple. Once again in history, Jewish hopes will be crushed when the Temple is violated during the 6th Period of the Apocalypse. Tens of thousands of Israelis will be butchered by international wars and Muslim mobs.

Anciently, Jesus answered this question of "when" through the lens of the far-view vision that only the Father knows the hour, yet God will

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

establish the kingdom as scheduled. The day approaches. Two more months and we will arrive at dead center of the Apocalypse – **21 December 2012**, which is point in the 7,000-year plan when God's kingdom is born in the *Heh* dimension. From then on the heavens are purged of all rebellious evil angels.

Following my analogy of the placenta, Satan's presence in the Second Heaven is removed and cast down to earth. Since the *Heh* dimension does not have clocks, Jesus could not give you an hour for the birth of the Kingdom of God, which is another reason why "only the father knows." But the railroad system has a schedule in the *Daleth* dimension so that we can project the planned points in time when the events linked to the coming Kingdom of Heaven intersect with our *Daleth* dimension timeline. From the beginning, this system of clock gears was incorporated into the cosmic calendar as marked by solstices, equinoxes and the rest of the Hebrew Alphabet Number System so that Jesus could not tell us the date for the birth of the Kingdom of Heaven. We need the mirror image of the *Daleth* dimension to find the date in Heaven because we do have clocks here on earth.

Observation #7 (*Zayin*) -

Forecasting the Two Apocalypses (21 December 2012)

The Bible teaches that one Apocalypse will occur in Heaven and another one on earth. Both will take place during the 7th Period of the 7-Year Table of the Apocalypse (23 June 2012 to 21 January 2013).

The Bible prophesies a time when there will be war in Heaven and Satan will be cast out with all the fallen angels who followed him. On the *Daleth* clock, this event (or cuckoo) will take place on the 1st day of the 7th month of the 7th Period of the Apocalypse, which is 21 December 2012. (Revelation 12:7)

The war in Heaven aligns with the 7th Cycle of the 7,000-Year Table of Human History (588 BC), where it parallels the time when the Jewish Temple was destroyed by Babylon in 588 BC. Here is another example of a perfect overlay between these two tables. This particular solstice date can be further verified by information from the Aztec, Chinese and Hebrew cultures.

Information from the Aztec Culture

The Aztec Calendar has existed for approximately 5,125 years – since before Noah's flood. This calendar ends on a precise date in the future. The ancient Aztecs predicted that a serpent will come to earth and their

(11-14-2005) Chapter 9, page 22 of 40

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

world will end on **21 December 2012**, so there was no reason for the calendar to continue beyond it.

In the 7th Period of the Apocalypse (22 June 2012 to 21 January 2013), the 1st day of the 7th month is 21 December 2012. This day is the precise date predicted by the Aztec calendar for the world to end. An absolute bull's-eye! Let me reiterate. This special calendar date intersects with the 7-Year Table of the Apocalypse at only one point in history - at the first day of the seventh month of the 7th Period of the Great Apocalypse. The fact that many independent calculations and sources overlay on this date alone proves that we are dealing with divine forces of prophecy beyond our imagination and control.

Notice the numbers here: 7th month of the 7th Period ($7 \times 7 = 49$) plus the 1st day equals 50, which is *Heh* raised to a higher level (5×10). Even when we add the digits of 2012, we get $2 + 0 + 1 + 2 = 5$. Combined together, they become strong indicators of all having come from the "other side."

Information from the Chinese Culture

The Chinese believe that birthdays have cosmic influence. Chinese chronological records date back to approximately 2637 BC, which is before the date of Noah's Flood. The Chinese Zodiac is as old as the Hebrew Scriptures, and the two contain many similarities. Both traditions state that the laws of the universe are predetermined and contain a design structure. As history unfolds, it follows a path of planned arrangements.

Year	Animal	Characteristics
2009	Ox	Bright, Inspiring
2010	Tiger	Aggressive
2011	Rabbit	Peaceful, Affectionate
2012	Dragon	Eccentric, Complex
2013	Snake	Vain, High Tempered
2014	Horse	Attractive, Impassioned
2015	Sheep	Creative, Elegant
2016	Monkey	Enthusiastic
2017	Cock	Pioneering, Knowledgeable
2018	Dog	Loyal, Honest
2019	Boar	Noble, Filled with Strife
2020	Rat	Ambitious

The **Chinese Zodiac**¹ consists of 12 cycles, starting with an ox—similar to the **Hebrew Alphabet Number System**, which starts with *Aleph*, meaning "steer head." This implies that they both have their origins at the same time and place on earth. *Aleph* also means "one God, the Creator of the universe." When I compared the Chinese animal years to the periods of the Apocalypse, I was astounded that they aligned so incredibly.

2009 The Year of the Ox

The "ox year" in 2009 matches the 1st Period of the Apocalypse. In the Hebrew Alphabet Number System, the number one (1) means *Aleph*, "steer head," and they align with *Nisan*, the first month of the Jewish religious year.

These 12 animal signs are repeated 5 times within each 60-year cycle of the Chinese calendar. Each of these 5 cycles possesses different ranking orders at each level. For example, the 5 types of dragons and the years associated with them are:

1. earth dragon (1868, 1928, 1988)
2. metal dragon (1880, 1940, 2000)
3. water dragon (1892,1952, **2012**)
4. wood dragon (1904, 1964, 2024)
5. fire dragon (1916, 1976, 2036)

Astrological signs are believed to influence people born under them. The dragon and the serpent signs describe Antichrist and Satan perfectly. After thousands of years these cycles just "happen" to align perfectly with what is predicted for the Great Apocalypse so that the Chinese animal characteristics perfectly describe the apocalyptic years. This concept just boggles my imagination!

2008	2009	2010	2011	@ 2012	2013	2014	2015	2016	2017	2018	2019	
	RAT	OX	TIGER	RABBIT	DRAGON	SNAKE	HORSE	SHEEP	MONKEY	COCK	DOG	BOAR
Chinese Calendar @ Aztec Calendar ends 21 December 2012												

¹ Theodora Lau, *The Handbook of Chinese Horoscope* (New York: Harper & Row, Publisher, 1979).

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

2012, the Year of the Dragon

The Chinese water dragon is symbolized as a male emperor with supernatural powers. He is considered the guardian of wealth and power. He intimidates those who would dare challenge him. The dragon seldom minces words. He is inconsiderate and easily provoked. He cites his views like imperial edicts. Although He may rave about the virtues of free speech and democracy, He believes himself to be above the law and does not practice what He preaches.

According to the 7-Year Table of the Apocalypse, Satan will be cast out of Heaven and appear on earth in 2012. The Chinese calendar indicates that 2012 (the 7th Period of the Apocalypse) will be a Year of the Water Dragon.

Every Year of the Dragon is followed by a Year of the Serpent. As we have seen, the Scriptures state that Satan will be cast out of Heaven following a war, and He will be followed by the second persona of a resurrected Antichrist. (The dragon will be followed by the serpent.)

These descriptions of Chinese attributes correlate perfectly with the information the Bible has given us about Satan and Antichrist. No other time cycle would fit. This is one more indication that the timing I have presented for the coming Apocalypse is valid.

2013, the Year of the Serpent

The Chinese word for serpent (or snake) is *She*. It is sixth in the ranking order and corresponds to the element of fire. Chinese astrology describes the serpent/snake as someone who, when his anger is aroused, reveals unlimited hatred. His antagonism is silent and deep-rooted, and he ruthlessly crushes his enemies. The Chinese people believe that disasters that occur in a Year of the Dragon will culminate in a Year of the Snake. Calamities during Snake years are often the result of excesses committed during Dragon years. This is a very accurate description of Antichrist during the Apocalypse.

The snake is gifted with strong charisma; He is shrewd, business-minded and materialistic. He possesses great mental abilities and powers of concentration. He has the patience of Job, but He bites like a king cobra—a deadly combination.

Antichrist will make his resurrected appearance in 2013, a Year of the Serpent. The number thirteen (13) means "depravity" or "rebellion." The dragon is mentioned thirteen times in the book of Revelation: 12:3;

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

12:4; 12:7 [twice]; 12:9; 12:13; 12:16; 12:17; 13:2; 13:4; 13:11; 16:13; 20:2.²

2015, the Year of the Sheep³

The ancient Chinese believed that the way back to Heaven required the sacrifice of an unblemished sheep to make atonement for their sins. Their offering was made to ShangDi, the righteous Creator, on the Mount Tai in Shandong Province. Chinese history records that an emperor of the Shi Ji period built an altar so that the proper sacrifice could periodically be made to ShangDi, the good Creator.

The center of this magnificent Temple to Heaven stood a three-tiered, white marble Altar of Heaven. The altar was built in concentric circles using dimensions based on ever-increasing multiples of nine. The altar was 75 meters in diameter, and each level was surrounded by a white marble railing. In the center of the top tier was placed a singular circular stone called "The Heaven Heart Stone" that served as the altar for the bull or sheep sacrifice.

Confucius, a philosopher and compiler of Chinese Classics, 551-479 BC considered the sacrifice to ShangDi so important that he made this statement, "*He who understands the ceremonies of the sacrifices of Heaven and Earth....would find government of a kingdom as easy as a book into his palm.*"

The Technical Journal where I found this information also documents where the Lamb of God is hidden in the ancient Chinese characters. These discoveries interest me because they overlay the Apocalypse. I am amazed at the many parallels between the ancient Chinese sacrifices and the ancient Hebrew religious practices.

Near the end of 2015 Jesus Christ will appear in power, and many will experience a resurrection. Jesus is often referred to as the Lamb of God in the Bible. That the Chinese calendar with the Sheep-lamb year falls on 2015 is extraordinary. Furthermore, correlations also exist between the overlay of the Ox at the beginning of the Apocalypse with the overlay of the Dragon/Serpent in 2012 at the middle of the Apocalypse. I knew nothing about these Chinese calendar alignments with the Apocalypse when I started my research two years ago. I had discovered the dates in 2008, 2012 and 2015 independently from this additional source of extra-biblical confirmation.

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

The Chinese perceive the sheep as a blessing from God because it resolved conflicts as the bearer of the people's sin. They understood the concept of sin and the need to resolve the resulting separation between God and themselves that automatically comes about because of sin. The sacrifice of a sheep enabled a relationship between the sinner and the Creator through the acknowledgment of the divine need for righteousness. The Chinese also noticed that a young sheep will kneel down to suck milk from the mother's udder. This act of kneeling down to obtain milk represents humbleness and respect, values cherished in their culture. Thus to the Chinese, the sacrificial sheep symbolized many moral virtues such as truthfulness, kindness, reconciliation, righteousness and eternity. These symbolic attributes were similarly understood in the Hebrew culture.

Information from the Hebrew Calendar

Then another portent appeared in Heaven: a great red dragon, with seven heads and ten horns, and seven diadems on his heads. His tail swept down a third of the stars of Heaven and threw them to the earth. Then the dragon stood before the woman who was about to bear a child, so that He might devour her child as soon as it was born. . . .

And war broke out in Heaven; Michael and his angels fought against the dragon. The dragon and his angels fought back, but they were defeated, and there was no longer any place for them in Heaven. The great dragon was thrown down, that ancient serpent, who is called the Devil and Satan, the deceiver of the whole world—He was thrown down to the earth, and his angels were thrown down with him. (Revelation 12:3-4, 7-9 NRSV)

As explained above, the Jewish calendar helped me to choose **21 December 2008** as the date for the beginning of the Apocalypse. The Aztec and Chinese calendars confirm these precise dates and they do not merge at any other future time.

It is incredible that these three calendars match up perfectly with Bible prophecy. The Bible clearly states that Satan's domain will end in Heaven, and I place it during the 7th Period of the Apocalypse. (See the 7-Year Table of the Apocalypse.) First, we pinpointed its timing to the year 2012, then to the 7th Period of the twelve 7-month long periods of the Great Apocalypse. Finally, we come to the 1st day of the 7th month (21 December 2012 to 21 January 2013) of the 7th Period, which is 21 December 2012. In addition to all of the above, it is again a solstice date that cannot be manipulated by any human calendar!

The Mystery of Tammuz 17
Ancient Hebrew keys to dating the Apocalypse

Hebrew Calendar												
	ADAR	NISAN	IYAR	SIVAN	TAMMUZ	AV	ELUL	TISHRI	HESHVAN	KISLEV	TEVET	SHEVAT
	12	1	2	3	4	5	6	7	8	9	10	11
	2008	2009	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019

The 1st day of 7th month of the 7th Period can be expressed as (7x7=49) + 1 = 50, which possesses numeric significance as the Jubilee year. Fifty is a strong expression of the *Heh* which gives us a viewpoint from the heavenly perspective.

Thus, 21 December 2012 begins a new cycle of apocalyptic intensity with Satan's ouster from the heavenlies of the *Heh* dimension. (Revelation 12:13) Since the 7-Year Table of the Apocalypse overlays the 7,000-Year Table of Human History so perfectly, including the Aztec and Chinese calendars, the key future events as laid out in those tables can only happen on the dates indicated. For example, the key events that will take place on 21 December 2012 agree perfectly **across all three calendars**. No other dates would or could fit.

**Observation #8 (Cheth) -
Forecasting the Dedication of the Fourth Temple**

According to my interpretation of Daniel's prophecies, the Mini-Apocalypse will occur from 4 December 2011 to 17 September 2015. During that time, Jews and Christians will suffer tremendous persecution by Antichrist. But the forecast in Daniel 8:14 is extended 2,300 days or 6.3 years from 4 January 2012 to about 24 May 2018, which is beyond the end of the Great Apocalypse.

Great Apocalypse												
2008	2009	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	
			Mini-Apocalypse								*	
* Daniel's 2,300 Days *												

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

The tables align to predict that the biggest global earthquake ever to take place in history will begin toward the end of the Mini-Apocalypse on 4 September 2015. This earthquake will last 13 days and destroy the city of Jerusalem including the Third Temple and the nearby Islamic mosques. The entire city, including all of its cultural monuments and structures from antiquity, such as its many old churches, will totally vanish in the rubble.

Let me tell it again. None of today's structures considered "holy places" will remain standing. The famous churches, mosques and temples will be absolutely reduced to desecrated debris and rubbish. No trace of these buildings will ever be known to future generations, and the reason is very clear. They represent the polluted religions of Satan's domain that blind the peoples of all nations with lies and deceptive theologies. Corrupted by wealth and political power, the religious organizations represented by these famous structures obstruct and confuse the truth. God has promised that the abomination of false religions will never be experienced on earth again.

This earthquake strikes all around the globe and will cause horrendous geological disturbances everywhere. Its effects are so extensive that it will raise one third of Jerusalem's area to form a high mountain. After two years of simple and essential recovery towards normalcy following the Great Apocalypse, a Fourth Temple will be constructed anew on the highest point of this mountain, right over large, newly exposed springs. These springs will turn into a river that flows to the Dead Sea basin. (Ezekiel 47:1-12) I have labeled this new era in the tables as the "Third Civilization." (The first was before the Flood; the second is now.)

An age of great blessing begins on 18 September 2015 when there will be no more wars or conflicts around the globe. When the door of the ark was opened in Noah's day, the survivors enjoyed their newfound freedom, and Noah planted a vineyard as an indication that normal times had returned. Similarly, people surviving the Mini-Apocalypse will have reached the days of blessing when they will begin the process of renewal by planting gardens and vineyards.

The Fourth Temple's foundation will be erected according to the blueprint in Ezekiel 40. Daniel 8:14 states that the new temple sanctuary countdown of 2,300 days prophesied will start on **4 January 2012**, which is near the midpoint of the seven-year Apocalypse and near the beginning of the Mini-Apocalypse.

The inauguration of the Fourth Temple will take place 2,300 days later on 24 May 2018. This period of 2,300 days - six (6) years, four (4) months, and twenty (20) days—will end on **10 Sivan 5778** (24 May 2018), which falls within the week the celebration of the early

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

harvest feast of First Fruits. This Jewish holiday is also known as the Feast of Weeks or Pentecost will be celebrated four days prior to that date on *Sivan* 6.

Since *Sivan* is the 3rd month of the Jewish year, the Hebrew Alphabet Number System would indicate a correlation to "a divine completeness/perfection." In the 7th month, Bible prophecy foretells the laying of the foundation of the Fourth Temple, which will synchronize with the celebration of the first Jubilee (1968 + 50 years = 2018).

Then I heard a holy one speaking, and another holy one said to the one that spoke, "For how long is this vision concerning the regular burnt offering, the transgression that makes desolate, and the giving over of the sanctuary and host to be trampled?" In addition, He answered him, "For two thousand three hundred evenings and mornings; then the sanctuary shall be restored to its rightful state."
(Daniel 8:13-14 NRSV)

Observation #9 (*Teth*) -

The Hebrew Date for the Beginning of the Apocalypse

God's Word is multidimensional and contains information on many different levels. The Hebrew Alphabet Number System has embedded information that I compare with human DNA.

Within each human cell are embedded forty-six chromosomes.⁴ By examining different chromosomes, scientists can determine which cells are healthy and which ones may have damaged genes buried deep within the nucleus that could develop into cancer. In a similar way, by examining biblical prophecies and comparing them to the Hebrew Alphabet Number System, we can find information buried within the structure of numbers.

We have determined that the Apocalypse will start on 21 December 2008, which in the Jewish calendar is 24 *Kislev* 5769, the eve of Hanukah. Let's dissect that date. *Kislev* is the 9th month of the Hebrew calendar. The year 5769 can be written as 9 x 641. The number 641 is dissected as (6 x 100) + 40 +1. Therefore, this date can be expressed as follows:

24 *Kislev* 5769

⁴ Popular Science Magazine April 2004, volume 264 #4, page 39, News headline, *A Contrarian View of Cancer* (Peter Duesberg).

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

24 (day), 9 (the month *Kislev*), $9 \times [(6 \times 100) + 40 + 1]$ (the year 5769)

24 • 9 • 9 • 6 • 100 • 40 • 1

- 1 (*Aleph*) means "eternal God," Jesus Christ (the Alpha and the Omega).
- 6 (*Waw*) means "connect."
- 9 (*Teth*) means "new life."
- 40 (*Mem*) means "life dimension with purpose."
- 24 means "priesthood."
- 100 expresses *Aleph* (the GodFather) on the third level.

The number six (6) in the middle connects (6 = *Waw*, which means "connect") two groups of numbers: 24-9-9 and 100-40-1. In Hebrew we start from the right side and move to the left so we will look at the last group first. The Father's blueprint plan connects Jesus, the *Alpha* and *Omega* (100-40-1) and high priest, with the plan's implementation of new life in fulfillment of the Bible's promises. (Hebrews Chapters 7 & 8)

Interpretation of 100-40-1

- 100—God existed from eternity past in the highest domain, which is expressed as 100. Everything is under His control, no matter what man does. He is the *Alpha* (one), the Creator of the universe (three digits).
- 40—This number means "in this time" (4) with "purpose." It is compared to an ocean and you are in the middle of it swimming endlessly until...and that is decided by you. God will implement His blueprint, which was set before the foundation of this world. This blueprint connects (the middle 6 - *Waw*) with the Apocalypse at the appointed time-life dimension (40).
- 1—The number one (1) represents the Alpha and Omega, Jesus Christ. He is the beginning and end of the time dimension. (Check out the World Cuckoo Clock.) He is the beginning and end of all in the universe (*Heh* = "the other side"), and He promised a glorious return to earth.

Interpretation of 24-9-9

- The number 9 (*Teth*) is mentioned twice (the month and the first digit in the equation representing the year). This indicates that the message of new life is very important. While death will reign

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

on a massive scale on earth during the Apocalypse, the Lord reminds us that in the end there will be a double life standard and the earth will continue. Many people will receive eternal life in the midst of this great destruction on earth.

- The two 9s indicate "life on two levels." The heavenly kingdom that was previously established in Heaven will come to earth. This represents the first number 9 coming from Heaven. At the same time, all the saints who formerly died will be resurrected and translated into eternal bodies. (This is called the Rapture in many Christian circles.) They will be found worthy to live forever, and they will go up in the cloud to meet their Lord. This represents the new life (the second number 9) that will start from earth. Both "new life" groups will continue in the new earthly kingdom for a thousand years of peace, and because they represent a special group in the economy of God, they are compared to the priesthood. In Heaven, they will praise God forever, and on earth they will direct God's plan for this earth.
- Jesus as high priest (24) connects humanity (6 = *Waw*) with the Father (100). He is the Alpha-Omega (1) in the time dimension of *Daleth* to give it purpose (40).

Observation #10 (*Jod*) - Forecasting the End of the Apocalypse (2016)

I watched then because of the noise of the arrogant words that the horn was speaking. And as I watched, the beast was put to death, and its body destroyed and given over to be burned with fire. As for the rest of the beasts, their dominion was taken away, but their lives were prolonged for a season and a time. (Daniel 7:11-12 NRSV, emphasis added)

Daniel mentions "a season and a time." Antichrist will be killed and his body destroyed by fire, but Satan's life will be prolonged for "a season and a time" after the Apocalypse. (Revelation 20:3, 7-10)

This tenth observation (10 = *Jod*) on the World Cuckoo Clock indicates something beyond the Apocalypse that connects with a higher level. When I started out aligning these observations, I did not give any particular attention to their sequence. But I was amazed to discover that they also align perfectly.

"Time" here means a thousand years. Counting backward from 3018, we arrive at 2018. "Season" refers to a shorter period. A "season" of a

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

little more than two years occurs between the last cycle of the Apocalypse (2016) and the start of the one thousand years that will begin in 2018. During the "time" (one thousand years) plus the "season" (several months), Satan will be locked up.

Some of the more modern versions of the Bible translate "a season and a time" as simply "a period of time." Understanding the Hebrew Alphabet Number System makes such discrepancies in the more liberal translations obvious:

3017 – 1,000 = AD 2016 plus a season.

Observation #11 (Judgment/Disorder) - Analyzing the Middle of the Apocalypse

The Aztec culture tells of a serpent coming from Heaven, which coincides with Satan being cast out as recorded in the book of Revelation. This event will occur on 21 December 2012. The equivalent Hebrew date is 8 *Tevet* 5773, which is remembered in Jewish tradition by fasting on *Tevet* 10 to commemorate the beginning of Nebuchadnezzar's siege of Jerusalem.

Tevet is the tenth month of the Hebrew calendar. The year 5773 can be expressed as 251 (200 + 50 + 1) x 23. The number twenty-three (23) can be expressed as (13 + 10) or (12 + 11). To analyze this date we can write it as follows:

8 Tevet 5773 (21 December 2012)

8 (day), 10 (the month *Tevet*), (200 + 50 + 1) x 23 (the year 5773)

8 • 10 • 200 • 50 • 1 • (13 + 10) or (12 + 11)

The Hebrew Alphabet Number System provides the following meanings for these numbers:

- 1 (*Aleph*) means "eternal God" ("I am the Alpha and the Omega," Revelation 21:6)
- 8 (*Cheth*) means "fenced in."
- 10 (*Jod*) means "law/responsibility," "hand," or "a higher level."
- 11 means "judgment."
- 12 means "divine authority."
- 13 means "rebellion" or "depravity."

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

- 23 means "death."
- 50 (*Nun*) means "life with purpose."
- 200 (*Resch*) means "insufficiency."

On 8 *Tevet* 5773 (21 December 2012) Satan will be arrested and confined (8 = *Cheth*). He will be judged according to eternal law (10 = *Jod*). The presiding judge will be God the Creator (1 = *Aleph*). The law contains the rules of "life with purpose in the *Heh* dimension" (50 = *Nun*). According to that law, Satan will be found "insufficient" (200 = *Resch*), and the verdict will be pronounced "death" (23). The first stage of this sentence is his expulsion from Heaven, the second is his confinement in the abyss and the last is his destruction in the lake of fire. (Revelation 12:7-10; 20:1-3, 7-10)

Satan's death sentence will be dual in nature:

1. (*Heh* dimension) 13 + 10 would represent a depraved rebellion (13) judged with the law (10) and found guilty. Sin and the law bring death (23).
2. (*Daleth* dimension) 12 + 11 would indicate the divine authority (12) pronouncing judgment (11), ending in death (23).

Observation #12 - (Perfection in Government)

Analyzing the End Date for the Apocalypse

My World Cuckoo Clock shows the number ten (10) right under the space designated as the Kingdom of the Light. *Jod* (10) means "the hand at rest." It belongs to a higher level in the cosmos. A new world cycle will start, which we call eternity. *Jod* will be preceded by a resurrection cycle (9 = *Teth*).

A few days before the first publication of this book, I went through a period of unexplained restlessness. I wondered if something was missing. I was willing to burn the book if God so led. I never anticipated any financial gain from putting it on the Internet, and the time spent writing it did not matter to me, because the time and effort was for my benefit in learning God's Word. In prayer I asked the Lord if this book needed additional proof. I needed His full approval, because He is the divine Clock Maker; I am only a student learning from Him.

I realized that the month of *Tammuz* was the key to my timing predictions, so this became a strong candidate for reconsideration. I wanted a second witness from the other side to corroborate my prediction. All the proofs I had up to that point were on the 7-based

The Mystery of *Tammuz* 17

Ancient Hebrew keys to dating the Apocalypse

Daleth dimension level. The numbers happened to fit, and I hoped my prediction would cause many people who might read this book to make the decision to save themselves from the immediate “surprise” threat of New York’s destruction.

But my book could also cause a lot of misery if these events were delayed. A two-week difference might not seem like much in the scheme of 7,000 years, but for me, the gears of the clock had to fit perfectly.

I double-checked everything, and it all seemed to fit. But deep down I knew something was missing. Although the facts neatly aligned themselves, I felt that a key was still shrouded somewhere. I needed proof from something beyond my dating schematics.

God led me to focus on the **17th of *Tammuz*** (the 4th month of the Jewish religious year). As described in the Twelve Jewish Festivals & Fasts table, the 17th of *Tammuz* is a fast day. Its purpose is to remind God's people to take inventory of their lives, compare them with God's standard, and make any necessary corrections. Since eating might get in the way of this process, worshipers were supposed to fast to get a clearer picture of their lives.

Following that lead, I recalculated everything. To my amazement, everything checked out again. God answered my prayer and confirmed my prediction of the Apocalypse.

The first eleven observations provide proof, through simple mathematics, of dates in the future that are sometimes corroborated in the Aztec, Chinese and Hebrew calendars. These observations are all found in the 7-based system as explained previously in this chapter. That these three floating calendar dates coincide and match is by itself a miracle.

Then just before publication of this book, God revealed this same date in another context, which raised the accuracy of the dating one notch higher to the highest level, because its verification is now also established in the 5-based system. When I re-examined Heaven’s Rosetta Stone binary system of 7:5 ratio, I discovered an extraordinary chronological relationship that connects the 17th of *Tammuz* with the solar system. This point is vital because humans can’t manipulate the solar system, we can only calibrate our calendars to it in an attempt to make them more accurate.

When I used the fast of 17 *Tammuz* as my main reference stake, many of the other important dates found throughout the various tables shifted to fall on solstice or equinox days. These cosmic events cannot be manipulated and changed to fit a particular theory or scholarly opinion.

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

They are determined by the movements in our solar system and not by when people decide to begin or end a month or year.

Prophetic books written in the past failed because of faulty assumptions. Some of those failures can be ascribed to what I call rubber band calendars – calendars that can be manipulated by scholarly analysis. The failed prophetic theories expressed opinion without sufficient or proper use of literary, biblical and scientific witnesses. Some failed due to faulty research methods based on a poor grasp of science and how the universe operates.

For example, most scholars improperly convert their historical and prophetic timelines from prophetic, biblical or Babylonian days to our present, secular solar year. They convert calendar years to biblical years in equations that work in the opposite direction to what is presented here. This mistake alone makes any prophetic alignments between the Bible and our modern calendar impossible to match. This is why many Christian scholars are confused.

I was formally educated in that system, and earlier manuscripts that I gave to friends reflected some of these same wrong assumptions. Remember, I am a trained engineer who must have logical reasons and conclusions. I am used to building things that must work in real life situations and not just pass for a convincing argument. Nice rhetoric is not enough. I must have some kind of tangible proof. What I have learned since starting on these books has convinced me beyond doubt that the many discoveries of solstice/equinox overlays is hard evidence that my conclusions are meaningfully accurate and not just coincidence. These multi-layered alignments have convinced me that my basic assumptions are sound.

In fact I continue to find new supporting “coincidences” every time I read my books. This is because the imbedded Hebrew Alphabet number System is larger than my head. It is impossible for anyone to invent, and it produces too many “coincidences” to be contrived. It will take a while for anyone to grasp it all. Those who want to understand should not be discouraged if it requires reading my books more than once, perhaps some sections several times.

The Probability of Dating the Apocalypse

Projecting a prophetic date by using time measured according to our modern methods could present some uncertainty, because ancient time cycles were often modified to conform to our solar system. It takes modern computers to precisely calculate and align our various calendars from around the world.

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

The discovery of the 5-based system should remove any doubt we might still have. When we study the twelve periods of the seven year Apocalypse, we notice that a number of the dates are cosmic-solar dates – a solstice or an equinox. The solstice and equinox events are fixed and cannot be manipulated by our manmade calendars. In fact they become calibration points to adjust our calendars to. The Apocalypse falls on four diamond corners as expressed in my World Cuckoo Clock within one day's variance despite being calculated from events scattered over thousands of calendar years.

For the skeptic, rest assured, I am not smart enough to invent a complicated system like what is presented in my two books. Not only does it internally align and check itself again and again, take all of the matching dates that fit like a diamond on each corner of the World Cuckoo Clock table, the dates on the Twelve Periods of the Apocalypse table, and/or even to match the 7,000-Year Table of Human History that overlays the cycles and events of the Apocalypse with recorded human history. To dream all of that up would take a genius, which I am not. Just ask my children; they would testify, "Daddy you're no genius, no way."

For all of this to agree as it does, a mathematician would likely come up with a probability of 1: 100000000000000000000....

(I need help to figure this one out.)

When I first made the diagram of the World Cuckoo Clock, I put a diamond over the clock dial. The corners, from left to right, indicate the end of our time period on earth. Time is represented with Jesus Christ, the Creator of this earth, on each corner. Above that we have *Heh* ("the other side"), and in the lower corner we have *Daleth*, indicating "this world in this time."

This diamond was then overlaid with the table of the Twelve Periods of the Apocalypse. The *Daleth* dimension falls within one day of the 4th Period and coincides with the equinox on 23 September 2010. On the opposite of the diamond is *Heh* (9 = "new life"); here 21 March 2014 ending the 9th Period is another equinox. The alpha and omega, beginning and ending solstice dates are 21 December 2008 and 21 December 2015, completing a perfect diamond.

In the middle of the Apocalypse we identified 21 December 2012 as the date when the Aztec calendar ends after 5,125 years. It falls within the 7th Period, on the 1st day of the 7th month of that period. That is the day when Satan will be cast out of Heaven, and the deception and oppression of the *Zayin* Age will begin to end. Like a Russian egg, the table of the Twelve Periods of the Apocalypse fits exactly within what the Bible (the big Egg) teaches. We have now found 12

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

observations/proofs, thus completing the overlay of the Hebrew Alphabet Number System.

The 12 observations described above establish with certainty that the Apocalypse dating presented in this book is not just religious speculation or the opinion of a simple clock maker. These different observations pinpoint the exact dates of the Apocalypse with amazing accuracy. If we apply the laws of probability, the odds are strongly in favor that my proposed timing for the Apocalypse is correct as presented in this book.

There is yet time to either reject this message or act on it. Your mortal and eternal survival is at stake. I hope that this journey into the obscure Hebrew Alphabet Number System has motivated you enough to begin to act in obedience to the over one thousand Bible verses I have quoted in my books.

I pray that I have convinced you that time is running out and that the time for God's correction of a world gone out of control is near. I hope that my fellow Christians will humbly investigate what has been presented and not be found working against God's purpose based on their habitual biases. Wisdom does not answer a matter before hearing it, and the angel told Daniel that the wise shall understand in these latter days.

Let me state plainly that I did not know anything about what I have written in these pages just three years ago. God may use others to verify much of what I have written in the days ahead. Hopefully, others will find the confidence to repeat this warning and the good news of God's coming Kingdom to their quarter of this globe. Until then be it known that:

**The Apocalypse will begin on
21 December 2008 and end on 21 December 2015.**

Many Christians are concerned about dating future events. Some might classify this book as being on the "fringe" in their own circles because it foretells the timing of the end. However, the seven-year Apocalypse is part of Daniel's seventy-week prophecy. (Daniel 9:1-27)

Since the first sixty-nine weeks (483 years) were fixed, and Bible experts have been able to calculate them right up to the prophesied death of Jesus Christ in AD 33, it stands to reason that the last seven years are also fixed in time and can therefore be calculated. The method may vary, but the fundamental argument is proper. The

The Mystery of Tammuz 17

Ancient Hebrew keys to dating the Apocalypse

Apocalypse is part of a pre-set plan. It conforms to both the Hebrew timetable and to Daniel's "seventy weeks" prophecy.

Daniel's prophecies deal with the rise and fall of empires and nations, but He never actually mentions any way to firmly date the first resurrection (or rapture) of the saints. He closed the last chapter of his book with the description of the resurrection that takes place after the "time of distress" - following the end of the Apocalypse. (Daniel 12:1-3; Revelation 20:4, 6)

Postulating definite dates for the Apocalypse makes most Christians uncomfortable because they remember past theories that predicted the Apocalypse and the coming of the Lord that did not come to pass. When these predictions proved false, theologians stepped in with explanations. For example, some theorists came up with a gap theory that stated that God's clock stopped for an indeterminate and approximate, two thousand years. No reason for this was given, but they refer to Bible verses stating that "no one knows the hour."

On "the other side" (*Heh*, 5 = Heaven), there are no clocks, because time does not exist there. However, since the Apocalypse will occur on earth, its timing should be predictable because we do measure time on earth.

God the Father has pre-determined the hour when the resurrection and the translation of the saints will occur so that they will meet Jesus Christ in the air at His appearance. He alone knows the timing of this sequence of events, and no one can know God's mind. We are limited to what He has revealed.

However, God's clock never stopped. With infinite logic the Creator has designed a plan, and like an architect looking at blueprints, we can figure out the structure of God's design and determine much more than most are willing to admit. Most Bible scholars agree that the Scriptures predict an end of today's civilization as we know it. If we analyze biblical prophecies, and separate events that have already occurred on earth from events that will take place in Heaven, we should be able to make predictions with a good degree of accuracy.

The Hebrew Alphabet Number System is only a tool to determine the planned schedule of the Apocalypse railroad train. This schedule was fixed before the system began operation. The concepts of the *Daleth* and *Heh* dimensions only describe our visible material and the invisible metaphysical worlds. These terms provide us with the conceptual tools to understand how the railroad works. The historic-prophetic railroad has arrived at each of the twelve past stations on time for almost 6,000 years. The last two stations (the 13th and 14th) are within sight. Before you know it, the train will be pulling up to them on schedule as it is

The Mystery of *Tammuz* 17

Ancient Hebrew keys to dating the Apocalypse

written. As a human designer, I can see the hand of the Master Craftsman. Therefore, I have confidence in the eternal and omnipotent Designer that He will finish what He started. That is my faith.
